

Tranquil Décor

Adding a splash to outdoor living has never been easier. From real basalt columns to decorative vases, Tranquil Décor water features are designed to provide a simple, elegant way to enjoy the soothing sound of water.

Tranquil Décor Redi-Basins are ideal for small water features. Small on size and big on strength, Redi-Basins are perfect for indoor or outdoor bubbling features.

Tranquil Décor

Tranquil
Décor 

Tranquil Décor fountains are made with an alternative concrete material that is fiber reinforced for strength.

This provides the appearance and durability of traditional concrete products without the cumbersome weight. Tranquil Décor fountains are individually packaged in foam lined boxes to prevent breakage in shipping.

Tranquil Décor fountains have the look and texture of traditional materials without the weight and the price tag!

Vases

Smooth Vases

- The look of ceramic in a more durable fiber reinforced concrete material
- 200-400 GPH flow recommended
- Add LED light for a beautiful night time display

Traditional Vase

- Original double handled vase design
- 200-400 GPH flow recommended
- Add LED light for a beautiful night time display

Tipped Vase

- Deep center cavity and large inlet tubing allow for higher flow
- Handles flows up to 1000 GPH

Self Contained

- Pump and power cord included

“Bronze” Heron

- This resin statue gives the look of bronze - with out the price!
- 200-400 GPH recommended

Columns & Bubblers

Modern Column

Twisted Column

Pebble Fountain

Real Basalts

Few things can match the simple beauty of real basalt columns. Natural cut sides with polished ends make for a beautiful display even if the pump is off.

Polished Top Basalts

- Available in 10", 14", 20", 27" and 35" heights
- Each column is core drilled with a hole from end to end to accommodate tubing, the last 1 1/2" is enlarged to hide light ring
- Recommended flow rate of 200 - 400 GPH per column
- Ideal for use with FBL40 or FBL48 basins, use concrete blocks in basin for added support for these heavy weight columns
- Basalts can be ordered individually or in a three piece set - order plumbing kit separately
- Polished tops spill water from all sides
- Add LED light for beautiful night time display
- Due to natural characteristics of the basalts - the size, weight and number of sides will vary

Sloped Basalt

- Sloped, natural top directs flow in one direction
- Recommended flow rate of 200 GPH
- Can be used with RBH26, RBH21 or FBL40 basins
- Each column is core drilled with a hole from end to end to accommodate tubing, the last 1 1/2" is enlarged to hide light ring
- Ideal for use with FBL40 or FBL48 basins, use concrete blocks in basin for added support for this heavy weight column
- Add LED light for beautiful night time display

Complete Real Basalt Kits

- Kits available with basin, pump, basalts, plumbing and lights!
