

2-in-1 Septic & Drain Treatment

SEP12

Features

Maintaining a properly working septic system and drain field is made easy with 2-in-1 Septic & Drain Treatment. When a septic system and drain field are neglected or poorly maintained they can back up or fail causing a huge mess and expensive fixes. 2-in-1 Septic & Drain Treatment is a proprietary blend of enzyme producing bacteria that work quickly to digest sludge, grease, paper and solid waste to keep the system working properly. Water soluble packets are simply dropped in the toilet and flushed – no mess, no measuring, no worries!

- A natural bacteria product for treating residential septic systems and household drains
- Billions of enzyme producing bacteria work to accelerate the breakdown of common household wastes such as cooking greases, vegetable oils, fruit/vegetable wastes, sugars, starches, proteins, human wastes, toilet tissue and hair
- Pre-measured dissolvable packets that dissolve in minutes
- No messy powders or liquids
- Helps prevent costly and unpleasant system backups
- Reduces odors in drain lines and garbage disposals

1 packet per month

Ideal For

- Keeping septic systems operating efficiently
- Treats 1000 gallon septic tank for a year

Directions for Use

Quick and easy septic treatment:

Simply drop one (unopened) water soluble packet into toilet. It will dissolve in minutes. Flush toilet to force product into septic tank.

Household drains:

Drop one (unopened) water soluble packet into one gallon of warm water. Stir solution before applying.

Pour one to two cups of solution down each sink, shower and garbage disposal drain. This will simultaneously treat your septic tank and restore slow flowing drains.

KEEP OUT OF REACH OF CHILDREN

When to Use

- To accelerate the breakdown of common household wastes
- To keep septic system operating efficiently, prevent backups and control odors
- Once a month
