

Features

EasyPro's family of water treatment products is designed to work together to achieve the natural ecological balance your pond needs to maintain clean, clear water.

EasyPro Water Conditioner provides an ecological environment that allows for natural water balance. It protects fish by instantly neutralizing chlorine and destroying chloramines found in city water. It also detoxifies heavy metals found in both city and well water.

One of the most concentrated tap water conditioners available, EasyPro Water Conditioner provides trusted results economically and is ideal for use in water gardens and koi ponds.

- Removes chlorine
- Destroys chloramines
- Buffers pH
- Detoxifies heavy metals
- Maintains a healthy, balanced ecosystem and reduces pond maintenance

1 fl. oz. per
1,000 gallons

Directions for Use

- Use EasyPro Water Conditioner for new pond start up, water changes or when “topping off” water levels
- Apply 1 fl. oz. per 1,000 gallons of pond water to remove 1 ppm chlorine
- Apply 1 fl. oz. per 500 gallons to remove high concentrations of heavy metals from well or city water

KEEP OUT OF REACH OF CHILDREN

Safe for fish & aquatic life

When to Use

- Apply directly to new ponds or immediately after water changes to remove toxins and reduce stress on fish or other aquatic life
- Spring, summer and fall — as needed
