

Fountain LED Light Kit Installation Instructions For Kasco Fountains

Thank you for purchasing the SLK9 fountain light kit. This kit will transform your fountain into a beautiful night time display. These rugged stainless steel lights will provide years of reliable service.

Your light kit requires a small amount of assembly:

1. Attach the aluminum bracket to the float with the stainless steel bolts provided (see figure 1a and 1b). A three light set can be attached as you see in figure 2, the arrows indicate where you would attach the two light kit.
2. The junction seal (located approximately 3' back from lights) attaches to the fountain power cord using two of the black cable ties included with your kit. Any extra cord between the junction box and the light **MUST BE SECURED** to the fountain. Failure to do this could result in the cord becoming sucked into the fountain impeller and will void the warranty!
3. Mount the transformer/timer in a secure location. The transformer is weatherproof and does not need to be protected from the weather. The photo eye on the transformer will turn on the lights at dusk. Turn the knob on the transformer to select four, six or eight hours of operation after dark.
4. Over time the lights may appear dimmer than when new. This is caused by algae or sediment on the lens of the light. This can be easily removed with a small brush (a toothbrush works great!).

These low voltage lights use only 9 watts per fixture

SLK9 FOUNTAIN LED LIGHT KIT - FOR KASCO UNITS

Limited Warranty:

This Fountain LED Light Kit has a limited warranty against any mechanical or material defects for a period of three years on the light fixtures from the date of purchase, the transformer included also has a limited warranty of three years. Limited warranty only covers properly installed and maintained units.

The limited warranty does not normal wear and tear, nor any deterioration suffered through overloading, improper use, negligence or accident. Damaged to units caused by abuse, animals, acts of nature or other outside sources are not covered under warranty. Similarly, any modification made by the purchaser to the product will cause the warranty to be null and void.

All returned items will be inspected to determine cause of failure before warranty is approved. Limited warranty does not cover any cost associated with the installation or removal of the product subject to warranty claim.

An RA number must be obtained by calling EasyPro Pond Products at 800-448-3873. It is your responsibility to pay the return shipping charges. Be sure to include the RA number, original receipt (in the form of an invoice or sales receipt), name, return address and phone number inside of the package. No warranty claims will be honored without the original receipt.

Ensure the product is properly packaged and insured for the replacement value. Damage due to improper packaging is the responsibility of the sender.

The manufacturer or supplier shall not be held liable for any damages caused by defective components or materials of this product; or for loss incurred because of the interruption of service; or any consequential/incidental damages and expenses arising from the production, sale, use or misuse of this product.

The manufacturer or supplier shall not be held liable for any loss of fish, plants or any other livestock as a result of any failure or defect of this product.
