

LAKE & POND LABELS

All Season Bacteria with Cold Water Species - Powder (WSP)

5 LB PAIL, 10 LB PAIL, 25 LB PAIL, 50 LB BOX

LP1

All Season Pond Bacteria With Barley Straw & Cold Water Bacteria **10 lbs**

DOSAGE RATES
 Avoid using copper-based algicide for 48 hours before applying.
 For best results All Season Pond Bacteria should be added every 2 weeks when water temperatures are above 55° F. Cold water strains will have effectiveness in water temperatures as low as 38° F.
Initial Dose: Double the Maintenance Dose (shown below) to jump start the process.
Maintenance Dose:
 Newer pond with little "muck" - 4 lbs per surface acre every 2 weeks
 Older pond with high levels of "muck" - 6 lbs per surface acre every 2 weeks

This special blend is designed to:

- Diminish bottom sludge buildup
- Remove pond odors
- Enhance water clarity
- Lower oxygen demand
- Eliminate excess nutrients
- Be safe for fish, families and animals

EASY TOSS! 8 oz Water Soluble Packets

LAKE & POND LABELS

Sludge Pellets - 3g Dissolvable Pellets

5 LB PAIL, 10 LB PAIL, 25 LB PAIL, 50 LB BOX

LP7

LOGO

10 lbs
3g pellets (with 8 oz scoop)

This product is an all-natural formulation of beneficial pond bacteria for use in large ponds and lakes. When used regularly, this product:

- Reduces bottom sludge and muck
- Reduces murky water
- Reduces ammonia, nitrite, nitrate & phosphate
- Removes pond odors and muck
- Is safe for fish, families and animals
- Performs in water temperatures as low as 38° F

DOSAGE RATES
Avoid using copper-based algacide for 48 hours before applying. For best results, Sludge Remover Bacteria Pellets should be added every 2 weeks when water temperatures are above 55° F. Cold water strains will have effectiveness in water temperatures as low as 38° F.

Spot Treatment: One scoop per 1000 to 1500 sq ft of beach, shoreline or problem area every 2 weeks.

Full Pond Treatment: Broadcast two scoops per 1/4 acre pond surface area every 2 weeks.

For maximum results, use in conjunction with All Season Pond Bacteria.

Oxygen-based Rock & Waterfall Cleaner - Powder

LP41

Oxygen-based **ROCK & WATERFALL CLEANER**

Quickly and effectively removes waste and debris from rocks

25 lbs (11.34 kg)

One pound treats 300-400 sq ft

APPLICATION INSTRUCTIONS

Turn off pumps when treating streams or waterfalls. Use one (1) lb for every 10 square feet of surface area to be treated. Sprinkle it this liquid directly onto streams, waterfalls, rocks or any other problem areas of the pond.

Allow product to set for 30 minutes before turning pump back on. Ensure pond is well-aerated with mechanical aeration device or remove excess debris with a fine mesh filter after treatment.

NOTE:

- Use monthly as routine maintenance or as needed for problem areas of the pond.
- Allow 48 hours between consecutive applications.
- Avoid direct contact with plant leaves as product may cause desiccation.
- Product may cause short term spikes in pH levels. Check pH before application.

IDEAL FOR:

- Recreational Ponds
- Gold Course Ponds
- Retention Ponds
- Aquaculture
- Farm Ponds

HOME CARE LABELS

Septic & Drain Treatment (1 oz WSP) - 1 Year Supply

Septic & Drain Treatment (1 oz WSP) - 2 Year Supply

HC1

0.75 LB JAR

Each concentrated pre-measured dissolvable packet treats a 1500 gallon septic tank PLUS all household sinks, showers, floor drains and garbage disposals, septic tanks and drain lines. Each water-soluble packet contains over 20 billion enzyme-producing bacteria. These beneficial bacteria accelerate the breakdown and elimination of common household wastes such as cooking grease, vegetable oils, fruit and vegetable waste, sugars, starches, proteins, human waste, toilet tissue and hair.

This formulation helps keep septic systems operating efficiently and helps to prevent system backups. It also helps restore slow-flowing drain lines, prevents clogged drains and reduces nuisance odors in drain lines and garbage disposals.

CAUTION: Keep out of the reach of children. Not for human or animal consumption. Product contains non-pathogenic bacteria cultures. Eye and skin irritant. Avoid contact with eyes and mucous membranes. In case of eye contact, remove contact lenses, if applicable, and flush with water for 15 minutes. Do not ingest. If swallowed, drink water and do NOT induce vomiting. In case of skin contact, wash with soap and water. If needed, seek medical attention or contact your local Poison Control Center.

Professional Strength • No Measuring • No Messy Powder
Two year (24 monthly treatments) concentrated formula supply!

2-IN-1 TREATMENT SEPTIC & DRAIN

LOGO

555.123.4567 • www.yourpondmanage.com
Net Contents: 24 Water Soluble Packets

PRE-MEASURED WSP
No measuring! No messy powder! Each concentrated water soluble packet (WSP) dissolves within minutes of coming into contact, leaving no mess behind.

QUICK & EASY MONTHLY SEPTIC TANK TREATMENT
Simply drop one (1) water soluble packet into toilet once per month. Do not open packet. It will dissolve in water within minutes. Flush toilet to force the product into the septic tank. Water soluble packet leaves no mess behind in your toilet bowl. Apply product in the evening when the water flow has stopped for the day.

TREAT SEPTIC TANK & HOUSEHOLD DRAINS
(Sink Drains, Shower Drains, Garbage Disposals) Drop one (1) water soluble packet into one (1) gallon of warm water. (Fig. A) Do not open packet. It will dissolve in water within minutes. Stir solution before applying. Pour 16 fl oz (2 cups) of activated solution down each sink drain, shower drain and garbage disposal. (Fig. B) This will simultaneously treat your septic tank. For best results, stir solution before applying to each drain. Apply product in the evening when water flow has stopped for the day.

Simply drop one (1) water soluble packet into toilet once per month. Do not open packet. It will dissolve in water within minutes. Flush toilet to force the product into the septic tank. Water soluble packet leaves no mess behind in your toilet bowl. Apply product in the evening when the water flow has stopped for the day.

TREAT SEPTIC TANK & HOUSEHOLD DRAINS
(Sink Drains, Shower Drains, Garbage Disposals) Drop one (1) water soluble packet into one (1) gallon of warm water. (Fig. A) Do not open packet. It will dissolve in water within minutes. Stir solution before applying. Pour 16 fl oz (2 cups) of activated solution down each sink drain, shower drain and garbage disposal. (Fig. B) This will simultaneously treat your septic tank. For best results, stir solution before applying to each drain. Apply product in the evening when water flow has stopped for the day.

HC2

Pre-measured dissolvable packets treat septic tanks & drain lines. Each water-soluble packet contains over 20 billion enzyme-producing bacteria. These beneficial bacteria accelerate the breakdown and elimination of common household wastes such as cooking grease, vegetable oils, fruit and vegetable waste, sugars, starches, proteins, human waste, toilet tissue and hair.

This formulation helps keep septic systems operating efficiently and helps to prevent system backups. It also helps to restore slow-flowing drain lines, prevents clogged drains and reduces nuisance odors in drain lines and garbage disposals.

CAUTION: Keep out of the reach of children. Not for human or animal consumption. Product contains non-pathogenic bacteria cultures. Eye and skin irritant. Avoid contact with eyes and mucous membranes. In case of eye contact, remove contact lenses, if applicable, and flush with water for 15 minutes. Do not ingest. If swallowed, drink water and do NOT induce vomiting. In case of skin contact, wash with soap and water. If needed, seek medical attention or contact your local Poison Control Center.

Professional Strength
Each concentrated dose (1 packet) contains as much active ingredients as 10 oz of the leading powder and 22 fl oz of the leading liquid.

Pre-Measured WSP
No measuring! No messy powder! Each concentrated water soluble packet (WSP) dissolves within minutes of coming into contact, leaving no mess behind.

WATER GARDEN LABELS

All Season Pond Bacteria with Cold Water Species - Liquid

16 FL OZ & 32 FL OZ BOTTLE

128 FL OZ BOTTLE

WG1

LOGO

All Season Liquid
Pond Bacteria

Treats 16,000 gallons

Reduces Murky Water
Reduces Bottom Sludge/Muck
Reduces Ammonia & Nitrite
Reduces Nitrate & Phosphate

32 fl oz (946 mL)

Your Pond Management Co., LLC
1234 Your Street
Hometown, ST 00000
555.123.4567
www.yourpondmanage.com

DIRECTIONS:
For best results, begin treatment when water temperatures are above 55° F. Cold water strains will have effectiveness in water temperatures as low as 38° F. Shake well before use. Apply 2 fl oz per 1000 gallons of pond water every 1 to 2 weeks. Safe for fish & aquatic life.

This all-season formulation contains beneficial pond bacteria, enzymes and growth nutrients. It is designed to keep koi ponds and water gardens clean year-round. It will eliminate murky water, bottom sludge, excess fish food, fish waste and decaying plant material.

KEEP OUT OF REACH OF CHILDREN. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

WATER GARDEN LABELS

All Season Bacteria - 3g Dissolvable Pellets

5 LB PAIL, 10 LB PAIL, 25 LB PAIL

WG53

10 lb (3g pellets w/ 8oz scoop)

LOGO

Bacteria Pellets Sludge Remover
Contains Multiple Cold Water Bacteria Species

These all season pellet formulations contain beneficial pond bacteria, designed for year-round use in koi ponds and water gardens. It is produced using a "no mess" pellet which immediately begins to dissolve on contact with the water. It also performs in water temperatures as low as 35°F.

DOSAGE RATES
Avoid using copper-based algaecide for 48 hours before applying. For best results, pellets should be added every two weeks when water temperatures are above 55°F. Cold water strains will have effectiveness in water temperatures as low as 38°F.

Spot Treatment: One scoop per 1000 to 1500 sq ft of beach, shoreline or problem area every 2 weeks.
Full Pond Treatment: Broadcast two scoops per 1/4 acre pond surface area every two weeks.

Reduces Murky Water and Odor
Reduces Bottom Sludge/Muck
Reduces Toxic Ammonia & Nitrite
Reduces Nitrate & Phosphate

WATER GARDEN LABELS

Barley Straw Liquid Extract

16 FL OZ & 32 FL OZ BOTTLE

128 FL OZ BOTTLE

WG75

LOGO

This all-natural barley straw formulation is fermented under ideal conditions capturing the barley extract, allowing it to work immediately out of the bottle with no mess.

Barley straw extract is the natural solution to maintaining a clean and healthy pond all year long. You can enjoy the benefits of barley straw without the mess or the wait.

It is safe for use around fish, birds, plants and pets. It has been uniquely designed for koi ponds and water gardens. It will help maintain water clarity all season long.

Concentrated Barley Straw Extract
TREATS 16,000 GALLONS

Promotes Water Clarity
No Mess, Fast Acting
Safe for animals & plants

DIRECTIONS
Shake well before use. Apply 2 to 4 fl oz per 1000 gallons of pond water every 1 to 2 weeks or as needed.

Storage and Disposal: Store at room temperature and keep from freezing. Keep container closed when not in use. Do not reuse or refill this container.

Safe for fish & aquatic life.

WG78

LOGO

Promotes Water Clarity
No Mess, Fast Acting
Safe for animals and plants

This all-natural barley straw formulation is fermented under ideal conditions capturing the barley extract, allowing it to work immediately out of the bottle with no mess.

Barley straw extract is the natural solution to maintaining a clean and healthy pond all year long. You can enjoy the benefits of barley straw without the mess or the wait.

It is safe for use around fish, birds, plants and pets. It has been uniquely designed for koi ponds and water gardens. It will help maintain water clarity all season long.

Concentrated Barley Straw Extract
TREATS 16,000 GALLONS

DIRECTIONS
Shake well before use. Apply 2 to 4 fl oz per 1000 gallons of pond water every 1 to 2 weeks or as needed.

Storage and Disposal: Store at room temperature and keep from freezing. Keep container closed when not in use. Do not reuse or refill this container.

Safe for fish & aquatic life.

WATER GARDEN LABELS

Barley Straw Pellets

5 LB & 10 LB PAIL

WG83

10 lbs

LOGO

These pellets are all natural and less messy than traditional barley straw bales. They contain active ingredients that help keep water clean and clear. They produce a steady and extended release for up to eight weeks!

DOSAGE RATES
Includes an 8 oz scoop for application.
Apply 1 scoop (8 oz) per 300 gallons of pond water. Apply where water is moving and less than 3 feet deep. Water may become cloudy after application, which will clear after a few days.
Pellets can be applied directly to the pond water or placed in a mesh bag in a biological waterfall filter.
Apply every 3 to 4 weeks.

Extended Release Barley Straw Pellets

All Natural, Fast Working Formula
Maintains a healthy balanced ecosystem
Reduces Pond Maintenance

Oxygen-based Rock & Waterfall Cleaner - Powder

2 LB JAR

WG91

APPLICATION
Turn off pumps when treating streams or waterfalls. Use one (1) oz for every 10 square feet of surface area to be treated. Sprinkle a thin layer directly onto streams, waterfalls, rocks or any other problem areas of the pond.

NOTE:
• Use monthly as routine maintenance or as needed for problem areas of the pond
• Allow 48 hours between continuous applications
• Avoid direct contact with plant leaves as product may cause discoloration
• Product may cause short term spikes in pH levels, check pH before application

Liquid Rock & Waterfall Cleaner
Treats up to 9,600 gallons

Quickly and effectively remove waste and debris from rocks

APPLICATION
Eye protection is recommended when applying product.
Apply one (1) fluid ounce per 300 gallons of water once a week. Can be applied directly to the pond or mixed in a bucket of pond water to evenly spread around the pond or fountain.
For best results, apply in the morning, under sunny, calm conditions. Debris can be removed from pond with a skimmer or a net.
Repeat as needed every three days until desired results are achieved.
Store in cool, dry and ventilated area, not in direct sunlight. Avoid overheating or freezing the product.
May cause lower pH levels.

DANGER: HARMFUL IF SWALLOWED, CAUSES SEVERE SKIN AND EYE IRRITATION.
Contains: Hydrogen peroxide
Wash hands thoroughly after handling.
FIRST AID: If swallowed, IMMEDIATELY call for emergency medical assistance DO NOT induce vomiting. Rinse mouth with water and drink 1-2 glasses of water. Never give anything by mouth to an unconscious person.
For eye contact, IMMEDIATELY flush with cool running water for at least 15 minutes while holding eyelids apart. DO NOT rub the affected area. Remove contact lenses if applicable.

www.yourpondmanage.com

One of the most comprehensive water conditioners available

This formulation is not a medication, chemotherapeutic agent or economic poison. It is stable for an indefinite time frame, if kept in original container, and stored away from heat and sunlight.

It is compatible with most other water conditioners and antibiotics. It is not compatible with strong oxidizing agents. Do NOT use with unchelated copper medications as this formulation will deactivate the "free" copper in that medication.

Treats 1,920 gallons

- Detoxifies heavy metals
- Adds slime coat & electrolytes
- Buffers pH & reduces stress
- Reduces ammonia, nitrite, chlorine & chloramines

128 fl oz

APPLICATION

Shake well before using.

Apply one (1) fluid ounce per 60 gallons of tap water to remove 1 mg/L (1ppm) ammonia.

STORAGE: When not in use, store in temperatures between 60-100°F. Avoid getting product in your eyes. In case of eye contact, rinse immediately with water.

Wash hands after use. If swallowed, seek immediate medical attention.

KEEP OUT OF REACH OF CHILDREN. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

Your Pond Management Co, LLC
1234 Your Street • Hometown, ST 00000
555.123.4567
www.yourpondmanage.com

One of the most comprehensive water conditioners available.

This formulation is not a medication, chemotherapeutic agent or economic poison. It is stable for an indefinite time frame, if kept in original container, and stored away from heat and sunlight.

It is compatible with most other water conditioners and antibiotics. It is not compatible with strong oxidizing agents. Do NOT use with unchelated copper medications as this formulation will deactivate the "free" copper in that medication.
