Innovation, Quality, Experience

EasyPro had a modest beginning in 1970 as a small family owned fishery in Grant, Michigan. Still family owned and in the same location for five decades, we have grown into one of the largest manufacturers of pond, water feature and lake equipment in the country. Providing innovative products is an ongoing part of our business. With these products and years of experience, we seek to help customers imagine, create and enjoy their water features. This resource guide includes our main product base. Our complete line of products can be viewed at www.easypro.com.

Waterfall Filters

Feature by Weekending, Inc. (MI)

AquaFalls Biological Waterfall Filters

- Easy to install, simply bolt lip to filter and you're done
- AquaFalls filters are buried into the ground making them easy to hide
- Inlet holes on each side of the filter (except the mini AquaFalls). Use one and simply plug the other hole with plug (included) or use as drain
- Can be ordered with Matala filter pads
- Also available with termination strips for those who prefer to use real stone

Pressurized Filters & UV Clarifiers

ECF40

ECF25

ECF10

Pressurized Filters

High quality, economical pressure filters are ideal for pre-formed ponds and other small water features needing effective filtration with minimal investment.

- Sturdy filter housings – can be buried up to cleaning ring for easy concealment
- Optional built-in UV for crystal clear water
- Dual filtration – filter pads collect solid debris while bio-media provides excellent biological filtration
- Cleaning indicator – spring loaded, shows when filter needs to be cleaned
- Easy to clean – filters are easy to disassemble
- Multi step connectors – inlet/outlet fittings accept a variety of tubing sizes

PART #	MAX POND SIZE	UV/ WATTS	INLET/OUTLET SIZES	RECOMMENDED MAX GPH FLOW
ECF10	1000 Gallons	No	1/2", 3/4", 1"	600
ECF10U	1000 Gallons	Yes/7	1/2", 3/4", 1"	600

ECF40U	4000 Gallons	Yes/13	3/4", 1", 1 1/4", 1 1/2"	2000

EasyPro UV clarifiers

- True quartz glass sleeve
- Multi-step connectors for 3/4", 1", 1 1/4" and 1 1/2" tubing
- Tough, impact resistant housings
- Threaded housing is 1/2" mpt for PVC connection
- Weatherproof ballasts with 15' power cord
- Dual outlets – use either side for easy plumbing layout

PART #	WATTS	MAX. FLOW GPH	MAX. POND SIZE
EPU18N	18	2100	4000 gallons
EPU36N	36	3900	7000 gallons

Submersible Pump/Filter/UV Combo

Combines pump, filter, UV and fountain into one complete unit. Ideal for small and pre-formed ponds.

- Includes three fountain nozzles and diverter valve
- Eleven watt UV for crystal clear water
- 675 gph pump with 20' power cord, 48 watts
- Mechanical and biological filtration media included
- Swivel joint for easy leveling of fountain nozzles
- For ponds up to 1250 gallons

ESF1250

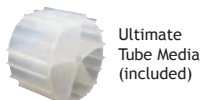

Bead Filters & Commercial UV Clarifiers

Pressurized Bead Filters

Mechanical and biological filtration for water gardens, koi ponds, fish display systems and hybrid ponds.

- Uses six position control head
- Strong, heavy duty, polyethylene filter body
- Ultimate Tube Media included for maximum filtration and minimal back pressure
- Has clear section to monitor cleaning cycle
- Simple to set up and assemble, great filters for fish displays
- Free unions included for plumbing lines

Ultimate Tube Media (included)

Optional Upgrades:

Air Blower – to agitate the media prior to back-flush, speeding up the process.

PART #	MAX POND SIZE	DIAMETER X HEIGHT*	INLET/OUTLET SIZE	MAX GPM†
PBF1800	1800 Gallons	16" x 31"	1 1/2"	30

Water Garden Aeration

Feature by Star Ridge Aquatics (NC)

Installing an aeration system in your pond has many benefits including:

- Ensures adequate oxygen levels during hot summer months
- Maintains open water during winter months in freezing climates eliminating winter kill
- An energy efficient way to aerate, destratify and circulate water in water gardens and koi ponds
- Increased oxygen levels, which will help with decomposing organic material, result in a cleaner and healthier pond
- Reliable – linear compressors have few moving parts and are less likely to need repair
- Easy to install – compressors sit on shore connected by tubing to bottom air diffusers

CAS Compact Aeration Series **Quiet, energy-efficient aeration and de-icing for pennies a day!**

- Energy efficient, continuous duty compressor
- 2 year warranty
- All units include adjustable air flow.
- Includes 25' roll(s) of vinyl tubing, air diffuser(s), compressor
- Proper outdoor enclosure needed for compressor

PART #	DESCRIPTION	APPROXIMATE POND SIZE*	ELECTRICAL USAGE	WARRANTY (YEARS)
CAS1	Aeration Kit, Single Diffuser	Up to 1000 Gallons	2.7 watts	2
CAS2	Aeration Kit, Dual Diffusers	Up to 2000 Gallons	4 watts	2
CAS4	Aeration Kit, Quad Diffusers	Up to 3500 Gallons	8.2 watts	2

*Fish load, filtration capacity and other factors affect actual maximum pond size

Provide some **Koi Loving Care** for your pond!

- Adequate oxygen levels and circulation during summer and de-icing capability during winter
- Kits available for wide range of water garden and koi ponds up to 30,000 gallons
- Quiet, energy efficient compressors with CUL and UL listing for outdoor use
- 3 year warranty
- Includes compressor, diffuser(s), connectors and QuickSink tubing

PART #	DESCRIPTION	APPROXIMATE POND SIZE*	ELECTRICAL USAGE	WARRANTY (YEARS)
LA1	Aeration Kit, Single Diffuser	1000-7500 Gallons	23 watts	3
LA2	Aeration Kit, Dual Diffusers	2000-15000 Gallons	36 watts	3
LA3	Aeration Kit, Triple Diffusers	3000-22500 Gallons	60 watts	3
LA4	Aeration Kit, Quad Diffusers	4000-30000 Gallons	70 watts	3

*Fish load, filtration capacity and other factors affect actual maximum pond size

Water Treatments & Fish Food

"All Season" Liquid Pond Bacteria

- Works in water temperatures down to 45°F, one product for Spring, Summer and Fall
- Removes ammonia, nitrites, nitrates, phosphates & sludge

PART #	SIZE
ASB16	16 oz.
ASB32	32 oz.
ASB128	128 oz.

2 fl oz per
1,000 gallons

Liquid Barley Straw Extract

- All natural liquid formula – easier to use than pellets or bales
- Keeps water clean and clear

PART #	SIZE
BSE16	16 oz.
BSE32	32 oz.
BSE128	128 oz.

2 fl oz per
1,000 gallons

Rock & Waterfall Cleaner

- Quickly clean rocks, water features, fountains, statues, etc.
- Powdered formula with oxygen based cleaning

PART #	SIZE
OXY2	2 lbs.
OXY8	8 lbs.

1 lb per
300-400 sq ft

Sludge Remover Bacteria, Dry

- One ounce water soluble packets
- Extends filter life
- Great for ponds with gravel covered bottom

PART #	SIZE
SRB12	12 packets
SRB24	24 packets

1 packet per
1000 gallons

EasyPro water treatments and fish foods are proudly Made in the USA

Max Color Fish Food

- High quality feed designed to provide a staple diet & enhance vibrant colors

- Fortified with spirulina and other marine ingredients to enhance natural coloration
- 3/16" floating pellet

PART #	SIZE
PC1	20 oz.
PC5	5 lb.
PC33	33 lb.

Max Growth & Color Fish Food

- A high performance diet designed for growing fish
- Fortified with spirulina and other marine ingredients for maximum color of koi and goldfish
- 1/8" floating pellet does not cloud water

PART #	SIZE
PG1	20 oz.
PG5	5 lb.
PG33	33 lb.

Cold Water Fish Food (Wheat Germ)

- Wheat based diet ideal for feeding during colder periods of the year
- Low protein, low fat diet that is easily digested by fish during colder water temperatures
- 3/16" floating pellet with two year shelf life

PART #	SIZE
CWF1	20 oz.
CWF5	5 lb.

Revolution

COLOR CHANGING LED LIGHT

- Wide spectrum of color options
- Epoxy filled. Use in or out of water
- Sync with all your other Cabrio lights using a single remote control.
- 15' power cord with quick connect plugs

CLED4SS

Stainless steel housing with removable base!

PART #	DESCRIPTION
CLED11	Cabrio 11" color changing light strip
CLED23	Cabrio 23" color changing light strip
CLED35	Cabrio 35" color changing light strip
CLED4SS	Cabrio compact color changing stainless steel light
CLEDRC	Cabrio remote control - control all lights above

CLED23

LED4WW

3 Watt LED Light

- Cast aluminum housing and removable base
- 3" tall x 1⁵/₈" diameter
- Equivalent of 20 watt halogen bulb
- Warm white

LED6WP

6 Watt LED Light

- Four colored lens with warm white bulb
- Bulb rated for 80,000 hours
- Equivalent of 35-50 watt halogen bulb
- 30' power cord

LED9WW

9 Watt Stainless LED Light

- Warm white bulb, 1230 lumens per fixture
- 6" tall x 4³/₄" diameter
- Also available in 2-light kit
- Durable stainless steel

PART #	DESCRIPTION	POWER CORD	WARRANTY
LED4WW	3 watt aluminum, warm white, LED light, 3" tall x 1 ⁵ / ₈ " diameter	15'	2 years
LED6WP	6 watt plastic, warm white, LED light	30'	3 years
LED9WW	9 watt stainless steel, warm white, LED light	30'	5 years
LED8B3	LED Statuary 3-light kit, 1 ³ / ₈ " diameter	6'	1 year

TH Series Pumps

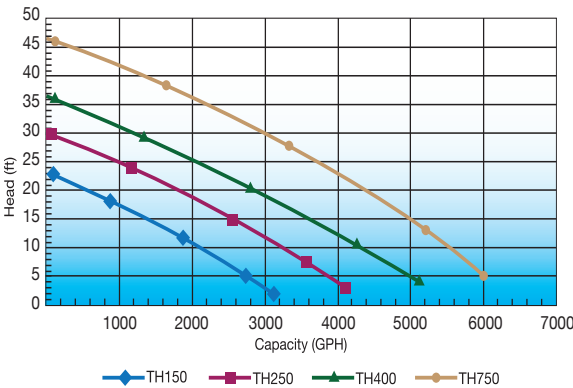

Energy efficient, long lasting TH Pumps – great pumps for waterfalls and streams

The “TH Series” of pumps has proven to be a great choice for ponds, waterfalls, fountains and similar applications. Thousands of these pumps are in use throughout North America in a wide variety of continuous duty applications. Compact design is ideal for use in skimmers. One of the industry’s best selling pumps.

- Rugged motor – designed for long life, continuous duty operation; motor housing is corrosion-resistant stainless steel
- Low maintenance – pump casing is made from abrasion resistant, fiber reinforced plastic for maximum life
- Vortex design prevents clogging
- Built-in overload and overheat motor protection
- 2" female threaded outlet
- Units with 50' and 100' power cords available

Optional bottom screen available!

High Volume Pumps

Feature by Landscape Professionals (OH)

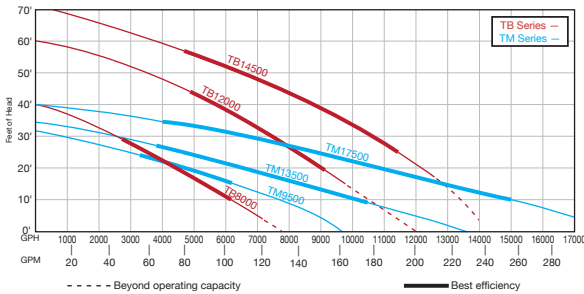

TM Low Head Series

- Thermal overload protection
- Oil free design – ideal for fish ponds
- Two year warranty
- Top quality double mechanical seals

TB High Head Series

- Thermal overload protection, 230v
- Top quality double mechanical seals
- Two year warranty
- For use with higher head pressure

EasyPro pumps stand out from the crowd in features, benefits and durability. With many models sized from small ponds to large falls, EasyPro offers a model for just about any need.

*The TM9500 and TM13500 are also available in 230v.

8' Stream with 4' x 4' x 2' Reservoir
#JAF8W

24' Stream with 6' x 6' x 2' Reservoir
#JAF24W

16' Stream with 5' x 5' x 2' Reservoir
#JAF16W

28' Stream with 6' x 6' x 2 1/2' Reservoir
#JAF28W

Buy a complete kit and save!

Just-A-Falls kits include everything you need to build a beautiful waterfall including:

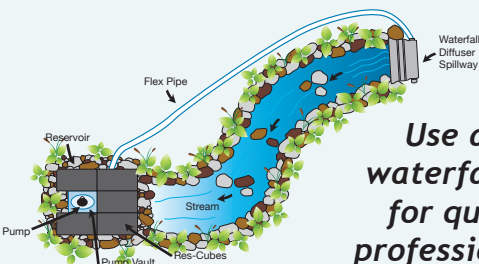

- EPDM rubber liner
- Check valve assembly
- Underlayment
- Waterfall spillway
- EasyPro pump vault
- Flexible PVC pipe
- Submersible pump
- WIK installation kit

Kits available with or without res-cubes. Res-cubes will reduce the reservoir size needed as well as the amount of rock. The liner size is the same, leaving extra liner for a longer stream.

With an EasyPro Just-A-Falls kit not only are the necessary items included but they are also compatible. The illustration above is an example of a pondless waterfall using reservoir cubes.

Many sizes available with up to 30' streams, please see our website for details

Use a **UWD23** waterfall spillway for quick, easy, professional stream

Clog-Free Design

Stainless steel for maximum strength

- Internal baffle calms incoming water – creating even, smooth flow over lip
- Available with standard 2" lip or 6" and 15" extended lip in several widths, call for details
- LED light strips can be used on spillways
- Kits available from 11¹/₂" to 35¹/₂" widths, includes everything you need to install in your block wall
- All kit components available individually and up to 71¹/₂" wide

Feature by Bogert

ADD "EX" TO THE END OF ANY VIANTI FALLS KIT ABOVE FOR A SYSTEM WITH A 6" EXTENDED SPILLWAY

Vianti Falls Wall Scuppers

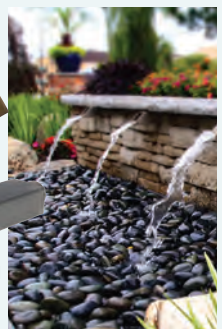

Available in several styles: antique, diamond, round, square and channel

Stainless Steel

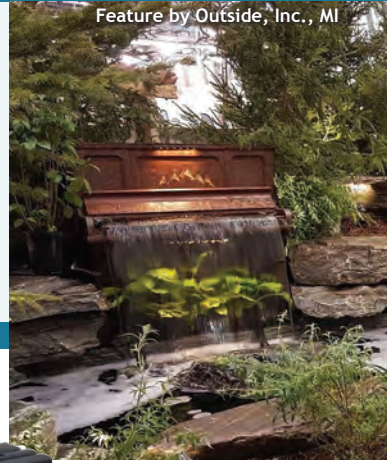

304 stainless steel. Electropolished for extra protection in pools and other chlorinated systems. Bonding lugs added.

Antique Brass

Solid brass with antique finish. Ground screw included on BWS2F and BWS2RN units. Perfect for adding a formal look to pools and water features.

EasyPro offers the largest selection of U.S. made waterfall spillways in the industry! The Eco-Series spillways are available in 12" to 48" widths while the patented Pro-Series modular system can be made in endless sizes and shapes. Waterfall spillways are the perfect choice for Just-A-Falls (pond-less) systems, signs, swimming pool features and other installations.

Waterfall Diffusers – made to last and faster to install than any other spillway available

- Extra strong vertical rib design creates nearly indestructible diffuser
- Can be used in multiples for wider applications
- Easy to conceal with low 3 1/2" profile design
- 16" or 23" copper attachment available separately

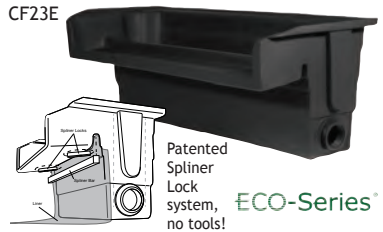

The Original & Still The Best!

PART #	DESCRIPTION	DIMENSIONS (L X W X H)	INLET SIZE/LOCATION
UWD16	16" Waterfall Diffuser	16" x 14" x 3 1/2"	2" Both Ends
UWD23	23" Waterfall Diffuser	23" x 14" x 3 1/2"	2" Both Ends
UWD32	Dual 16" Waterfall Diffusers	32" x 14" x 3 1/2"	2" Both Ends
UWD46	Dual 23" Waterfall Diffusers	46" x 14" x 3 1/2"	2" Both Ends

Eco-Series one piece waterfall spillways, ideal for creating pondless water features

- Easy installation – liner attaches to spillway using the patented "Spliner Lock" system, no tools
- Dual inlets and 4" diffuser tube
- Water enters from either end (or both ends) and spreads out evenly across width of spillway

Patented Spliner Lock system, no tools!

ECO-Series

PART #	DESCRIPTION	DIMENSIONS (L X W X H)	INLET SIZE/LOCATION
CF12E	12" Eco-Series One Piece Spillway	16 1/2" x 13" x 9"	1 1/2" Back
CF18E	18" Eco-Series One Piece Spillway	22" x 14 1/2" x 13 1/2"	2" Both Ends
CF23E	23" Eco-Series One Piece Spillway	27 3/4" x 14 1/2" x 13 1/2"	2" Both Ends
CF34E	34" Eco-Series One Piece Spillway	37 1/4" x 14 1/2" x 13 1/2"	2" Both Ends
CF48E	48" Eco-Series One Piece Spillway	52 1/2" x 14 1/2" x 13 1/2"	2" Both Ends

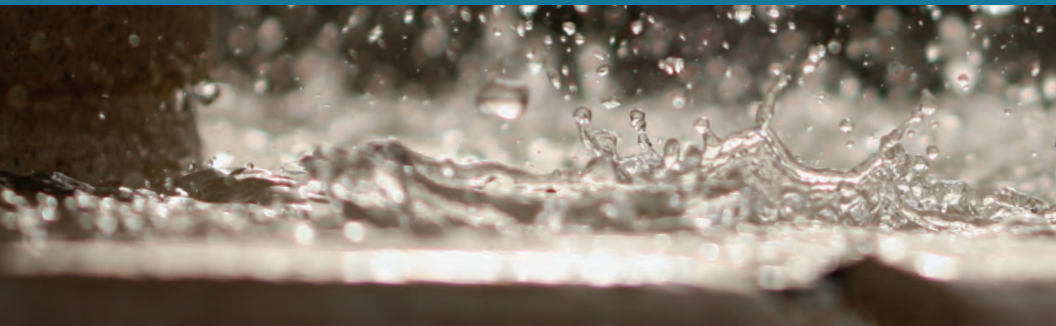

Pro-Series spillways – the first expandable waterfall spillway on the market

With straight, inward or outward curving sections you can custom design the shape of your feature.

- Easy bolt together assembly – no drilling needed
- Dual bulkheads (included) allow incoming water from either or both ends
- Designed to sit inside the liner eliminating any concerns of leaking

PART #	DESCRIPTION	DIMENSIONS (L X W X H)	INLET SIZE/LOCATION
EWS18	18" Straight - Assembled	21" x 16" x 18"	2" Inlet/Both Ends

Lake & Large Pond Care

EasyPro is a major manufacturer of pond and lake aeration systems.

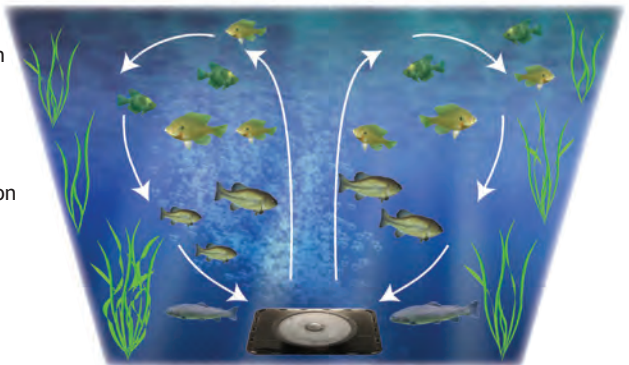

Thousands of aeration systems have been sold ranging from small backyard systems to large lake systems. Whatever your needs, we have the products and decades of experience to help you achieve your goals.

Stratified without Aeration

- Warm, typically oxygen-rich
- Recurrent surface scum
- Floating weed masses
- Zone of decreasing water temperature
- Zone of decreasing dissolved oxygen
- Zone completely void of oxygen
- Cold water temperature
- Accumulating organic muck
- Weeds prevalent
- Unusable by all fish

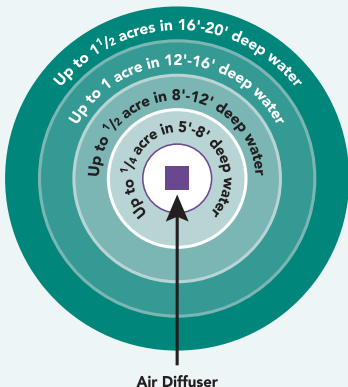

De-stratified with Aeration

- Uniform temperatures and oxygen
- Improved water clarity
- Reversed aging effects
- Improved natural pond bacteria
- Less organic material accumulation
- Protection from fish kills
- An enhanced pond ecosystem
- Reduced surface scum build-up

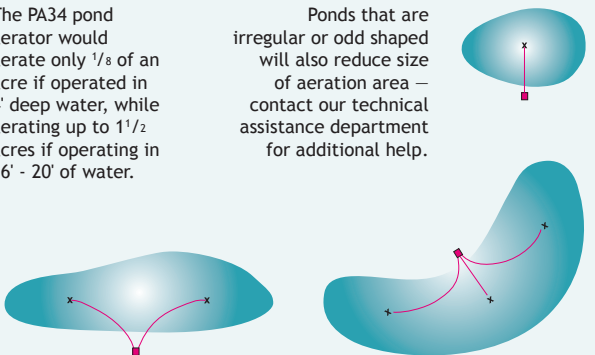

Pond Aeration Shape & Depth

The shape and depth of a pond affect the number of diffusers needed. Irregular shaped ponds often require multiple diffusers to adequately aerate the entire water column. The diagrams below show how much surface area is aerated per diffuser.

The PA34 pond aerator would aerate only 1/8 of an acre if operated in 4' deep water, while aerating up to 1 1/2 acres if operating in 16' - 20' of water.

Ponds that are irregular or odd shaped will also reduce size of aeration area — contact our technical assistance department for additional help.

Deluxe Aeration Systems

EasyPro manufactures a wide variety of diffused aeration systems from simple basic systems up to complete deluxe systems.

Following are a few examples of each:

Basic Systems—

Basic aeration kits provide all the necessary components to aerate a pond. A compressor, tubing, diffuser(s) and fittings are sized to work together for a working aeration system in these basic kits. These kits will require additional weather protection for the compressor, but the kit as a whole provides a complete system.

PART #	DESCRIPTION	AERATES PONDS UP TO
PA10W	1/20th hp system with one diffuser, 50' Quick Sink tubing	1/4 acre
PA12W	1/8th hp system with one diffuser, 50' Quick Sink tubing	1/3 acre
PA34W	1/4 hp system with one diffuser, 100' Quick Sink tubing	1 acre
PA34-2	1/4 hp system with two diffusers, order tubing as needed	1.5 acres
PA65W	1/2 hp system with two diffusers, 200' Quick Sink tubing	2 acres
PA66W	1/2 hp system with three diffusers, 300' Quick Sink tubing	3 acres
PA86W	3/4 hp system with four diffusers, 600' Quick Sink tubing	4 acres

Deluxe Systems—

Deluxe aeration kits provide all the components of the basic kits and include the mounting of the compressor in a deluxe cabinet. These systems are known as Sentinel Deluxe Aeration Systems. Sentinel systems are designed for convenience and reliability.

PART #	DESCRIPTION	AERATES PONDS UP TO
PA34D	1/4 hp Deluxe system with one diffuser, cabinet, 100' Quick Sink tubing	1 acres
PA34-2D	1/4 hp Deluxe system with two diffusers, cabinet	1.5 acres
PA65D	1/2 hp Deluxe system with two diffusers, cabinet, 200' Quick Sink tubing	2 acres
PA66D	1/2 hp Deluxe system with three diffusers, cabinet, 300' Quick Sink tubing	3 acres
PA86D	3/4 hp Deluxe system with four diffusers, cabinet, 600' Quick Sink tubing	4 acres

Customized Systems—

If one of the kits above does not fit your application, EasyPro can customize a system just for you. Using your street address, a customized system and aerial map can be made up using Google Earth to fit your exact needs. Even ponds without power near the bank can be aerated by locating the compressor wherever power is currently available and then using a Remote Valve Assembly. This assembly allows the compressor to be up to 2000' away from the pond bank and a single, larger supply line can be used to carry the air from the compressor to the valve assembly at the ponds edge.

Fountains

Wide Umbrella Nozzle

Rocket Nozzle

Narrow Umbrella Nozzle

1/2 hp and 1 hp Aqua Fountains

- Long lasting, energy efficient motor designed for continuous duty operation.
- High density foam floats with decorative cover
- Rocket and wide umbrella nozzles included. Narrow umbrella nozzle sold separately
- 115 volt units come with timer and GFI panel
- 230 volt units include timer, purchase GFI locally
- Color changing, underwater light kits feature stainless steel housings and mounting brackets. Kits include digital timer, power cable.

Brilliant LED RGB Color Changing Lights

PART #	DESCRIPTION	CORD LENGTHS
RGB2-100	RGB LED 2 Light Kit	100 ft.
RGB3-100	RGB LED 3 Light Kit	100 ft.

UNITS WITH LONGER CORDS AVAILABLE

AF100 with RGB3-100 light kit

Aqua Fountains

PART #	HP	POWER CORD	VOLTAGE /AMPS	ROCKET SPRAY DIMENSIONS	WIDE UMBRELLA DIMENSIONS

AF1002	1	100'/12 ga.	230/5.5	16' H x 5' Dia	8' H x 26' Dia

UNITS WITH LONGER CORDS AVAILABLE

With over four decades of aeration experience, EasyPro can supply you with the knowledge and products to aerate nearly any application. Many different styles of aeration are available, including:

Linear & Diaphragm Systems

For ponds under 1/4 acre - shallow water or smaller pond systems

Rocking Piston Systems

For ponds 1/4 to four acres - deep water or long run systems, powered by rocking piston compressors

Rotary Vane Systems

For ponds 1/2 to six acres - systems for larger ponds under 18' deep, powered by rotary vane compressors

Windmill & Solar Aeration Systems

For ponds up to four acres - windmills & solar, powered by Mother Nature

See our Lake & Pond Management Catalog for much more information

The use of beneficial pond bacteria has proven to be one of the best tools (along with aeration) a pond owner can use to maintain water quality. Beneficial bacteria are like mini vacuum cleaners working along the pond's bottom to consume and digest organic materials such as decayed leaves, grass clippings, dead algae/weeds, fish waste, etc. Left in the pond, these materials will contribute to future water quality problems.

PB10X

For best results add Pond-Vive every two weeks when water temperatures are above 55°F

Pond-Vive

- Reduce sludge buildup, eliminate pond odors and improve water clarity
- Safe for fish, family and animals

PART #	DESCRIPTION
PB5X	Ten Individual eight ounce water soluble packets
PB10X	Twenty eight ounce water soluble packets
PB25X	Fifty eight ounce water soluble packets
PB100XL	100 lb. fiber drum bulk bacteria (loose powder)

Sludge Remover Pellets

- A modified version of Pond-Vive, specifically designed to reduce sludge
- Heavy pellets sink down into muck directly where they are applied
- One ounce of pellets covers approximately 200-250 square feet of shoreline or beach area

ABB10X

For best results add Sludge Remover every two weeks when water temperatures are above 55°F

PART #	DESCRIPTION
ABB10X	Approximately 10 lbs.
ABB25X	Approximately 25 lbs.

Super Concentrated Water Clarifier

Helps clear murky, turbid water by attracting suspended particles together, settling them to the bottom.

- One gallon treats 250,000 gallons of pond water, mix with pond water and spray evenly over pond surface

WC128

Concentrated Pond Dye - Liquid

When disbursed, these dyes are non-staining and are fish, pet and wildlife safe.

- One quart treats one acre of water 4' deep (about 1 million gallons)

PART #	DESCRIPTION
ECPD	Blue pond dye, quart size jug
ECPDBK	Black pond dye, quart size jug
ECPDSB	Serenity pond dye, quart size jug

Concentrated Pond Dye - Powder

When disbursed these dyes are non-staining and are fish, pet and wildlife safe.

- Three water soluble packets will treat one acre 4' deep
- Bonus packet for touch-ups!

PART #	DESCRIPTION
PD4P	Blue pond dye, 4 wsp pouch
PD4PBK	Black pond dye, 4 wsp pouch
PD4PSB	Serenity pond dye, 4 wsp pouch
