

Defoamer

DEF16 • DEF128

Features

EasyPro's family of water treatment products is designed to work together to achieve the natural ecological balance your pond needs to maintain clean, clear water.

EasyPro Defoamer is one of the most concentrated defoamers available. This concentrated formula safely eliminates foam caused by excess proteins, certain medications or dissolved organic compounds in the water. Ideal for use in water gardens, koi ponds, fountains and statuary.

- Concentrated formula eliminates foam created by waterfalls
- Removes foam in water gardens, koi ponds, fountains, fish hauling trucks, etc.
- Maintains a healthy, balanced ecosystem and reduces pond maintenance
- Safe for use around fish, plants and pets

1 fl. oz. per
1,000 gallons

Directions for Use

- Apply 1 fl. oz. per 1,000 gallons of pond water as needed to eliminate foaming
- For high fish loads in hauling trucks, holding tanks and fish ponds higher dosages can safely be used

KEEP OUT OF REACH OF CHILDREN

Safe for fish & aquatic life

When to Use

- To remove foam in water gardens, koi ponds, fountains, fish hauling trucks, etc
- Spring, summer and fall, as needed
