

# QUICKSINK™

## WEIGHTED DIFFUSERS

### High-performance diffuser

- Weighted, powder-coated base eliminates the need for gravel and reduces installation time
- Unique barbed fittings with built in check valves keeps water out of tubing
- Fine bubbles for maximum lift and oxygen transfer efficiency
- Generates minimal back pressure
- Five year warranty

QS2

QS1

### Aeration Benefits

- Rids toxic gases from the bottom
- Aids in the natural decomposition of organic (muck)
- Destratifies the water column
- Raises life-supplying oxygen levels
- Prevents stagnant water
- Reduces pond odor
- Overall improved water quality
- Healthier water = healthier fish!
