- Ideal for use with All Season Bacteria

1 Block per
1,000 gallons

Directions for Use

For pond & water garden applications:

- Apply one 1 oz. block per 1,000 gallons of water weekly. For heavy sludge applications apply two 1 oz. blocks per 1,000 gallons of water weekly.

For large pond applications:

Spot treatments (for shoreline or beach area):

- Apply one 1 oz. block per 200-250 square feet every 2 weeks.

Full pond treatment:

- Apply 15-20 blocks per 1/4 acre every 2 weeks.

Heavy sludge applications can be applied at a double dose until desired results are achieved.

KEEP OUT OF REACH OF CHILDREN

Safe for fish & aquatic life

When to Use

- Weekly spring, summer and fall
