

Vianti Falls

Vianti Falls Spillway Kits turn any block wall into a relaxing display with the sight and sound of cascading water.

Stainless steel spillways create a soothing sheet of water and pouring scuppers are tasteful accents to any feature's focal point. Vianti Falls Spillways by EasyPro® are a stylish highlight for any patio, entryway or stand-alone feature.

SPILLWAYS

Viantifalls

Internal baffles create a smooth sheet of water that cascades to the pool or basin below. The open flow design prevents clogging from debris or hard water.

Add more drama and beauty to the spillway by illuminating it with LED strip lighting.

High-quality 304 stainless steel construction resists unsightly corrosion.

Ideal for formal designs or features, signs and swimming pool features.

WALL SCUPPERS

Viantifalls

Viantifalls

Vianti Falls Spillways and Stainless Scuppers are proudly made in the USA.

Vianti Falls Wall Scuppers are perfect as stand-alone features or as a tasteful accent in any formal water feature. Choose from high quality 304 stainless steel or solid brass to suit your project.

Stainless Steel Scuppers

- 1" fpt inlet
- 5-10 gpm recommended flow rate
- Electropolished for extra protection in pools and other chlorinated systems.

Antique Brass Scuppers

- 1.5" fpt inlet
- Recommended flow rates:
 - BWS2F: 10-20 gpm
 - BWS2D & BWS2RN: 5-15 gpm

11" Spillway Kit with Rectangle Basin
