# Who is Archway Bio?

Archway Bio is a raw material manufacturer, supplier and private labeler of lake, pond and water garden treatment products.

We offer a wide selection of treatment options in convenient, ready-to-stock packaging as well as bulk products for applicators and those using large quantities of material.

We also offer a full line blending, packaging and labeling — supplying customers around the world with treatment products for pond, lake, septic and wastewater applications.

In addition, we offer private labeling of water treatments (minimum order quantities apply), concentrates and custom blends for customers wanting unique product offerings.

Everything we sell (with the exception of the lake and pond dyes) are crafted and blended in the USA.

## All Season Bacteria Powder (with Cold Water Species)

This all-season formulation contains beneficial pond bacteria designed for year round use in golf course ponds, irrigation lakes and farm ponds.

Containing a proprietary blend of bacteria, growth nutrient to stimulate effectiveness, this all-season bacteria is available in a one billion or five billion CFU per gram concentration. It contains pulverized barley straw, offering the benefits of using both pond bacteria and barley straw. It is also a cold water formulation which can be used in water temperatures as low as 35°F making it a true all-season formula. This all natural powder formulation offers many non-chemical benefits:

- Reduces toxic ammonia and nitrite
- Reduces problem causing nitrate and phosphate
- Reduces odors
- Reduces organic bottom sludge (muck)
- Eliminates murky water caused by organic wastes

## 3 Gram Dissolvable Pellets

## All Season Bacteria Dissolvable Pellets and Blocks

This all season powder formulation contains beneficial pond bacteria and has been packaged into pre-measured pellets and blocks. These dissolvable pellets and blocks contain no harsh chemicals and are formulated with 100% natural ingredients. Product is ideal for treating bottom sludge as they immediately sink to the bottom of the pond and offer a slow release of active ingredients to the sludge layer. This formulation offers many non-chemical benefits:

- Reduces organic bottom sludge (muck)
- Eliminates murky water caused by organic wastes
- Reduces odors
- Reduces toxic ammonia and nitrite
- Reduces problem causing nitrate and phosphate

## Concentrated Lake Dye Liquid

This concentrated lake colorant is designed for use in large ponds and lakes. It will not stain birds, fish, plants, pets or wildlife when applied at the recommended rate. It provides an aesthetically pleasing appearance to the pond water by offering a natural color. Available in natural blue, blue/black and black.

- Blue dye gives lakes and ponds a Caribbean blue hue.
- Black dye gives lakes and ponds a reflective look.
- Blue/black dye gives a reflective look with a deep blue color to the water.

## Concentrated Lake Dye Powder

### Water Soluble Packets (WSP)

This concentrated lake colorant is designed for use in large ponds and lakes. The 4 oz. water soluble packets make for an easy application. Retail-ready, stand-up resealable pouches each contain 4 wsp's. Available in natural blue, blue/black and black.

- Easy application - just toss packets in lake or pond
- Safe for fish and aquatic life
- Each water soluble packet is double sealed in water soluble film
- Blue dye gives water a Caribbean blue hue.
- Black dye gives water a beautiful reflective look.
- Blue/black dye gives a reflective look with a deep blue color to the water.

## Natural Phosphate Binder Non-Chemical Replacement for ALUM

**Dosing:** Apply 2.5 lbs. per acre foot of water (325,829 gallons) to reduce phosphorous levels by approximately .05 ppm. Application rates vary depending on phosphorus levels in the pond.

SIZE	SKU #	LABEL SIZE	CASE PACK	CASE DIMENSIONS	CASE WT.	PALLET STACK

Bulk Sack 2200 lb.	X1-PF2200	n/a	1 bulk sack	-	2270 lbs.	n/a

## Natural Phosphate Binder

This natural powder formulation provides a non-chemical alternative to using aluminum sulfate (ALUM) in large ponds and lakes.

This unique formulation offers many benefits:

- Binds problem causing phosphate
- Aids in reducing toxic ammonia
- Buffers pH
- Provides approximately 70 beneficial trace minerals
- Provides minor flocculation (settling) of mud and clay particles
- Works great in combination with bacteria

## Concentrated Lake Flocculant

**Dosing:** Apply 1 gallon per 250,000 - 1 million gallons of pond water, depending on level of suspended solids

20X concentrate 55 gal. drum	X1-FL-55G-20X-CON	n/a	1 drum	-	490 lbs.	3 drums per pallet

## Concentrated Lake Flocculant

One of the most concentrated flocculant formulas in the marketplace for treating large ponds and lakes. It will clear murky water caused by suspended organic particles such as decaying plant material, grass clipping and leaves. It will also clear murky water caused by inorganic particles such as mud and clay.

- Clears murky water caused by organic particles (decaying plant material)
- Clears murky water caused by inorganic particles (mud and clay)

# Lake & Pond

## Oxygen Based Pond Cleaner

For spot treating use 2-3 pounds per 1000 square feet, for pond application use 12-15 pounds per acre-foot of water. A double dose can be used for problem situations.

## Oxygen Based Pond Cleaner

Oxygen based pond cleaners have long been used in decorative ponds and water features to clean rocks, waterfalls and streams. This same great formula is also available in larger sizes for use in earthen ponds and lakes.

- Works immediately upon application
- Lifts debris to pond surface where it can be removed
- Treat no more than 1/3 of the pond at a time
- Allow 48 hours between consecutive applications
- Ships as hazardous material

## Barley Pellets

100% natural product from concentrated barley straw

- Safe for use with aquatic life and pets
- Typically apply every six to eight weeks
- Fast acting - steady and extended release

## Septic and Drain Treatment

**All-natural bacteria product for treating home septic systems and drains**

Billions of enzyme producing bacteria work to accelerate the breakdown of common household wastes such as cooking greases, vegetable oils, fruit/vegetable wastes, sugars, starches, proteins, human wastes, toilet tissue and hair

- Helps keep septic systems operating efficiently when used regularly
- Pre-measured dissolvable packets that dissolve in minutes
- No messy powders or liquids
- Helps prevent costly and unpleasant system backups
- Reduces odors in drain lines and garbage disposals

### Quick & Easy Septic Treatment

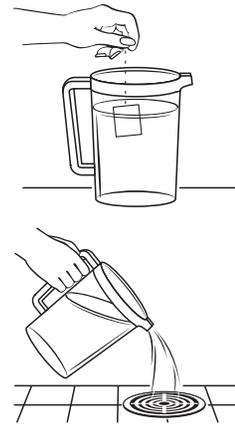

For a 1000 gallon residential septic system, simply drop one (unopened) water soluble packet into toilet. It will dissolve in minutes. Flush toilet to force product into septic tank. Repeat monthly. Dosage can be increased for neglected systems.

### Household Drains

Drop one (unopened) water soluble packet into a gallon of warm water. Stir solution before applying.

Pour one to two cups of solution down each sink, shower and garbage disposal drain. This will simultaneously treat your septic tank and restore slow flowing drains.

## All-Season Pond Bacteria

### (with Barley)

This all season powder formulation contains beneficial pond bacteria, designed for year around use in koi ponds and water gardens. It contains pulverized barley straw powder, offering the benefits of using both pond bacteria and barley straw. It is also a cold water formulation which can be used in water temperatures as low as 35°F, making it a true all season formula. This all natural powder formulation offers many non-chemical benefits:

- Reduces problem causing nitrate and phosphate
- Reduces toxic ammonia and nitrite
- Reduces murky water caused by organic wastes
- Reduces organic bottom sludge (muck)
- Reduces odors

## All-Season Pond Bacteria

### Dissolvable Formulations

This all season powder formulation contains beneficial pond bacteria, designed for year-around use in koi ponds and water gardens. This unique formulation is produced using a “no mess” powder, which immediately begins to dissolve upon contact with water. It is also a cold water formulation which can be used in water temperatures as low as 35°F, making it a true all-season formula. This all natural powder formulation offers many non-chemical benefits:

- Reduces toxic ammonia and nitrite
- Reduces problem causing nitrate and phosphate
- Reduces murky water caused by organic wastes
- Reduces organic bottom sludge (muck)
- Reduces odors

## Barley Straw Liquid Extract

Contains active ingredients derived from barley straw. This liquid formula eliminates the need to use unsightly pellets or bales.

- All natural liquid formula - releases humic acids
- Safe for use with aquatic life and pets
- Keeps water clean and clear
- Easier to apply and works faster than straw bales and pellets
- Maintains a healthy, balanced ecosystem and reduces pond maintenance

## Barley Straw Pellets

**PELLETS DOSING:** Apply one 8 ounce scoop pellets per 300 gallons of pond water, every three to four weeks

SIZE	SKU #	LABEL SIZE	CASE PACK	CASE DIMENSIONS	CASE WT.	PALLET STACK
Pail 5 lb.	X3-BSP5	4" x 7"	4 pails/case	16" x 16" x 8"	23 lbs.	6 cases/layer (4 layers/pallet)

\* No scoop included

## Pellets

All natural and less messy than traditional barley straw bales. Extended release pellets contain active ingredients that help keep pond water clean and clear. Pellets produce a steady and extended release for up to eight weeks.

- All natural formula - steady, extended release of humic acids
- Safe for use with aquatic life and pets
- Works fast
- Maintains a healthy, balanced ecosystem and reduces pond maintenance

## Oxygen-Based Rock and Waterfall Cleaner

This formulation brings powerful oxygen based cleaning to koi ponds and water gardens. It quickly and effectively cleans rocks, waterfalls, fountains, statues, plant pots and other water feature surfaces.

- Effective, commercial strength, oxygen based cleaner for ponds
- Quickly cleans ponds, rocks and waterfalls
- Lifts debris to surface where it can be removed
- Maintains a healthy, balanced ecosystem and reduces pond maintenance
- Safe for use around fish, plants and pets

55 gal. drum	X1-AWC-55G	n/a	1 drum	24" x 24" x 35"	490 lbs.	3 drums/pallet

## All-In-One Water Conditioner

This formulation is one of the most comprehensive water conditioners available. It is ideal for use in koi ponds and water gardens. Apply directly to new ponds or immediately after water changes to remove toxins and reduce stress on fish or other aquatic life.

- Removes ammonia
- Removes chlorine
- Removes chloramines
- Detoxifies nitrite
- Adds essential electrolytes
- Detoxifies heavy metals (including copper)

## Concentrated Tap Water Conditioner

Dosing: Apply 1 fl. oz. per 1,000 gallons of water, as needed, to remove one ppm chlorine

SIZE	SKU #	LABEL SIZE	CASE PACK	CASE DIMENSIONS	CASE WT.	PALLET STACK

## Natural Phosphate Binder

This natural plant based powder formulation provides a non-chemical alternative to using aluminum sulfate (ALUM) in koi ponds and water gardens.

- Provides approximately 70 beneficial trace minerals
- Buffers pH
- Provides minor flocculation (settling) of mud and clay particles
- Binds problem causing phosphate

## Liquid Pond Dye

**Dosing:** Apply 1 fl. oz. per 1000 gallons of pond water, as needed to maintain desired color.

## Pond Dye Liquid

This colorant is designed for use in koi ponds and water gardens. When applied at the recommended rate, it will not stain birds, fish, plants, pets or wildlife once diluted. Pond dye provides a more aesthetically pleasing appearance to pond water. Available in three shades: natural blue, blue/black and black.

- Blue dye gives lakes and ponds a Caribbean blue hue.
- Black dye gives lakes and ponds a reflective look.
- Blue/black dye gives a reflective look with a deep blue color to the water.

## pH Adjusters

These two formulations can be used to increase or decrease the pH of the water.

- Safe, effective way to control pH
- Treats fresh water and salt water
- Phosphate free
- Maintains a healthy, balanced ecosystem and reduces pond maintenance
- Safe for use around fish, plants and pets

## Pond Salt

Salt is essential for fish health. Koi and goldfish need salt to control their electrolyte balance. Salt also promotes the natural slime coating of fish, which protects against fungus and disease as well as reduce stress.

- 99% pure – made from evaporated sea water
- Reduces fish stress and increases disease recovery
- Additional electrolytes
- Enhances the natural slime coating on fish
- Superior to table salt (sodium chloride) for maximum effectiveness
