From the Owners

SINCE 1970

Did you happen to notice something different about our front cover this year? As mentioned under the EasyPro logo on the cover, I am pleased to announce that EasyPro Pond Products is now the industry's first **100% employee owned company!** Through the creation of an ESOP (Employee Stock Ownership Plan), Chris and I have sold the company to our employees. While I will be on the board of directors and involved in the company for years to come yet, this transfer of ownership will allow EasyPro's outstanding employees to benefit from their work in a great and unique way. It will allow me more time with other business ventures and also more family time while ensuring EasyPro Pond Products will continue on with the same values and focus that it was founded on decades ago. I have been blessed far beyond my wildest dreams from this business, this industry and the many, many friendships I have made since starting EasyPro. Turning it over to my employees to continue on was the obvious choice since they are the ones who helped me build the company and know it inside and out already and it allows me to stay in the business, albeit behind the scenes more, to ensure a long and smooth transition. Our focus will continue to be Innovation, Quality and Experience as we move forward!

To the thousands of customers that have helped build the EasyPro brand, THANK YOU! We could not have done it without you. To the many awesome employees, both past and present, I have had the privilege of working with THANK YOU for your dedication and talents. We could not have done it without you. And most importantly, to God our Heavenly Father, THANK YOU for blessing this business and allowing it to grow far beyond what we ever imagined. I am excited to see what He has in store for EasyPro as we move forward! Best wishes for a prosperous 2024 to you all!

Dave and Chris Ouwinga

Because of the Lord's great love we are not consumed, for his compassions never fail. They are new every morning; great is your faithfulness.

Lamentations 3:22-23

IMPORTANT INFORMATION

EasyPro Authorized Distributor and Dealer Program and Enforced MAP Policy

EasyPro has in place one of the strongest and most enforceable Unilateral Distributor and Dealer Authorization Program in the industry in conjunction with an actively enforceable MAP (Minimum Advertised Price) Policy, which allows us to protect the quality and value of the EasyPro Brand.

Authorized supply chain partners are confidently able to profitably capitalize on selling the added value of their services, product knowledge, and warranty services that unauthorized sellers will not be able to provide.

For more details about this program, email us at asp@easypro.com.

Lake & Pond Management Catalog

EasyPro offers a large selection of Lake & Pond Management products from weed and algae controls to aeration systems to fountains.

We have a separate catalog devoted solely to products and services needed to maintain larger bodies of water and Aquaculture.

Contact us via phone or website to view or request copies of our catalogs!

Polished Side Basalt Fountain

39" tall, polished side basalt

Basalt features

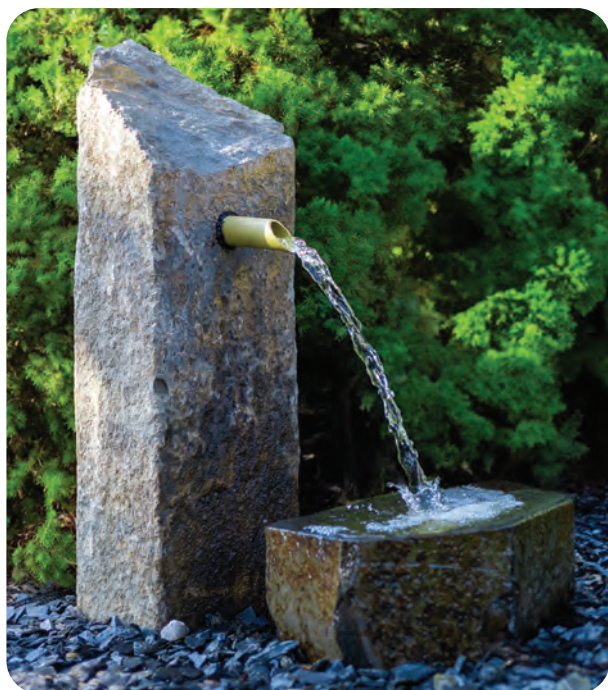

- Awesome display — running or not!
- 14" to 16" average diameter
- Each column is core drilled with a 1¼" (32 mm) hole from end to end, the last 1½" is enlarged to 1⅝" (37 mm) to hide light ring (page 16)
- Due to natural characteristics of the basalts - the size, weight and number of sides will vary

HPS39K Complete kit includes

- Basalt column
- FBL48 Sturdi-Basin with support blocks
- Tranquil Décor MP575 pump
- Plumbing kit
- LED8B light kit

Bamboo Basalt Fountain Set

Blending the classic tranquility of a bamboo fountain with a stately basalt stone

Basalt features

- Taller basalt is core drilled with 1¼" (32 mm) hole at the bottom and connects to the side hole for bamboo attachment. Water cascades from the bamboo spout to lower basalt stone, which overflows to basin below.
- Due to natural characteristics of the basalts - the size, weight and number of sides will vary

HBB39K Complete kit includes

- 39" Pillar basalt approx. 8"-10" diameter
- 8"-10" tall lower stone approx. 12"-15" diameter
- Long-lasting synthetic bamboo spout
- FBL48 Sturdi-Basin with support blocks
- Tranquil Décor MP230 pump
- Plumbing kit

Sturdi-Basin EX

Ideal for use with statuary, vases, rocks and fountains

- Support grates have multiple legs for increased load capacity
- Four access doors allow for multiple pumps, auto-fill, underwater lights or can be used as plant pockets
- Measures 58" x 58" x 11¾" deep
- Molded columns transfer weight to the ground below. Can also be filled with concrete to create pillars for heavy statuary
- Also available with bench grating. See FBL58 on page 18.

Part #	Capacity	Stocking Code	Ship Weight	List Price
FB58E	65 gallons	1554993	64 lbs.	\$739.99

Hercules Basin

These "severe duty" basins have been used with weights up to 4,000 lbs!*

For large basalts and large vase type fountains. Multiple molded legs transfer the weight into the ground below, eliminating bowing or sagging.

- Perfect for larger water features - replaces the need for an offset reservoir system, saving you time and money during installation
- Engineered for durability and strength
- Dual pump access lids for easy inspection and cleaning

*4,000 lbs when evenly distributed across basin, not in one spot

Waterfall Diffuser Spillways

ECO-Series® Waterfall Diffusers

The Original & Still The Best!

Faster to install than any other spillway on the market

- Ideal for use at beginning of streams and in block walls, pools and formal fountains
- Extra strong vertical rib design creates a nearly indestructible diffuser
- 3 1/2" low profile makes them easy to conceal, consistent 14" depth ensures all sizes will work together
- Load bearing design allows block to be stacked directly on diffusers
- Units have dual 2" inlet

Outside Inc (MI)

We offer the largest selection of waterfall spillways in the industry!

ECO-Series® spillways are available in 12" to 48" widths while the patented Pro-Series modular system (page 25) can be made in endless sizes and shapes.

Waterfall spillways are the perfect choice for Just-A-Falls (pond-less) systems, signs, swimming pool features and other installations where a cascade of water is desired and filtration is not needed.

Scan Code for Video

ECO-Series Waterfall Diffuser Installation

Made to last and faster to install than any other spillway on the market!

Extra strong, load-bearing, vertical rib design allows block and rock to be stacked on top.

Out-of-the-box installation. Simply plumb into either side and it's ready to go.

Since block can be stacked on top, no additional support is needed.

Part #	Description	Recommended Flow (gph)	Stocking Code	Ship Weight	List Price

Waterfall Spillways

SINCE 1970

ECO-Series® One Piece Waterfall Spillways

Easy Installation!

Ideal for Creating Just-A-Falls Water Features

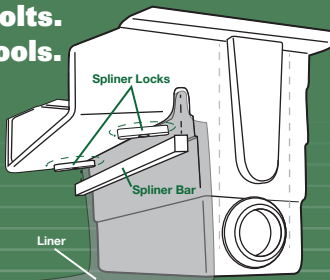

- Roto-molded for excellent strength
- Dual inlets — 2" spinwelds (pre-installed) allow for easy plumbing into either end, a plug for unused end is included, CF12E has one 1½" inlet pre-installed on back of unit
- 4" diffuser tube lays across the bottom of the spillway between inlet fittings
- Water enters from either end (or both ends) and spreads out evenly across width of spillway
 - Gravel can be used to fill the inside of the spillway creating a natural, even looking waterfall

Easy Install with our patented "Spliner Lock" System!
No silicone.
No bolts.
No tools.

Faux Stone Lip For a more natural look

- Available for CF18E & CF23E

Inlet spinweld comes installed, simply connect incoming supply line

Connecting the liner takes only seconds using the patented Spliner Lock System!

Fill spillway with gravel/ small cobble stone, plug in pump and enjoy!

Constructed to Last!

Patented Modular, Expandable Design

Pro-Series waterfall spillways have a plastic grating just below the water level that prevents the walls from bowing when buried and also allows you to stack 3" - 4" of rock on top to hide the spillway. Straight and curved spillway sections can be connected in any configuration.

PRO-SERIES™ Modular Waterfall Spillways

Original "Straight" Spillways

Expandable and constructed to last

Straight spillways, 18" tall in widths of 18", 34" and 50" come assembled and ready to be installed. The straight, inward and outward pieces are interchangeable and can be used in any combination. Make waterfalls as narrow or as wide as you wish!

- Dual bulkheads (included) allow incoming water from either or both ends. A plug is included for whichever end is not used.
- Waterfall spillways are designed to sit inside the liner eliminating any concerns of leaking. The liner simply goes under the spillway and up the back side. The bulkhead fitting secures liner to tub where the pipe attaches to the spillway.

Part #	Description	Inlet/Bulkhead	Spillway Width	Stocking Code	Ship Weight	List Price
EWS18	18" straight - assembled	2" inlet	18"	6209998	19 lbs.*	\$279.99

Smalls Landscaping (IN)

EWE16 (4), EWLR3 (1), EWI16 (2), EWO16 (2)

Expandable Spillways

The only expandable waterfall spillway on the market!

- With straight, inward or outward curving sections you can custom design the shape of your feature
- Waterfalls up to 34' wide have been built using this system
- Pieces are interchangeable with straight pieces above, use in any combination
- Everything bolts together for easy assembly

Part #	Description	Inlet/Bulkhead	Spillway Width	Stocking Code	Ship Weight	List Price

PRO-SERIES™ Contractor Pump Vaults

Strongest in the Industry!

Built heavy duty to withstand the weight of rock

- The slots cut into the sides of the vaults allow water to flow freely into the pump chamber.
- Intake tubes are available for JAFM and JAFV to increase flow capacity.

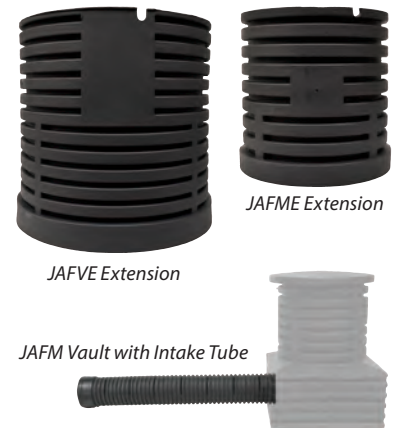

JAFV

JAFM

Pump Vault Extensions

- Flange around bottom slides right over the top edge of the main vault
- Multiple extensions can be used if needed

Pro Tip Working in a tight area? Use a Pump Vault Extension to dig your reservoir deeper and still have easy access to the pump.

High Strength Res-Cubes

Smaller reservoirs, reduced rock tonnage, increased water capacity and shorter installation time

- Reduce rock tonnage
- Reservoir can be made smaller because of the increased water percentage due to less rock being used
- Increase reservoir water capacity from 40% with rock to 90%+ with Res-Cubes
- Installation time is reduced considerably - smaller reservoir hole means less digging, less liner and less labor
- Use in high weight-bearing features
- Ideal for use in Just-A-Falls and pondless features using large boulders
- Ships unassembled to save space, quick and easy assembly on site
- Can be used under patios, pathways, sidewalks, etc.
- Great for retention and recycling of rain water
- HSC22 equals 2.4 cubic feet of space
- HSC44 equals 4.4 cubic feet of space

Sold in pairs only!

Eco-Bog™ Cube and Eco-Bog™ Filtration Kits

Effective, Natural Pond Filtration

We've taken our popular HSC44 Res-Cube and combined it with Bio-Balls to create a highly effective filtration module!

See page 37 for Eco-Bog™ Cube Filter Modules and complete Eco-Bog™ Filtration Kits

On the next two pages you will find a variety of complete Just-A-Falls kits. Each kit comes with everything you need to build beautiful streams and waterfalls. If one of these kits does not fit your needs, we can customize a kit for you! Simply send us your layout and we will provide you a quote for the materials needed to complete your project.

American Patio Creations

Mini Just-A-Falls Kit

This mini kit is perfect for those wanting the sound of water but are short on space!

Kit Includes:

- 45 mil EPDM rubber liner
- Liner underlayment
- 12" waterfall spillway
- EasyPro® pump vault
- High strength Res-Cubes
- Flexible PVC pipe and PVC glue
- 1800 gph direct drive pump and pump outlet assembly

ECO-Series® Pond Skimmers

Patented Design - No Leaks!

The industry's first "in-pond" skimmer

- The ECO-Series Skimmer's patented design lets you install the skimmer INSIDE the liner. No cutting the liner, no silicone and NO LEAKS!
- Strong-ribbed design holds shape and allows dirt to hold skimmer in place when backfilled
- Ideal for retail sales
- Each skimmer comes complete with molded debris basket, filter pad and lid.
- Debris basket is easy to remove and clean

Prelude PS4E

Ideal for use with mag drive pumps

- Maximum flow 1800 gph (30 gpm)
- Ideal for mag drive pumps
- 18"l x 15"w x 13"h
- 5" water inlet

Melody PS6E

- Maximum flow 4800 gph (80 gpm)
- 21"l x 22"w x 21"h
- 7" water inlet

Ovation PS10E

- Maximum flow 8100 gph (135 gpm)
- 21"l x 22"w x 27"h
- 9" water inlet
- Optional molded color lid available (#PS10ML, pg. 34)

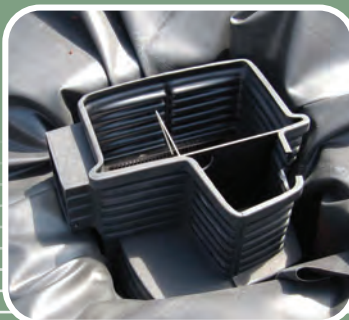

Patented design installs inside the liner, eliminating the chance of leaks

Part #	Description	Stocking Code	Ship Weight	List Price
PS4E	Prelude	3119991	12 lbs.	\$159.99
PS6E	Melody	2224996	30 lbs.*	\$299.99
PS10E	Ovation	7254994	35 lbs.*	\$339.99

*Dimensional shipping rate applies

See page 34 for replacement parts

Optional molded color lid available for PS10E (see page 34)

Molded debris basket included with all Eco-Series Skimmers

6 reasons to choose Axiom

All black tubs that skim pond water are not the same.

- 1 Fast and secure liner attachment** Faceplate is secured to the unit first BEFORE the liner hole is cut out. No additional realignment of liner and faceplate necessary.
- 2 Integrated UV option** available for the 5000 gallon Axiom Skimmer (PSA5000) for copper-free algae control.
- 3 Extended inlet flange** allows skimmer to be placed farther from the pond edge for a more natural look.
- 4 Adjustable overflow** Sealed tub allows the overflow to be adjusted easily.
- 5 All-in-One option** Skimmer/Filter Combo (PSA3600D) provides filtration without a waterfall filter box. Add EasyPro's Ultimate Tube Media for biological filtration for ponds up to 4000 gallons.
- 6 Compatible with submersible or external pumps** Larger pump chambers can hold one or two submersible pumps.

Axiom

Premium Pond Skimmers

- Front to back design - with the pump sitting behind the debris net instead of along side it
- Adjustable overflow allows finished pond level to be adjusted
- One piece aluminum framed debris net makes cleaning quick and easy
- Includes black silicone

PSA5000

- 29"l x 19"w x 21"h
- 6" water inlet
- Dual 2" factory-installed spinweld fittings (bulkheads) allow for one or two pump installations.
- Compatible with PS1 molded faux rock lid (page 34) and PS1UV UV Clarifier (page 33)

PSA7000

- 29"l x 19"w x 21"h
- 8" water inlet
- Dual 2" factory-installed spinweld fittings (bulkheads) allow for one or two pump installations.
- Compatible with PS1 molded faux rock lid (page 34)

PSA9000

- 33"l x 19"w x 23"h
- 8" water inlet
- Two 2" and one 3" factory-installed spinweld fittings (bulkheads) allowing for two smaller or one larger pump
- Compatible with SETS2 extension tube (page 33)

PSA11000

- 33"l x 19"w x 23"h
- 10" water inlet
- Two 2" and one 3" factory-installed spinweld fittings (bulkheads) allowing for two smaller or one larger pump

Part #	Description	Stocking Code	Ship Weight	List Price

Axiom Pond Skimmer/Filter Combo

Mechanical and biological filtration all in one for ponds up to 4000 gallons

Includes debris net and filter brushes for mechanical filtration and UTM1 biological media for compete filtration.

Part #	Stocking Code	Ship Weight	List Price
PSA3600D	3464992	56 lbs.*	\$619.99

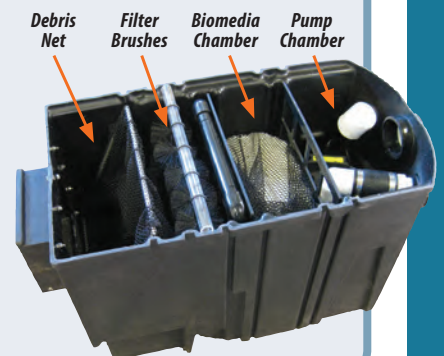

- 33"l x 19"w x 23"h
- 8" water inlet
- Maximum flow rate: 60 gpm (3600 gph)
- Use with SETS2 extension tube on page 33 (optional)

*Dimensional shipping rate applies

• Includes debris net and filter brushes for mechanical filtration

• Includes Ultimate Tube Media in bag (UTM - page 91) biological media for biological filtration

PRO-SERIES™ Pond Skimmers

Innovative Design!

Choose between a vertical filter mat or brushes

- Two chamber design eliminates cutting filter pads to fit around the pump and plumbing
- Pumps can be inspected or removed without removing mesh net or filter pad
- Skimmers have a flange above the opening where water enters from the pond into the skimmer, allowing you to not only stack rocks along side but also above the skimmer opening
- Internal filters help prevent pump from plugging and easily cleaned
- Black silicone included
- See page 34 for replacement parts

Mini Skimmer PSMFB

Skims ponds up to 250 square feet

- Skims ponds up to 250 square feet
- Available in vertical style pad or filter brushes
- Works with small extension tube (part #SETS) - see page 33

Small Skimmer PS1FB

Our best selling skimmer!

- Skims ponds up to 600 square feet
- Available with filter pad or filter brushes
- Works with small extension tube (part #SETS) - see page 33
- PS1FB also can be fitted with a UV (part #PS1UV) - see page 33

Large Skimmer PS2FB

One of the largest skimmers available

- Skims ponds over 600 square feet
- Available with filter pad or filter brushes
- Works with large extension tube (part #SETL) - see page 33

Part #	Description	Size (LxWxH)	Weir Inlet	Max. Flow	Stocking Code	Ship Weight	List Price

Use with extension tubes on next page for concealment and unique applications

See page 34 for replacement parts

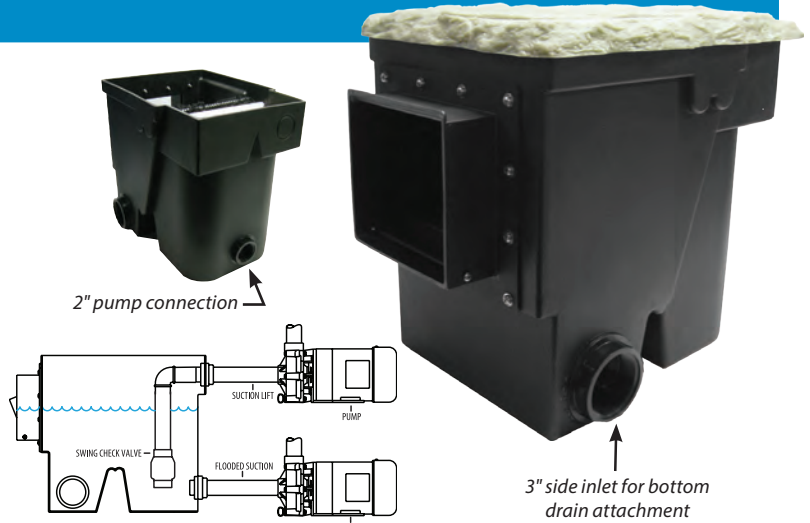

Pro Tip Make your pond look more authentic by moving the skimmer box away from the pond!
Skimmer Extension Tubes sold on page 33

The Pro-Series™ line contains products specifically engineered for professional installations. You'll see and feel the quality of the materials and workmanship. Try them and see!

External Pump Skimmer

EasyPro® is pleased to offer this innovative skimmer designed for use with external pumps

- Factory installed bulkhead fittings
- Pre-plumbed for easy bottom drain connection, includes plug
- Design ensures all water goes through debris net
- Uses same debris net, lid and extension tube as PSMFB
- Multiple skimmers can be plumbed to one pump, ideal for odd shaped ponds where one skimmer is not enough
- 8" weir inlet
- Black silicone included
- Maximum flow 4500 gph
- Measures 20" x 15" x 19"

Ideal for use with external pumps on pages 107 - 109

Skimmer Extension Tube

Makes your pond look more authentic by moving the skimmer box away from the pond

- Patented 24" long extension tube allows skimmer to be set back from the pond edge
- Allows for planting between the pond and skimmer making it easier to hide
- Can be bolted together to create longer extensions if needed
- Price includes extension tube and bolts for installation
- Ideal for use in concrete walls

UV Option for PS1FB & PSA5000 Skimmers

- PS1FB and PSA5000 skimmers can be outfitted with a UV Clarifier
- 36 watt bulb is enclosed inside of a divider that slips in the place of the PVC divider
- Must be used with filter brush racks, not the filter pad style skimmers
- Will drop the maximum gpm flow from 100 to approximately 60 gpm to provide adequate exposure time
- Replacement UV bulbs and sleeves are available

*Assembled in the USA

Nylon Media Bags

- Used in all of our Eco-Series and Pro-Series filters, these tough nylon media bags will last for many years and can hold all types of large media
- MB21 and MB22 are ¼" mesh and have drawstring with push button release
- MB18F is ⅜" fine mesh and has drawstring with push button release
- Use two MB21 in AS, three in AM and six in AL filters

Part #	Description	Dimensions	Stocking Code	Ship Weight	List Price
MB18F	Media bag, ⅜" fine mesh	18" x 30"	618748	1 lb.	\$24.99
MB21	Media bag, ¼" mesh (used in AS, AM, AL AquaFalls)	21" x 30"	814996	1 lb.	\$19.99
MB22	Media bag, ¼" mesh (use one in AT mini AquaFalls)	22" x 26"	315742	1 lb.*	\$20.99
FFM2B	MB21 media bag filled with 2 cu. ft. Filter Floss†	21" x 30"	237098	4 lbs.*	\$48.49

ECO-Series® Waterfall Filters for natural, biological filtration

Patented, Tool-Free System!

Helps keep ponds clean and clear while supplying an ideal base for waterfalls and streams. Pond water flows up through filter pads and filter media with high surface area allowing suspended debris to be trapped and beneficial bacteria to provide natural biological filtration.

- An excellent choice for the “do-it yourselfer” with professional grade quality
- Easy, user friendly installation - No tools, no worries
- Patented tool-free liner attachment system for the easiest installation of any similar filter on the market
 - Biological filter media included
 - Inlet “spin-weld” fittings are pre-installed
 - Extended lip to eliminate leaks

Prelude Filter for ponds up to 1000 gallons

- Includes filter box with “Spliner Lock” System, one filter pad, one bag of Bio-Blox media (one cubic foot) and one 1¼" PVC male adapter
- 20"l x 17"w x 14"h
- Optional lid on page 38: WF10L

Sonata Filter for ponds up to 1800 gallons

- Includes filter box with “Spliner Lock” system, two filter pads, two bags of Bio-Blox media (two cubic feet) and one 1½" PVC male adapter
- 22"l x 25"w x 21"h
- Optional lid on page 38: WF18L

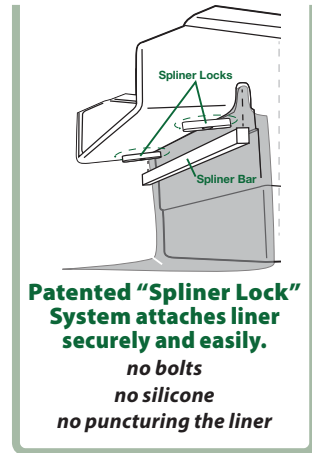

Melody Filter for ponds up to 3000 gallons

- Includes filter box with “Spliner Lock” system, two filter pads, two large bags of Bio-Blox media (four cubic feet) and one 2" PVC male adapter
- 24"l x 25"w x 24"h
- Optional lid on page 38: WF29L

Symphony Filter for ponds up to 6000 gallons

- Includes filter box with “Spliner Lock” system, two filter pads, six large bags of Bio-Blox media (twelve cubic feet), one 2" PVC plug and one 2" PVC male adapter
- 37"l x 29"w x 34"h
- Optional lid not available

AquaFalls Waterfall Filters

Easy to install. Simply bolt lip to filter!

Featured Benefits

- AquaFalls Filters are buried into the ground making them easy to hide.
- Can be ordered with Matala filter pads, the best quality filter pads on the market. When ordered with the filter, one green and two blue pads are included - AT includes one each.

See Matala pads on page 92.

PRO-SERIES™ AquaFalls

Keep ponds clean and clear while supplying an ideal base for waterfalls and streams. Pond water flows up through filter pads and filter media with high surface area allowing suspended debris to be trapped and beneficial bacteria to provide natural biological filtration.

Mini AquaFalls AT

- One 1½" inlet fitting in back of filter, tub size 18"l x 24"w x 18"h
- Includes tub with built-in lip, termination bar, stainless steel hardware, two filter pads with support stand, one mesh media bag (MB22), 1½" bulkhead fitting, 1½" PVC male adapter and black silicone

Small AquaFalls AS

- Two bulkhead fittings allow incoming water from either side — use plug (included) on unused side or install ball valve to use as drain. Tub size 26"l x 26"w x 26"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, two mesh media bags, two - 2" bulkhead fittings, 2" PVC male adapter, 2" x 1½" PVC reducing male adapter, 2" PVC plug and black silicone

Medium AquaFalls AM

- Two bulkhead fittings allow incoming water from either side — use plug (included) on unused side or install ball valve to use as drain. Tub size 35"l x 36"w x 28"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, three mesh media bags, two - 2" bulkhead fittings, 2" PVC male adapter, 2" PVC plug and black silicone

Large AquaFalls AL

- Two bulkhead fittings allow incoming water from either side — use plug (included) on unused side or install ball valve to use as drain. Tub size 36"l x 65"w x 36"h
- Includes tub, faux rock lip, stainless steel hardware, three filter pads with support stand, six mesh media bags, two - 3" bulkhead fittings, 3" PVC male adapter, 3" PVC plug and black silicone

Eco-Bog™ Cube

Eco-Bog™ Cubes are media-filled Res-Cubes that are ideal for bog filtration systems. Traditional bogs are typically filled with gravel layers which are hard to clean. Eco-Bog Cubes use a plastic media which is not only easy to clean but has a very long life cycle.

- Eco-Bog Cubes have over 1000 sq ft of surface area creating a highly effective bio-filtration environment
- Each Cube filters up to 2500 gallons of pond water
- Cubes come assembled with media installed. Super fast and easy to install!
- Buy individually and build your own bog filter or buy complete kits below

Part #	Description	Size	Filters up to	Stocking Code	Ship Weight	List Price
EBC44	Eco-Bog Cube filtration module	27" x 16" x 17½"	2500 gallons	2157493	38 lbs.*	\$209.99

Eco-Bog™ Kits

Eco-Bog™ Kits are a fast and effective way to filter ponds up to 10,000 gallons. Not only are they effective at filtering, these kits are designed to be easy to backflush when cleaning is needed!

- Each kit includes 45 mil liner that has 3" heavy duty bulkhead fittings and water diffuser pipe pre-installed for a super fast bog build.
- Systems include connections for 2" or 3" schedule 40 PVC, or flexible PVC pipe. A check valve is recommended. Check valves: page 119. Flexible PVC pipe: page 112.
- Eco-Cubes come pre-assembled with media installed. Super fast and easy to install!

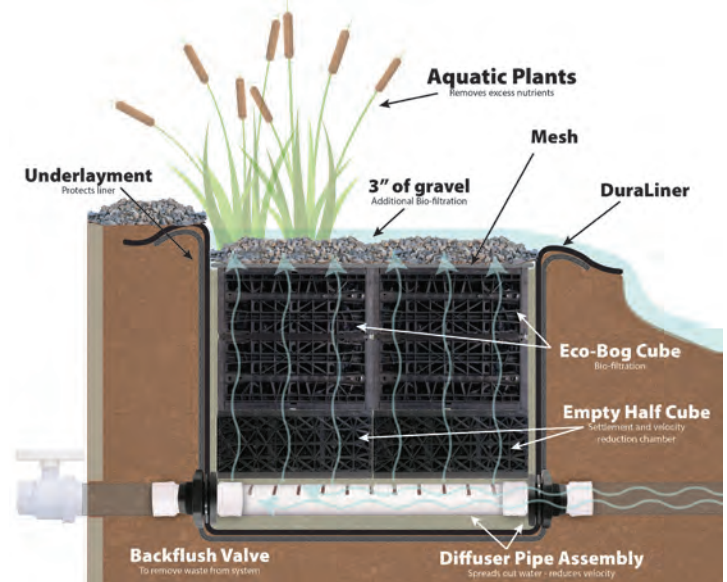

EBK1 Kit includes:

- 10' x 12' 45 mil **DURALINER** with pre-installed bulkhead fittings and water diffuser pipe.
- 10' x 12' underlayment
- (2) HSC22 half Res-Cubes
- (2) EBC44 Eco-Bog Cubes

EBK2 Kit includes:

- 12' x 15' 45 mil **DURALINER** with pre-installed bulkhead fittings and water diffuser pipe.
- 10' x 15' underlayment
- (4) HSC22 Res-Cubes
- (4) EBC44 Eco-Bog Cubes

SINCE 1970

Water Feature Installation

Black Waterfall Foam

Use to fill in cracks between rocks to prevent water from being "lost" over the waterfall

- Improves water flow visually and black color hides foam in the shadows of the rocks
- Minimal expanding foam - better density, better control and less waste
- Hand foam cans have a patented trigger system and a 'stow straw' which allows multiple uses for up to two weeks.
- Trigger will dispense foam in any position, no expensive gun required
- Use of carbon black for inherent color rather than black dye that fades
- 18 month shelf life
- Fish safe, non toxic formula

Compare our foam density and fade resistance to the competitors.

BSN28	24	35626	1 lb.	\$7.49

Pond and Waterfall Installation Kit

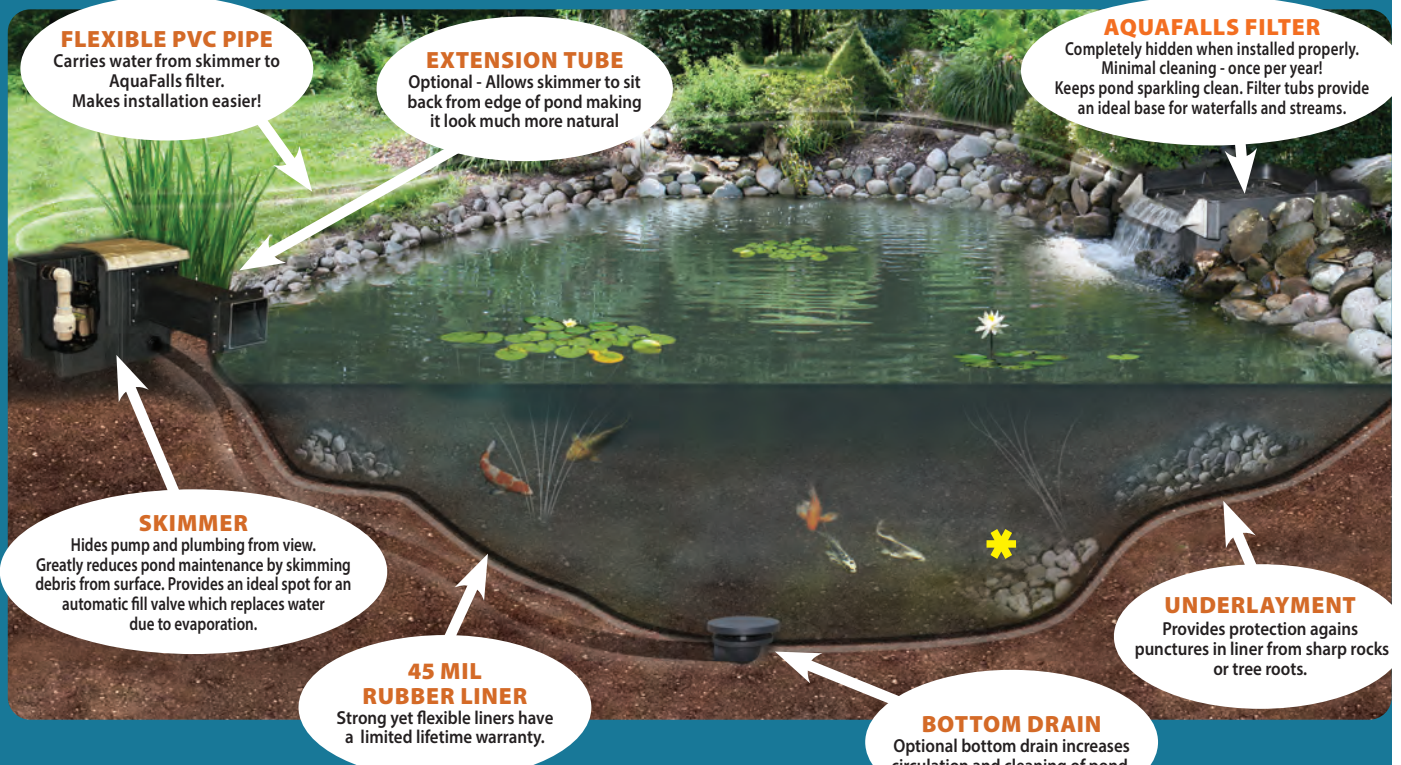

A combination of the most common items needed to install ponds and waterfalls

- Includes one can of EasyPro® Black Waterfall Foam, one tube of silicone, one can of PVC primer, one can of PVC cement and one 6" diameter liner patch
- WIK2 has two tubes of silicone and larger size can of PVC cement for installing large pond kits

Part #	Stocking Code	Ship Weight	List Price
WIK	348746	3 lbs.	\$64.99
WIK2	758493	4 lbs.	\$77.99

Cross Section of a Pond Kit

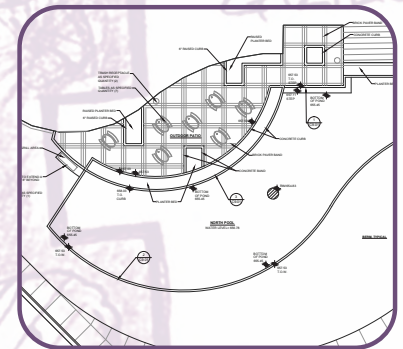

***ProTip** Covering liner with rocks and gravel provides additional surface area for beneficial bacteria and also hides and protects liner. Rocks and gravel look more natural than bare liner.

Custom designs are our specialty

Due to the unique nature of many pond and waterfall applications, projects are often custom-designed. Simply send us a drawing of your project and we'll be happy to help you plan your water feature!

This is an example of a large pond kit. Kits can be customized to your exact needs!

ECO-Series® Pond Kits

An excellent value!

Each kit includes all necessary items to build a top quality feature. See chart below for exact sizes on pumps, skimmers, filters, etc.

Kits Include

- **DURALINER.** 45 mil EPDM rubber liner
- Liner underlayment
- Eco-Series skimmer
- Eco-Series filter with media
- Continuous duty pump
- Check valve assembly
- Flexible PVC pipe
- PVC glue

Perfect DIY Kit!

PRO SERIES Mini Pond Kits

Great DIY Kit!

Ideal for Retail Sales

Mini pond kits have everything a do-it-yourselfer needs to build a beautiful, long lasting water feature with professional grade products.

ET811FB

- **DURALINER.** 45 mil EPDM rubber liner
- Liner underlayment
- Mini skimmer with filter brushes
- Mini AquaFalls filter with molded rock lip
- 25' of 1/4" PVC flex pipe
- 1 1/4" check valve assembly
- Silicone sealer and PVC glue
- Continuous duty pump

PRO SERIES Small Pond Kits

Everything you need is included!

All components are top quality and long lasting, providing years of enjoyment!

UV Option

The ES11AFB and ES16AFB pond kits include the PS1FB skimmer which has an optional UV upgrade when filter brushes are used, see pages 33 and 34 for more information.

ES11AFB

All "ES" Kits Include

- Pro-Series small AquaFalls filter/waterfall base
- Pro-Series skimmer with filter brushes
- Energy efficient submersible pump
- **DURALINER.** 45 mil EPDM rubber liner
- Liner underlayment
- Beneficial bacteria
- 25' of 1/2" flex PVC pipe
- 25' of 1/2" flex PVC pipe
- Check valve assembly, fittings and instructions
- Three mini LED lights with 45 watt transformer
- Waterfall installation kit (pvc glue, primer, silicone, black foam)

Pond Kits

EM1621FB

P SERIES Medium Pond Kits

"Love using EasyPro filters and skimmers for pond installations! Great brand, reputation and company to work with!"

Brian A.

All "EM" Kits Include

- **DURALINER.** 45 mil EPDM rubber liner
- Liner underlayment
- Medium AquaFalls filter/waterfall base
- PS1FB skimmer
- EasyPro® TH Pump with two year warranty
- Beneficial bacteria
- 2" flexible PVC pipe
- Check valve assembly
- Three mini LED lights with 45 watt transformer
- Installation kit which includes PVC primer, glue, liner patch, silicone and black foam

All EM pond kits ship complete on one pallet

All Medium Pond Kits include our medium AquaFalls Filter and PS1FB Skimmer for increased filtering capacity over the small pond kits on page 42.

Part #	Pond Size*	Liner Size	Approx. Pond Gallons	Skimmer Included**	Filter Included	Pump Included	Pump Warranty	Stocking Code	Ship Weight	List Price

*Pond size is based on a 2' depth

**EM pond kits come standard with PS1FB skimmer (filter brushes). For a skimmer with filter pad - drop letters "FB" from part number

Recommended Accessories for Kits on This Page: Underwater Lighting, Auto Fill Valves, Bottom Drains, Bacteria & Water Treatments

P SERIES Large Pond Kits

All "EL" Kits Include

- **DURALINER.** 45 mil EPDM rubber liner
- Liner underlayment
- 9,000 gph or larger submersible pump
- 3" check valve assembly
- 3" flexible PVC pipe
- One gallon beneficial pond bacteria (ASB128)
- Four underwater lights with transformer
- WIK2 installation kit which includes PVC primer, glue, liner patch, black foam and two tubes of silicone

EL3434

Pro Tip Bottom Drains are strongly recommended in large ponds to prevent stratification. See EBD4 on page 46.

Part #	Pond Size*	Liner Size	Approx. Pond Gallons	Skimmer Included**	Filter Included	Pump Included	Pump Warranty	Stocking Code	Ship Weight	List Price

Check Valves

Check Valve Assemblies

Check valve assemblies connect the pump to the plumbing and keep plumbing line full of water even when the pump is off.

- Pre-assembled check valves are sized to properly fit a pump and equipment combination to desired pipe size
- Use the chart below to select proper check valve assembly

Part #	Size	Compatible Pump Models	Fits	Stocking Code	Ship Weight	List Price
CVA12EP	1¼"	EP2200	PSM	753993	2 lbs.	\$71.99
CVA12TG	1¼"	TLS1850, TLS2750	PSM	353997	2 lbs.	\$71.99
CVA15EP	1½"	EP2200, EP3200N	PSM	853994	2 lbs.	\$71.99
CVA15TGM	1½"	All TLS style pumps	PSM	456248	2 lbs.	\$74.99

*Female thread at pump connection

Pump Outlet Assemblies

In many applications a check valve is not needed on the pump outlet. Especially on small Just-A-Falls kits. These assemblies are designed for use on pumps used inside EasyPro® pump vaults.

Part #	Size	Compatible Pump Models	Fits	Stocking Code	Ship Weight	List Price
PDA12EP	1¼"	EP2200	JAFI	823249	1 lb.	\$30.99

Box style valves (BFS) replace water lost from evaporation or small leaks in systems, easy to mount inside skimmer!

Water Fill Valves

Brass Fill Valves

- Ideal for use in skimmers, vaults and the water fill box (below) for maintaining water levels in many different applications
- Heavy duty brass body and brass rods are far superior to normal plastic fill valves
- All valve rods (arms) can be adjusted to fit your exact requirements
- WFS37 and WFS50 include fittings to connect to irrigation tubing

Box Style Fill Valve (BFS)

This durable fill valve is ideal since the float is contained inside the valve box. No chance of damaging unit when lifting pumps in or out of skimmer.

- Recommended water pressure 35 psi
- Includes fitting to connect to 1/2" vinyl tubing
- Fits in small or large skimmer
- Measures 7 1/2" long x 3" wide x 4" high

Part #	Description	Overall Length	Gpm Flow at Psi:		Stocking Code	Ship Weight	List Price
			15	35			
BFS	1/2" box style fill valve	7 1/2"	6	5	732992	2 lbs.	\$43.99
WFS37	1/2" economy brass valve	8"	11	16	247998	2 lbs.	\$63.99
WFS50	1/2" brass fill valve	12 1/2"	12 1/2	17 1/2	874241	2 lbs.	\$98.99
WFS100	1" brass fill valve	17"	38	64	8101246	3 lbs.	\$134.99
WFS150N	1 1/2" brass fill valve	19 1/2"	90	129	6224998	5 lbs.	\$299.99

Water fill valves may require inline pressure regulator to keep pressures below recommended limits

Water Fill Box

Ideal for auto fills inside ponds, Just-A-Falls systems and formal pools!

- A good way to mount a water fill valve in a pond without a skimmer
- Provides an ideal housing in which to install an auto fill, 1/2" bulkhead included
- Sits inside the liner and holds fill valves up to 13" long
- 1" overflow bulkhead is included for optional overflow drain
- Auto fill valve sold separately

Designed to house WFS37 and WFS50 fill valves (sold separately above)

P
SERIES
O

Sinacori Landscape (MI)

Part #	Description	Stocking Code	Ship Weight	List Price
WFB	15" long x 8" x 8"	867493	4 lbs.	\$89.99

Bottom Drains

SINCE 1970

Many pond builders have found that adding a bottom drain helps keep a pond cleaner. Fish waste and other muck that accumulate on a pond bottom can be easily removed by a bottom drain.

Huisman Landscape (MI)

2" Bottom Drain

- 8" diameter drain
- Maximum flow rate 72 gpm
- 2" female threaded outlet in sidewall
- Includes flange to secure liner to drain base

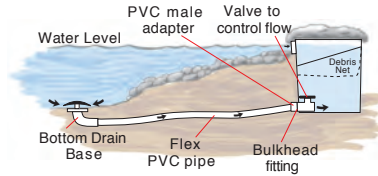

Part #	Description	Stocking Code	Ship Weight	List Price
BD8	2" bottom drain	5156552	4 lbs.	\$195.69

3" Bottom Drains

- Available with (BDA) or without (BD1) air diffuser in lid, using air increases circulation and cleaning capacity
- Both have dual rubber gaskets and six stainless screws for water tight penetration through liner
- For use with 3" schedule 40 PVC fittings and pipe
- BDA has 1/2" barbed inlet fitting, recommended air flow through diffuser is .5 - 1.5 cfm
- **Drain Kits** are designed to connect bottom drain into skimmer box and include bottom drain, 2" bulk head fitting, 2" valve and fittings (flex pipe sold separately, see page 112)

Part #	Description	Stocking Code	Ship Weight	List Price
BD1	3" bottom drain	393298	4 lbs.	\$124.38
BDA	3" bottom drain with air diffuser	6119997	5 lbs.	\$159.99
BDK2N	Bottom drain kit with BD1 drain	7157494	7 lbs.	\$209.99
BDK2A	Bottom drain kit with BDA drain including air diffuser	3174321	8 lbs.	\$232.43

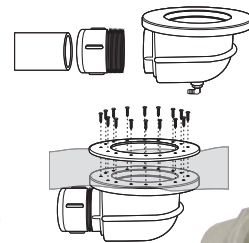

4" Bottom Drains

Heavy duty, roto-molded design offers superior strength

- Threaded center stand pipe securely attaches dome lid to base
- Sixteen stainless screws securely attach liner ring to base with water tight seal through liner
- For use with 4" schedule 40 PVC fittings and pipe, use 4" male adapter (MA40) to connect to 4" pipe, use reducing male adapter (RMA4030) to connect to 3" pipe
- EBD4A incorporates an air diffuser into the dome lid — incoming air is delivered up through the center stand pipe allowing air tubing to be installed under liner
- EBD4A tubing adapter is 1/2", recommended air flow through diffuser is .5 - 1.5 cfm
- **Drain Kits** are designed to connect bottom drain into skimmer box and include bottom drain, 3" bulk head fitting, 3" valve and fittings (flex pipe sold separately, see page 112)

Easy Installation

Part #	Description	Stocking Code	Ship Weight	List Price

BDK3A	Bottom drain kit with EBD4A drain including air diffuser	4224993	15 lbs.	\$299.99
RMA4030	4" threaded x 3" slip PVC adapter	811696	1 lb.	\$17.99

Pump Pro-Tectors

Protect against plugging by creating a large surface area around the pump

- Designed to fit all brands of small pumps
- Has a polyester filter media pad inside of a nylon mesh bag
- Drawstring top with push button release keep the top closed around the pump yet makes for easy pump removal
- **PP8** has an 8" diameter and 1" thick sidewalls allowing pumps up to 6" diameter
- **PP12** has a 12" diameter and has 2" thick sidewalls allowing pumps up to 8" diameter

Telescoping Pond Net

Great all-around pond net for skimming leaves, catching fish, etc.

- Aluminum frame and handle are light weight and very strong
- Net measures 17" x 18" x 16" deep mesh and is flat along the front making it easier to catch fish
- 32" - 60" telescoping handle is octagon shaped and is super strong with detachable head for easy cleaning and storage

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
EPN	Telescoping pond net	6	735246	4 lbs.	\$46.99

Fish Shipping Bags

- Most commonly used for hauling live fish
- Bags are made from the finest materials
- Our standard bag is 18" x 34", 3 mil and guaranteed waterproof
- Available in 100 or 250 count box

Part #	Description	Stocking Code	Ship Weight	List Price
OB100	18" x 34" bag, 100 count box	854825	12 lbs.	\$73.09
OB250	18" x 34" bag, 250 count box	3121428	31 lbs.	\$161.89

Bander & Bands

Use this handy tool to quickly and securely close your fish shipping bags. For maximum holding power use two bands at a time on each bag.

Part #	Description	Stocking Code	Ship Weight	List Price
BBT	Bag sealing tool	420995	2 lbs.	\$29.99
BB	Bands, 100 ct. bag	74616	1 lb.	\$6.59

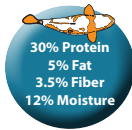

Platinum Koi & Goldfish Food

EasyPro® has combined the latest in ingredients and technology to give you a superior fish diet. Developed through decades of research, these diets are fed by leading breeders and producers with consistently great results!

Max Color Food

- A high quality feed designed to provide a staple diet and enhance vibrant colors in fish
- Fortified with spirulina and other marine ingredients to enhance the natural coloration of koi and goldfish
- 5.0 mm (3/16") floating pellet
- Ideal for larger fish
- Use when water temp is over 50°F (10°C)

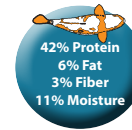

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
PC1	20 oz.	12	914246	2 lbs.	\$18.99
PC5	5 lbs.	4	731498	6 lbs.	\$41.99
PC33	33 lbs.	4	2137245	35 lbs.	\$182.99

Max Growth & Color Food

- A high performance diet designed for growing fish
- Fortified with spirulina and other marine ingredients for maximum color
- Does not cloud water
- 3.0 mm (1/8") floating pellet
- Ideal for young fish
- Use when water temp is over 50°F (10°C)

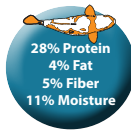

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
PG1	20 oz.	12	714994	2 lbs.	\$19.99
PG5	5 lbs.	4	632995	6 lbs.	\$43.99
PG33	33 lbs.	4	3142491	35 lbs.	\$189.99

Cold Water Food (Wheat Germ)

- Wheat based diet ideal for feeding during colder periods of the year
- Low protein, low fat diet that is easily digested by fish during colder water temperatures
- 5.0 mm (3/16") floating pellet with two year shelf life
- Use when water temp is between 39°F (4°C) and 50° (10°C).

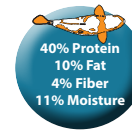

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
CWF1	20 oz.	12	711994	2 lbs.	\$15.99
CWF5	5 lbs.	4	326248	6 lbs.	\$34.99

Game Fish Food

- High quality general purpose fish food designed for feeding trout, bluegill, catfish and other game fish in farm ponds and lakes
- Ingredient selection based on true fin fish digestibility testing
- Meets FDA requirements regarding restrictions on mammalian protein sources
- Floating pellets available in 3.0 mm (1/8") for younger fish or 5.0 mm (3/16") for larger fish

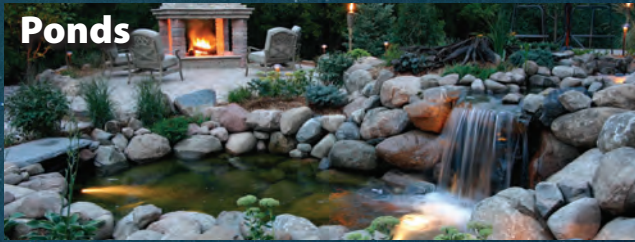

This product contains marine protein and oil products, processed grain and vegetable products, processed poultry by-products, vitamins (including stable vitamin C), minerals and amino acids.

Part #	Description	Stocking Code	Ship Weight	List Price
FD18	44 lb. bag 1/8"	839506	2 lbs.	\$52.99
FD316	44 lb. bag 3/16"	739500	6 lbs.	\$52.99

Extend your water features into the night!

EasyPro® offers a wide variety of underwater lighting options including white and Cabrio color changing LED lights; all designed to create beautiful nighttime displays.

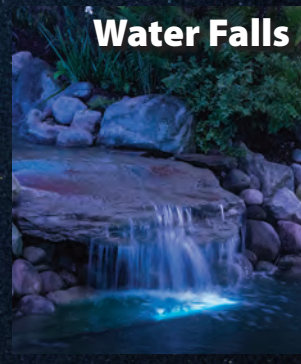

Ponds

Formal Features

Fountains

Water Falls

Underwater LED Light Strips

More than just an underwater light! Use with pathways and bridges to accent your pond.

- Ideal for use with Vianti Falls on page 21, waterfall diffusers on page 23 or underwater to light up waterfalls, streams, etc.
- 15' power cord between light and transformer
- Available in 11", 23" or 35" lengths and in warm white or blue
- Use in or out of water (fresh water only)
- Three year warranty

Compact LED Lights

**Rock-Shaped!
Easy to Hide**

Extra Bright Mini LED Lights

The small 1½" diameter light fixture is rock shaped which makes hiding them easy.

- Low voltage lights are smaller than a golf ball and yet have an incredibly bright output with 16 diodes.
- Each 1.25 watt light has 15' power cord with quick connect plug plus **one year warranty**

LED2W - Pack of two warm white LED lights

LED2K - Pack of three warm white LED lights with MT10 transformer

SINCE 1970

Stainless Steel LED Lighting

4 Watt LED Rock Light

Realistic rock cover is molded from actual rock for a natural look that blends into the landscape of ponds, waterfalls and gardens. Stainless steel housing for long life. Safe for chlorine and salt water. Super bright, warm white lights are fully submersible and may be used in or out of the water.

Three year warranty

Light specs

- Wattage: 4 watt
- Diodes: Super bright CREE diodes proudly made in the USA
- Light temperature: 2800K warm white
- Color rendering index: 87
- Light angle: 22°
- Bulb life: up to 60,000 hours
- Power cord: 16' with 12V quick connect plug, Requires a transformer.
- Transformer is required for use but is not included.
- Compatible transformers: MT10 (2 lights), MT20 (4 lights) or EPT45 (up to 8 lights). See page 55.

Bonus Feature! Rock cover is designed with an added flat surface to angle the beam upward if desired.

Color Changing LED Lighting

cabrio lighting series

cabrio Remote Control

This remote is required to operate all Cabrio lights on this page.

The Cabrio remote control works with radio frequency (RF) for up to a 60' range.

A single remote can operate multiple Cabrio fixtures in any combination and within range.

Extendible antenna allows for increased range of use.

A23 battery included

Size: 2" x 4" x 3/4"

Part #CLEDRC

Vivid color for your water features or landscape!
Compact fixture emits powerful light, using only 3 watts

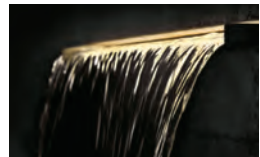

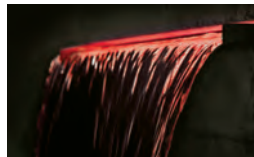

- Wide spectrum of color options
- Stainless steel housing with removable base
- Epoxy filled. Use in or out of water
- Sync with all your other Cabrio lights using a single remote control.
- 15' power cord with quick connect plugs

5 Year Warranty!

Color Changing Pond & Water Feature Lights

Maximize the impact of your water feature at night! Originally designed for use on floating fountains, these extra bright LED lights are also ideal for creating optimal nighttime displays on a wide variety of water features.

- Stainless steel 17 watt lights have both true warm white diodes and color changing diodes.
- Quick connect plugs on controller, cables and lights for easy assembly
- Stainless steel mounting brackets and hardware
- Weather resistant digital timer/controller with remote control. The remote control works up to 1000' and makes selecting colors and adjusting the brightness easy. RGBC controllers feature built-in memory protection in case of power interruption.
- Multiple controllers can be synced with one remote control.
- Red, green, blue, warm white, lavender, cyan and yellow-green solid colors plus several preprogrammed sequences with additional colors

Tranquil Escapes (SC)

Custom build these lighting systems by selecting the number of lights needed and the corresponding controller. Then use a 15' or 30' power cable and splitters to complete the layout!

DuraLiner™ 45 Mil EPDM Liner

SINCE 1970

EasyPro is pleased to offer this high quality 45 mil EPDM liner and accessories. Recognizing that an alternative brand, not focused on the roofing market, was needed here in the USA, EasyPro partnered with a leading worldwide manufacturer of EPDM to create the DuraLiner™ brand. Manufacturing is done in an ISO9001 certified factory and all ASTM testing is done to ensure equal or superior quality to existing brands.

New!

DURALINER™ POND LINING

The trusted choice of professional landscapers, nurseries, koi pond and water garden installers!

- Easy to shape and form! Stays flexible even in extreme temperatures from -40° to 175°F.
- Durable 45 mil rubber is weather and UV resistant - will not crack with age.
- Puncture resistant
- Available in pre-cut sizes, custom cut for your project, and by the roll for larger ponds
- Fish and plant friendly
- 20 year limited warranty

EPDM Liner Accessories

SINCE 1970

EPDM Tapes

DuraLiner™ offers both a 3" double sided seaming tape as well as 6" single sided cover tape. Both can be used to seam two panels of EPDM material together. ALWAYS use DuraLiner™ Primer to clean and prep the material. Primer helps tapes adhere much better. Use a seam roller after tapes are applied to work out air bubbles and ensure a watertight seam.

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
DLST325	DuraLiner Seam Tape - 3" x 25'	12	829992	2 lbs.	\$39.99
DLST3100	DuraLiner Seam Tape - 3" x 100'	4	797494	7 lbs.	\$129.99
DLCS625	DuraLiner Cover Tape - 6" x 25'	4	189993	6 lbs.	\$119.99
DLCS6100	DuraLiner Cover Tape - 6" x 100'	2	5299996	23 lbs.	\$399.99

EPDM Primers

EPDM liner panels must be clean and dry for proper tape adhesion. Always use DuraLiner™ EPDM Primer to clean the material before applying tape.

- Use scrubber pads (below) to apply the primer. Let dry to the touch (flash off) before applying tape.
- Certain states require LVOC primer be used. Normal primer may not be sold or shipped into these states. (See below for list)
- Coverage - approx 100' of seaming per gallon

Part #	Description	Case Qty.	Stocking Code	Ship Weight	List Price
DEP32*	DuraLiner EPDM Primer - 1 qt.	12	244993	3 lbs.	\$59.99
DEP128*†	DuraLiner EPDM Primer - 1 gal.	6	889994	10 lbs.	\$119.99
DEP32LV	DuraLiner LVOC EPDM Primer - 1 qt.	12	659993	3 lbs.	\$79.99
DEP128LV †	DuraLiner LVOC EPDM Primer - 1 gal.	6	3112497	10 lbs.	\$149.99

* LVOC primer required in these states: CA, CT, DC, DE, MA, MD, ME, NH, NJ, NY, PA, RI, VA, VT
 † One gallon primers must ship as hazardous material with additional charges via UPS or motor freight.

Liner Scrubber Pads

- These pads are used to apply seam primer, clean and prepare the seam area prior to installing tape or tape accessories
- Includes five pads

DL69P

Seam Roller

- Perfect for applying heavy pressure to the seam to properly fuse tape to liner
- Available in contractor grade with a wood/metal handle
- DLSR roller is made from silicone and will not stick to tape or liner

DLSR

DLSRP

Water Seal

- Creates a flexible, water-tight seal between liner and substrate behind liner.
- Approx. 10 lineal foot @ 3/8" bead coverage

DLWS10

Pipe Boot

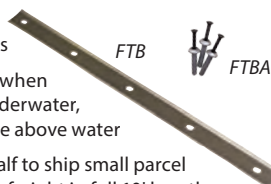

- Can be cut to fit pipes from 1" to 6 7/8" O.D.
- Taped flange bonds to liner and stainless clamp to tighten around pipe

DLPB

10' Aluminum Termination Bar

- Pre-punched in 4" increments
- Use every hole when terminating underwater, every other hole above water
- Can be cut in half to ship small parcel or must ship via freight in full 10' lengths

FTB

FTBA

Edge Sealant

- Used along the outer edge of a seam to prevent water from getting in between liner panels.
- Approx. 20 lineal foot @ 1/4" bead coverage

Mid Michigan Ponds (MI)

Greenline, Inc. (MI)

EasyWeave Reinforced Woven Polyethylene Pond Liners

Ideal for lining large ponds — up to 75,000 square feet in one piece and custom made to your pond size

These EasyWeave polyethylene liners are engineered to offer great strength in a light weight liner material. The material is UV stabilized to offer years of worry free protection against the damaging rays of the sun. Unlike regular multi-layered liners which simply stack the layers of liner on top of each other, these liners are woven together — this gives the ultimate in strength. Because of the light weight and strength, these liners can be manufactured in sizes up to 75,000 square feet.

Features

- Designed for easy installation and long life span
- Puncture, abrasion and chemically resistant construction
- High strength HDPE woven core that provides superior dimensional stability
- Outstanding UV, ozone and oxidation resistance
- Unlike standard PVC liners, which need 12" of soil over the entire liner, these liners do not require coverage other than around the edges — this lowers the overall installation cost dramatically!
- Custom made liners require approximately 10-14 days for manufacturing and delivery

20 year warranty when under water, 10 year warranty when exposed to direct sunlight
Pipe boots are available for sealing around incoming lines below water, contact us for details

Liner Panel Size Parameters

Width: 12' width increment standard, 6' increment width available for additional \$150.00 • Length: Any desired length in 1' increments up to 300' long

See our website for video installations of liner, spec sheets, training and design tips

Applications

- Aquaculture
- Exposed applications
- Water management
- Pond liner
- Oil and gas
- Hydroponic farming
- Soil remediation
- Irrigation reservoirs and canals
- Fracking

Underlayment & Liner Air Vent

SINCE 1970

Pond Shield®

Ideal for sealing concrete ponds, pools and fountains

This non-toxic two-part epoxy sealer is designed specifically for sealing concrete, steel, wood, fiberglass, etc. With Pond Shield you get all the water proofing of a liner without the wrinkles.

- Easy To Apply — No special equipment needed, just brush or roll on
- Flexible — remains flexible from -78° to 140°F
- Durable — Bonds to substrate rather than covering it, leading to longer life and less repairs/maintenance
- Beautiful — Provides a smooth, hard finish with no wrinkles or folds — Makes surface easier to clean
- 1.5 quart kits are easy to ship. Can be special ordered in larger containers but due to hardening time smaller 1.5 quart batches are recommended

Each kit covers approximately 60 square feet of surface area!

Stocked in black. All other colors drop ship with a 2 kit minimum.

Available in seven colors!

Underliner Vent System

Helps prevent uplifting or floating of pond liners caused by methane gases in organic soils or high water tables

- Provides a strong, secure channel for ground water and gases to freely flow through to designated exits (GE4EO end outlets)
- Prefabricated 6" strip consisting of a molded grid wrapped in geotextile fabric to permit a high flow of water into the molded grid while restraining soil particles
- Easy to install — no heavy equipment or skilled labor needed — Simply roll out in the deepest portion of your pond
- Comes in 150' long rolls, is 6" wide and 1" tall

GE4EO
4" End Outlet

Ships from our warehouse — no minimum order!

Part #	Description	Stocking Code	Ship Weight	List Price

GE4EO	4" End outlet	324258	3 lbs.	\$29.39

Liner Air Vent

- Use these 1 1/2" vents to release air or water trapped under pond liners
- Includes 1 1/2" bulkhead fitting and pressure relief fitting
- Helps prevent liner from floating up when air (or water) gets trapped underneath

ONE STEP NON STOP

Power-Cyclone Vacuum by Matala

Matala® Pond Vacuums

Matala offers three different sizes of pond vacuums to aid in pond cleaning and maintenance

The **MPVC** is a contractor/pond maintenance model that features a dual pump system where water is continuously sucked through the system and pumped back out of the tank allowing for much faster, consistent cleaning action.

- Easy operation with heavy duty wheels and handle
- Internal pre-filter bag
- 1500 gallon per hour vacuum/exhaust capacity
- Suction lift 5' above water
- Includes vacuum, extension tubes, nozzles, 32' discharge hose, 26' suction hose, sludge collection bag, power cord and assembly hardware

The **MPV2** and **MPVPRO** are designed for homeowner use and are designed to suck until the tank is full then automatically shut off, allowing the tank to drain before starting up again.

- Includes vacuum, five extension tubes, four nozzles, 8' discharge hose, 16' suction hose, sludge collection bag, 16' power cord and assembly hardware

2 Year Warranty!

Part #	Description	Watts	Capacity	Drain Cycle	Stocking Code	Ship Weight	List Price

Thermo-Pond Heater/De-icers

Pond de-icers are used to keep a small hole open in the ice during freezing conditions. This small hole allows potentially harmful gas to escape from the pond water. The gas is caused by decomposing leaves, dead algae, fish waste, etc. and will become lethal if levels become too high. Maintaining a small opening vents the gas.

TP100 - Energy efficient de-icer uses only 100 watts of power

- Tested in Northern Wisconsin ponds down to -39°F
- Completely enclosed in plastic — no danger of heating element damaging liner
- This de-icer costs a little more than other de-icers, but the electrical savings will pay for itself in the first month
- One year warranty

TPH250, TPH750, TPH1500 - Perfect climate deluxe pond de-icers

- Can be used as a surface de-icer or converts in seconds to a bottom heater
- Two year warranty
- Thermostatically controlled — operates only when needed, saving electricity

Premium Pond Cover Netting

Strong black netting is protected with a UV coating to last for years!

- Currently most other manufacturers offer a small variety of prepackaged netting that does not fit the needs of many pond or stream applications. EasyPro® Premium Pond Cover Netting is available in 10', 20' and 30' wide rolls each 100' long
- You simply pull out the length needed, cut it and BINGO — you have a cover net exactly the length you need!
- Selling EasyPro® netting allows you to cut your inventory down to only three SKUs and greatly increases your selling choices
- By stocking pond cover netting like you would stock liner, inventory is minimized but size choices are increased
- A variety of prepackaged sizes are also available
- Custom cut pieces are available, allowing you to buy just what you need, please specify length when ordering, 10', 20' or 30' wide

Pond & Garden Tents

Often imitated, NEVER duplicated!

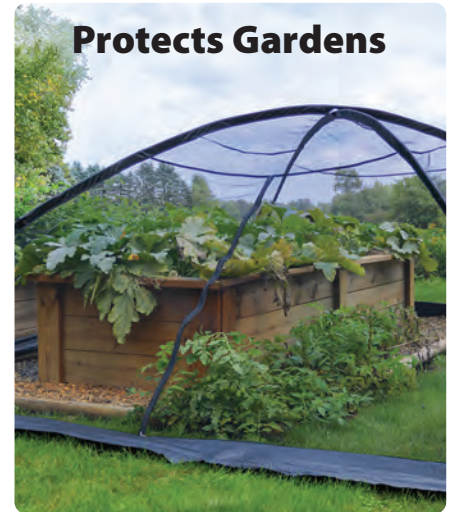

Don't be fooled by copycats. EasyPro's Deluxe Pond and Garden Tents are the **STRONGEST, MOST DURABLE** pond tents on the market.

EasyPro® Deluxe Pond and Garden Tents

Stronger netting. Stronger poles.
Stronger Stakes. Access Zipper.

- **Larger Sizes Available:** 8' x 10', 10' x 14' and 13' x 17'
- **Durability:** Full 12" wide band around the bottom with the tie down loops for extra strength and durability
- **Easy Pond Access:** The built-in zipper allows for easy access to feed your fish
- **Easy-to-Assemble:** Simple two person assembly can be completed and installed over pond in just a few minutes

The reviews are in. EasyPro® is the customer's favorite!

EasyPro® Pond Tent Customer Review

"Great investment. We have now gone through three months of leaves falling over this pond net and it works like a charm. This is our third try at a pond net and we are so happy we finally found the EasyPro after dealing with the others that were less well made. It is perfect, sturdy, easy to put together with two people and we have absolutely no leaves in the pond."

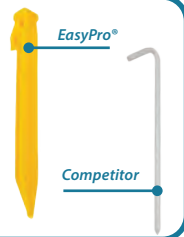

Competitor's Pond Tent Customer Review

"The assembly was a pain with the poles popping apart and flopping all over. ...after a couple rainy and windy days it collapsed on one side and would (not) stay upright anymore, a couple days later the rest collapsed dropping the net into the water. ...nothing holds the poles in orientation... The stakes hold the corners, but the poles just swivel to be parallel to the ground without moving the stakes."

TENT STAKES

EasyPro® provides 12 durable, heavy anchor stakes for securing tent to the ground.

Competitor provides 8 thin metal stakes that can bend and not remain secure in the ground.

NYLON MESH

EasyPro's nylon mesh is UV coated and is secured to frame with full length sleeves, making it last longer and more durable. It's 3/8" mesh is designed to keep out more debris.

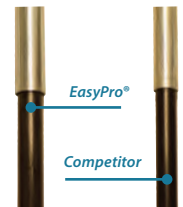

Competitor's nylon mesh is NOT UV coated leading to premature failure.

TENT POLES

EasyPro's aluminum/fiberglass poles are larger in diameter (11.2mm), stronger and sturdier.

Competitor's 9mm fiberglass only poles are thinner, weaker and have no "inner thread" making assembly difficult.

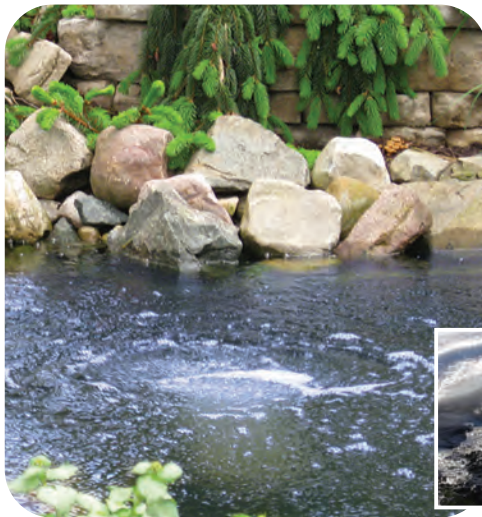

Part #	Description	Stocking Code	Ship Weight	List Price

CAS Compact Aeration Series

Ornamental Pond Aerators & De-icers

Supplying adequate oxygen levels and circulation during hot summer months or de-icing during freezing months is critical for pond and fish care. CAS Pond Aeration Kits provide quiet and energy-efficient aeration for aquariums, water gardens and koi ponds, making them the perfect choice!

CAS1

- Continuous duty compressor with 6' power cord
- Includes 25' of vinyl tubing, air diffuser and check valve
- 2.7 watt compressor will operate up to 4' deep

CAS2

- Continuous duty compressor with adjustable air flow, 6' power cord and dual air outlets
- Includes two 25' rolls of vinyl tubing, two air diffusers and two check valves
- 4 watt compressor will operate up to 4' deep

CAS4

- Continuous duty compressor with adjustable air flow, 6' power cord and four air outlets
- Includes four 25' rolls of vinyl tubing, four air diffusers and four check valves
- 8.2 watt compressor will operate up to 4' deep

Deluxe Linear Aeration Kits

3 Year Warranty

- Extra Quiet — you can barely hear them from only 5' away
- Energy Efficient — operates for only pennies per day
- Very Reliable — motors can often run constant for 5 - 8 years
- Oil-less Design — provides clean, dry air with minimal maintenance
- UL Listed — for outdoor use
- Each kit includes compressor, 15' of weighted airline and air diffuser

LA5W

Includes ML28 compressor, 15' of 3/8" QuickSink weighted tubing and RAD6 air diffuser

LA15W

Includes ML80 compressor, 15' of 1/2" QuickSink weighted tubing and two RAD1250 air diffusers connected together

LA10W

Includes ML45 compressor, 15' of 1/2" QuickSink weighted tubing and RAD12 air diffuser

EASYPRO.COM

Finally the Perfect Fountain for Small Ponds!

STARBURST MINI FLOATING POND FOUNTAIN

Designed for ponds as small as 15' in diameter and features built-in, super bright lights and super easy installation.

- Powered by an energy-efficient asynchronous mag drive pump
- Six super bright, cool white LED lights embedded in float
- Spray pattern: 2.5' tall x 6' diameter
- Float diameter: 15"
- Minimum required pond depth: 18"
- Wattage: Fountain 110 watts, Lights 5 watts
- 30' Cord
- One year limited warranty

Beautiful BY DAY
Even Better AT NIGHT

2.5' tall x 6' diameter
Recommended for ponds larger than 15' in diameter

PRO-CLEAR-AIRE Aeration Compressors™

Improve water quality with the benefits of aeration! These compressors are designed for the demanding job of 24 hour operation.

- Quiet, energy-efficient operation
- Dual linear diaphragm design for maximum air flow
- Few moving parts - simple routine maintenance
- Oil-less design makes them ideal for pond aeration.
- Aluminum housing dissipates heat for longer product life
- No electricity in the water - safe for fish, pets and family
- Six foot power cord - 115 volt
- One year warranty

KPA25, KPA40
Dual Use Outlet
Use with included 3/8" brass barbed connector & clamp or 1/4" female pipe thread connection

KPA60, KPA80
3/4" Outlet
Use with 3/4" or larger tubing & clamp
3/4" tubing connector and 2 clamps included

PRO-TIP Compressors used outdoors can be easily concealed and protected with Mock Rock™ Landscape Boulders found on page 70.

Rubber Membrane Air Diffusers

- Incredibly strong and are ideal for pond aeration, circulation and destratifying applications
- Unlike air stones these diffusers are easy to clean
- Barbed inlets have multiple size barbs, cut to fit
- Twelve per case (12" has six per case)

Many additional diffuser options available in our Lake & Pond Catalog

Pro-Glass Alumina Air Stones

Three times stronger than white silica air stones!

- Creates finer bubbles for increased aeration efficiency with no increase in pressure
- Inlet fittings are set into the body of the diffuser, making them much less likely to break or twist loose
- Higher density means self weighting
- Cleanable with muriatic acid or chlorine
- More resistant to ozone

The Best Choice for aquaculture applications!

5-in-1 Test Strips

Tests for nitrate, nitrite, total hardness, total alkalinity and pH

- Fresh water use
- Water should be tested regularly to maintain good water quality
- 50 test strips in each bottle

Part #	Stocking Code	Ship Weight	List Price
TS5	918748	1 lb.	\$24.99

ECO pH+ Tester

- This simple to use tester gives fast, accurate pH readings, is water resistant and floats if dropped in pond
- Controlling pH levels will help balance water chemistry, enhance fish colors, promote spawning and control CO2 level
- Includes protective case
- Auto shutoff, drop shock, 150 hour battery life, water resistant, low battery warning

Four 1.5v button cell batteries included

Part #	Stocking Code	Ship Weight	List Price
KPH	287993	1 lb.	\$109.99

Koi Medic Salinity Meter

Very accurate, easy to use salinity meter

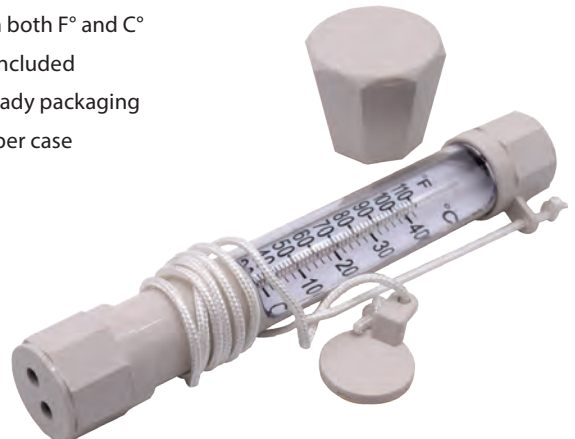

- Simply turn on and dip into pond, LCD display will display salt content
- Includes protective case
- Auto shutoff, drop shock 6', 150 hour battery life, water resistant, low battery warning, 0.00 - 1.00% range 0.01 resolution, includes four 1.5v button cell batteries

P180	719724	1 lb.	\$26.29

ARCHWAY BIO™

Creating enjoyable waters...naturally.

Archway Bio is the division of EasyPro® Pond Products that handles all the water treatment production. EasyPro® is a full line blending, packaging and labeling company offering a wide selection of treatments under our own brand as well as offering private label and bulk treatment options. Our products are widely used in the pond, lake, septic and waste water fields by customers around the world.

EasyPro® offers a wider selection of treatment options under our own brand name as well as bulk products for applicators and those using large quantities of material. In addition, we offer private labeling of water treatments (minimum order quantities apply), concentrates and custom blends for customers wanting unique product offerings. Please call us for more information.

1 Existing EasyPro® branded products

For the re-seller looking for finished products, we provide an established brand with an extensive line of shelf-ready products. See pages 72-79

2 Private Label

For distributors, mail order catalog companies, internet marketing companies or any other re-seller that wants completed finished products. You provide your brand and we'll package it with custom labels.

3 Bulk Product

For companies that cannot manufacture. Buy in bulk to repackage and label at your facility.

4 Concentrates & Raw Ingredients

For manufacturers that have the ability to blend, package and label products at their own facility

5 Customized Products & Packaging

For companies wanting unique product appearance and size. Choice of liquid/powder, tablets/packets and containers

Pond Salt

Salt is essential for fish health. Koi and goldfish need salt to control their electrolyte balance and also to promote their natural slime coating. This slime coating protects them against fungus and disease.

- Use one to two pounds per 100 gallons, three pounds per 100 gallons when treating for disease
- 99% pure - made from evaporated seawater, will not harm plants when applied correctly
- Reduces fish stress and improves disease recovery

Part #	Description	Size	Case Quantity	Stocking Code	Ship Weight	List Price

SINCE 1970

EasyPro Water Treatments

Designed to make pond care easy, effective & enjoyable

- When used together, these treatments create a balanced eco-system for fish and plants
- Simple dosages eliminate guess work
- Retail ready packaging
- Almost all are Eco-friendly
- Proudly made in the USA

All-In-One Pond Package

Combines the four most popular water treatments needed for a new pond start-up into one easy package

- Includes four 16 ounce bottles (one each) of Water Clarifier, Water Conditioner, All Season Bacteria and Liquid Barley Extract
- Treats up to 8000 gallon pond

Ideal for New Ponds!

AQUA DEFEND

Defend your pond all season long! This unique water treatment is designed to help keep pond water clean and clear. Aqua Defend contains a proprietary blend of all-natural enzyme-producing bacteria along with ingredients to buffer your water and help to keep your rocks and waterfalls clean.* The strong combination of products will help keep your water feature looking its best!

- Bacteria blend is especially effective at breaking down waste and sludge buildup
- Additive to help prevent buildup on rocks, waterfalls and in streams
- Additive to bind phosphates, buffer pH and help settling of particles
- 1 oz. scoop included in 1 and 2 pound jars
- 8 oz. scoop included in 5 and 10 pound pails
- Apply when water temps are 50°F and above

2 oz. per 1000 gallons

* When rocks, waterfalls and streams need a more thorough cleaning, use EasyPro® Rock and Waterfall Cleaner on page 76.

EASYPRO.COM

"All Season" Liquid Pond Bacteria

All season heterotrophic formulation containing beneficial pond bacteria

- Works in water temperatures as low as 38°F so you can use it in Spring, Summer, and Fall!
- Removes ammonia, nitrite, nitrate, phosphates and sludge
- Maintains a healthy, balanced eco-system and reduces pond maintenance

2 fl. oz.
per
1000
gallons

All Season Liquid Pond Bacteria

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
ASB16	Pint/16 fl. oz.	12	310123	2 lbs.	\$13.49

ASB128	Gallon/32 fl. oz.	4	641993	10 lbs.	\$55.99

"Seasonal Boost" Cold Weather Bacteria

A proven blend of beneficial pond bacteria, which "naturally" promotes a healthy ecologically balanced ecosystem.

- Allows quicker spring startup and longer late season action
- Use when water temperatures are below 55°F and as low as 38°F to naturally keep pond water clean and clear
- Promotes break down of leaves and organic debris
- Reduces toxins, problem nutrients and murky water
- Safe for use around pets and wildlife

3 fl. oz.
per
1000
gallons

Seasonal Boost Bacteria

SWT32	Quart/32 fl. oz.	12	614623	3 lbs.	\$19.49

Sludge Remover Bacteria-Dry

This unique formulation is produced using a "no mess" powder in water soluble packets or blocks, which immediately begin to dissolve upon contact with water. Ideal for use with "All Season" Liquid Bacteria above.

- Reduces toxic ammonia and nitrite
- Reduces problem causing nitrate and phosphate
- Reduces murky water caused by organic wastes
- Reduces organic bottom sludge (muck)
- Reduces odors
- Works in water temperatures down to 45°

Barley Straw Liquid Extract

This liquid formula contains the active ingredients derived from barley straw and eliminates the need to use unsightly pellets or bales of barley

- All natural liquid formula - easier to use than pellets or bales
- Safe for use with aquatic life and pets
- Keeps water clean and clear
- Works faster than straw

2 fl. oz.
per
1000
gallons

Barley Straw Liquid Extract

BSE128	Gallon/128 fl. oz.	4	644243	10 lbs.	\$58.99

Barley Straw Bales

With exposure to sunlight and oxygen, Barley Straw Bales break down and the released compounds modify a pond's chemistry, improving water quality.

- Lasts approximately three months
- Install replacement bale three weeks prior to removing old bale for continued coverage
- Safe for use with aquatic life and pets

Barley Straw Bales

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price
EBS	1/2 lb. bale	12	38992	1 lb.	\$11.99

Natural Phosphate Binder

Natural plant-based powder formulation provides a non-chemical alternative to using aluminum sulfate (ALUM) in koi ponds and watergardens

- Binds problem causing phosphate
- Provides approximately 70 beneficial trace minerals
- Buffers pH
- Provides minor flocculation (settling) of suspended particles
- 1 oz. scoop included
- Also available in 45 lb. bulk pail — see our Lake & Pond catalog

1 scoop
per
500
gallons

Water Conditioner

One of the most concentrated water conditioners available. Trusted, economical and ideal for use in water gardens and koi ponds.

- Apply directly to new ponds or immediately after water changes
- Protects fish by buffering pH and instantly neutralizing chlorine and destroying chloramines found in city water.
- Detoxifies heavy metals (including copper) found in both city and well water.
- Maintains a healthy, balanced eco-system and reduces pond maintenance

1 fl. oz. per 1000 gallons

Water Conditioner

Rock & Waterfall Cleaner

Quickly and effectively clean rocks, waterfalls, water features, fountains, statues, plant pots, etc.

1 lb. per 300-400 sq. ft.

- ### Dry Formula
- Powdered formula brings powerful oxygen based cleaning to large ponds or lakes as well as smaller koi ponds, water gardens and aquariums
 - Great for use with fish, birds, pets and wildlife
 - Lifts debris to pond surface where it can be removed by net or skimmer

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price

Pond and Water Feature Dyes

Choose from original blue, the increasingly popular black or "Serenity", a perfect blend of the blue and black dyes

- Pond dyes help filter out UV rays from the sun
- Concentrated formula
- Does not stain or harm fish or plants once dispersed
- Blue dye gives water a classic blue look
- Black dye gives a more "reflective" look
- Serenity dye is a blackish-blue combination

1 fl. oz. per 1000 gallons

Pond and Water Feature Dyes

Part #	Size	Case Qty.	Stocking Code	Ship Weight	List Price

Part #	Stocking Code	Ship Weight	List Price
BSE-55G	71724994	500 lbs.	\$2299.99

Water Clarifier

- Concentrated formula clears murky water fast
- Attracts suspended particles together allowing them to settle out of water column

55 gallon drum

Part #	Stocking Code	Ship Weight	List Price
EWC-55G	31349992	500 lbs.	\$1799.99

Water Conditioner

- Removes chlorine and destroys chloramines
- Detoxifies heavy metals
- Apply directly to new ponds or immediately after water changes

55 gallon drum

Part #	Stocking Code	Ship Weight	List Price
CON-55G	12062493	500 lbs.	\$2749.99

Water Conditioner PLUS

- Removes ammonia, chlorine and destroys chloramines
- Detoxifies nitrite and heavy metals
- Adds electrolytes, enhances skin slime coat and reduces stress

55 gallon drum

Part #	Stocking Code	Ship Weight	List Price
CNP-55G	82474995	500 lbs.	\$3299.99

Pond-Vive L

Liquid lake and pond bacteria

A convenient alternative to Pond-Vive in a liquid

- Similar formula to Pond-Vive powder, can be used to treat golf course ponds, farm ponds, municipal areas and similar applications
- Works to remove ammonia, nitrates, phosphates & sludge
- Application rate is one gallon per surface acre weekly for four weeks, then every two to four weeks for maintenance
- Two gallons will treat 1/4 acre pond for 10-16 weeks

Available in
55 gallon drum
250 gallon tote
for large bodies
of water

Part #	Size	Stocking Code	Approx. Ship Weight	List Price
PB-55G	55 Gallon Drum	81349991	490 lbs.	\$1799.99

ECPD-55G	55 Gallon Drum	62585007	500 lbs.	\$5499.99

GreenClean — Granular Algaecide

Ideal string algae control in ponds, waterfalls, fountains and streams. GreenClean Granular works through oxidation, breaking down algae cells on contact. Dead matter floats to the surface where it is removed by a skimmer or a net. Ideal for use with bacteria. Once it kills algae, bacteria go to work cleaning up organic material.

Features & Benefits

- Kills algae on contact — visible results in minutes
- For use in water features containing live fish and plants
- Effective, eco-friendly chemistry — no copper residue
- Controls string algae in ponds, streams or waterfalls
- An EPA registered, organic algaecide, so you can feel good about what is in your water
- Eco-friendly chemistry and Organic Materials Review Institute (ORMI) listed

Application Rates & Tips for Green Clean Granular

Use 1/2 pound (1 cup) per 1000 gallons of water to control existing problems, use 1/4 pound (1/2 cup) per 1000 gallons as maintenance dosage

1. Apply early in the morning on clear sunny day
2. Turn off circulation
3. Apply to affected areas, including waterfalls and streams
4. Turn circulation back on after 10-20 minutes
5. Skimming/netting dead algae helps prevent further algae growth

Note: Always read and follow label directions

Part #	Description	Size	Treats Up To	Case Quantity	Stocking Code	Ship Weight	List Price

Best Seller!

AlgAway 5.4 Algaecide

Ideal treatment for string algae

- Controls algae growth and eliminates green water in ponds
- This product is safe for use with fish and plants (not snails, shrimp and crustaceans)
- Keeps your water surface clear and beautiful
- For ponds with heavy algae growth, first clean off excess algae from the sides of the pond and any ornaments or water features - then add one cap full per 60 gallons of water for complete algae treatment
- When treating a pond with fish, be sure it is well aerated
- Not for sale in Rhode Island

Application Rates

- 1 fl. oz. treats 350 gallons
- 16 fl. oz. treats 5678 gallons
- 32 fl. oz. treats 11,356 gallons
- 128 fl. oz. treats 45,424 gallons
- 320 fl. oz. treats 113,560 gallons

Note: Always read and follow label directions

AlgAway 60

- EPA registered algae control for ponds, formal fountains, Just-A-Falls and other bodies of water not containing fish or plants, safe for irrigation, turf and shrubs
- **Not for use in waters containing fish or aquatic plants**
- Highly concentrated formula. One ounce treats up to 1000 gallons of water
- Eliminates most planktonic and filamentous algae quickly and efficiently and there's no phytotoxicity so water is safe for irrigation, turf and shrubs
- Eliminates plugging of irrigation lines and pumps
- Not for sale in California, New York, Rhode Island or Canada

EasyPro offers a wide variety of complete filters from the entry level Eco-Clear to the top of the line Skid Mount Packages.

We have a filter for nearly every application!

We also offer a wide variety of replacement media for solids and biological filtration.

Submersible Pump/Filter/UV Combo

Combines pump, filter, UV and fountain into one complete unit. Simple effective filtration ideal for small and pre-formed ponds.

- 11 watt UV for crystal clear water
- 675 gph pump with 16' power cord, 48 watts
- Mechanical and biological filtration media included
- Reusable filter pad is easy to clean
- One year warranty
- Swivel joint for easy leveling of fountain nozzles

ESF1250 with three tier nozzle and diverter valve

Includes three fountain nozzles and diverter valve!

Eco-Clear Pressurized Filters

SINCE 1970

Eco-Clear Pressurized Pond Filters

EasyPro® Eco-Clear Pressure Filters provide excellent, dual filtration for ponds. Ideal for preformed ponds and small water features needing effective filtration.

- Sturdy filter housings – can be partially buried up to cleaning ring for easy concealment
- Dual filtration – filter pads collect solid debris while bio-media provides biological filtration
- Optional UV for crystal clear water
- Filters are easy to disassemble and clean, making maintenance a snap!
- Multi-step connectors – inlet/outlet fittings accept a variety of tubing sizes
- Three year warranty

EC2600 and EC3900 unit bonus features

- Cleaning indicator – shows when filter needs to be cleaned
- Backwash valve to extend time between full cleanouts

Optional UV

Cleaning Indicator

Backwash Valve

Backwash Port

Multi-Step Connectors

Sturdy Filter Housings

Dual Filtration

Complete Pond Filtration Made Simple

Eco-Clear Pond Filters are also available in complete kits with our new Eco-Clear Pumps. See next page for complete kits and page 98 for Eco-Clear Pumps.

How IT WORKS

!

The Eco-Clear Pump sends dirty pond water to the pressurized filter.

The dirty water passes through **multiple densities of foam filters** and is cleaned of solid debris.

Water then passes through **bio-media** for excellent biological filtration.

Filters in these kits have **high-intensity UV lights** that destroy algae cells, eliminating green water. Cleaned water is returned to your pond.

PRO-CLEAR™ UV Ultraviolet Clarifiers

Durable, high quality construction.
Engineered for ultraviolet efficiency and long life.

- Tough, impact resistant housing
- Multi-step barbs for ¾", 1", 1¼" and 1½" tubing
- 115v weatherproof transformer with 6' cord
- Five year warranty on housing
- One year warranty on transformer, UV bulb and quartz sleeve
- Replacement bulbs and sleeves sold on page 86

PC18W

PRO-TIP

These in-line units can be easily concealed with Mock Rock™ Landscape Boulders found on page 70.

PRO-CLEAR™ UV ULTRA Stainless Steel UV Clarifiers

High strength, stainless steel construction. Engineered for maximum flow rate, ultraviolet efficiency and long life.

- Polished stainless interior reflector increases light reflection up to 35%
- Dual inlets & outlets for multiple plumbing options
- Weatherproof transformer
- UV sight glass window safely shows when unit is operating
- 2" PVC inlet/outlets — includes union connections
- UV-C grade bulbs have 9000 hour life rating
- Five year warranty on housing
- One year warranty on transformer, UV bulb and quartz sleeve
- Replacement bulbs and sleeves sold on page 86

Pressurized Bead Filters

Mechanical and biological filtration for water gardens, koi ponds and hybrid ponds

Filter Features

- Uses six position control head
- Strong, heavy duty, polyethylene filter body
- Has clear section to monitor cleaning cycle
- Simple to set up and assemble, great filters for fish displays
- Free unions included for plumbing lines

3 Year Warranty!

Ultimate Tube Media included for maximum filtration and minimal back pressure
Replacement media sold on page 91

The **POWER** OF THE AIR BLOWER

Consider it a ninja pre-wash cycle for filters!

Regular backflushing is required to clear bead filters of waste. Using an Air Blower first to loosen debris makes backflushing faster, more efficient and more effective.

\$ Saves on electrical costs

Inefficient high-pressure and two-speed pumps are great for backflushing but are expensive to operate.

Using an Air Blower first to loosen debris allows the backflush to be completed with an energy-efficient, low-head circulation pump.

⚡ Faster backflushing using less pond water

Agitating the beads with an air blower prior to backflushing reduces the amount of pond water needed to clean the filter when backflushing.

Without an air blower, it can take more water and more backflush cycles to clean the filter when only the circulation pump is used.

💧 Improves filtration capabilities

Preventing the beads from clumping together as the filter ages, the Air Blower helps to keep the surface area of the beads cleaner for maximum filtration.

For filters with the backflush blower option, look for part numbers below that end in "BL".

SINCE 1970

EasyPro Pond Filters

Deluxe Skid Mounted Pond Filtration Systems Plug and Go!

These deluxe filtration systems combine a pressurized bead filter with an external self priming pump and a UV clarifier into one completely plumbed, ready to install, "plug and go" filter system. Simply plumb your incoming and outgoing water lines and you are ready to go!

- All plumbing is completed and unions included at all connection points allowing for easy maintenance down the road
- Electrical post complete with 115v power outlet and 15' power cord for easy "plug and go" installation
- Plumbing includes a bypass line around filter/UV
- Filter comes complete with backflush blower upgrade

Each Skid Mounted System is manufactured and pressure tested in our facility before shipping. If one of the systems shown above does not fit your needs, we can custom-build one just for you.

Solids Filter Material

Save money — cut your own filter pads!

Bulk media that can easily be cut to fit popular brands of skimmers, pressure filters, waterfall filter boxes or pump pre-filters

- Made from long lasting polyester — can be rinsed clean and reused over and over
- Most commonly used as a solids filter material before water enters biological media (page 91)

PFM4

- 1" coarse density, off white
- Removes medium to large particles
- Ideal for higher flow
- Average life - 2 to 3 years

PFM5

- 2" coarse density, off white
- Used in waterfall filter boxes
- 56" wide roll for large jobs
- Average life - 2 to 3 years

BB05

Bio-Balls

These plastic Bio-Balls are a great media for use in all types of filters. Approximately 350 sq. ft. of surface area per cubic foot.

- Can be used as a loose media or put in mesh bags (page 92) for easy removal and cleaning
- Will not compact like other soft media, reduces channeling of water
- 1 1/2" in diameter, black in color - approximately 660 pieces per cubic foot

Part #	Description	Stocking Code	Ship Weight	List Price
BB05	Bio-Balls, approx. 200 ct. box w/bag	620248	3 lbs.	\$26.99
BB15	Bio-Balls, one cubic foot	438991	9 lbs	\$51.99
BB35	Bio-Balls, 3.5 cubic feet	7125242	32 lbs.	\$166.99

Bio-Blox Filter Media

An ultra high surface area media, created from a variety of different filter thicknesses and densities EasyPro® grinds this media in-house, allowing us to offer very competitive pricing

- Great low-cost choice for large volume applications
- Approximately 525 square feet of surface area per cubic foot, allowing for maximum filtration in a given area.
- Long lasting material can be washed and reused over and over
- Use mesh media bags to hold Bio-Blox for easier handling (sold separately on page 92)

Ultimate Tube Media

The ideal filtration media in any type of filter! Ultimate Tube Media is a floating media with a higher biofilm surface than other plastic media.

- Round media with multiple internal baffles which create tremendous additional surface area
- Floating media - use in bead filters or other biological pond filters
- 5/8" diameter x 3/8" long tubes
- Approx. 500 square feet of surface area in every cubic foot

Filter Brushes

Collect large amounts of debris yet will not restrict water flow even when dirty

- Work well for both solids removal and biological filtration
- Available in 15" or 23" long x 4" diameter. Can be cut down in length if needed.
- 15" used in PSMFB, PS1FB and all PSA skimmers - 23" used in PS2FB skimmers

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
FB15	Filter brush, 15"	12	76293	1 lb.	\$8.99
FB23	Filter brush, 23"	12	49097	2 lbs.	\$12.99

Matala® Filtration Media

EasyPro® is pleased to offer Matala filter media. This media is the finest biological media available and although it costs a little more — it will outlast all other similar products.

Matala is sold in two sizes of flat sheets:

Half sheets - 39" x 24" - can ship UPS Full sheets - 39" x 48"

Available in four different densities for various types of filtration

- **Black** Very coarse, open weave — good for high flow applications
- **Green** Coarse, semi-open weave — allows good flow yet filters well
- **Blue** Medium, fairly dense weave — traps a lot of debris, medium flow
- **Gray** Fine, dense weave — lower flow but thorough filtration

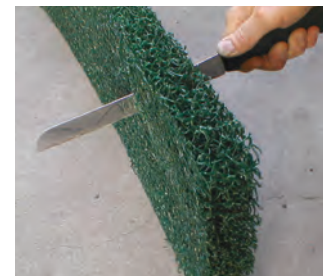

All densities are 1½" thick

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
MBK48*	Full sheet black material	5	250393	8 lbs.	\$71.99
MGN48*	Full sheet green material	5	350394	9 lbs.	\$71.99
MBE48*	Full sheet blue material	5	451445	9 lbs.	\$73.49
MGY48*	Full sheet gray material	5	658795	10 lbs.	\$83.99
MBK24**	Half sheet black material	10	625197	4 lbs.	\$35.99
MGN24**	Half sheet green material	10	725478	5 lbs.	\$36.39
MBE24**	Half sheet blue material	10	826738	5 lbs.	\$38.19
MGY24**	Half sheet gray material	10	829391	6 lbs.	\$41.99

* Flat Full sheets ship motor freight. Full Sheets can be folded in half to ship with dimensional rates. Folding may leave a small crease in media but will not affect filtering. ** Half Sheets ship UPS.

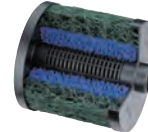

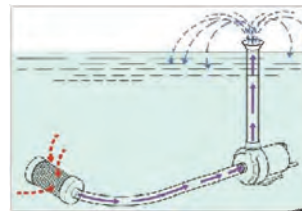

For best results mix layers of Matala using a coarse layer first for large solids removal followed by denser layers for fine debris. Due to its unique material design, Matala media is much more rigid than traditional polyester media. This makes it easier to clean but does not allow it to be rolled up like other media.

Easy to cut into custom sizes or shapes!

Matala® Biological Prefilter

- Use on all brands of mag drive submersible pumps as well as small external pumps to prevent plugging
- Made from durable Matala filter media for years of use
- Can be connected to each other end to end for increased capacity
- Dual filter media (green and blue) for complete mechanical and some biological filtration
- 1", 1¼" and 1½" hose tails included, fitting on filter is 1½" female pipe thread
- Maximum flow rate: 1900 gph on BIO11 and 3400 gph on BIO20

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
BIO11	Prefilter, small - 4" x 8"	18	620295	2 lbs.	\$28.99
BIO20	Prefilter, large - 8" x 8"	8	233596	4 lbs.	\$47.99

MB21

EMB2

Holds all types of media

Mesh Media Bags

- EMB1, EMB2 and EMB3 are ½" mesh and have drawstring with push button release
- MB21 and MB22 are ¼" mesh and have drawstring with push button release
- MB18F is ⅜" fine mesh and has drawstring with push button release

MB Media Bags

AQUA ULTRAVIOLET **Ultima II Filters**

Ultima II Filters are superior to bead filters because of their patented Bio-Tube media which do not clump together like beads. No need for a blower for backwashing!

- Very easy to backwash — never get your hands wet
- Unique media allows for high flow rates with minimal back pressure
- Bury in ground (up to control head) for easy hiding when used as a pond filter

Patented Bio-Tube Filter media has an extremely high surface area (one cubic foot of media has 750 square feet of surface area) for maximum filtration. This lightweight, non-clogging media is seeded with natural bacteria for quick filter start up after installation.

All units ship factory direct and will incur a \$20 Aqua UV drop ship fee.

Part #	† Maximum Pond Size	Maximum Pounds of Fish	Maximum gph Flow	Inlet/Outlet Size	Filter Size Height x Diameter	Stocking Code	Ship Weight	List Price

EasyPro® offers one of the largest selections of pumps in the country. In addition to the many pages of pumps shown, we have hundreds of additional pumps available. We specialize in high volume pumps and can supply you with virtually any size pump you could ever need. Contact us for all your pumping needs. We are glad to help you size and select the proper pump for your application.

PRO-TIP **Selecting The Right Pump**

Example: A 3' wide waterfall would need 108 gallons per minute to be 1" thick.

It takes approximately 36 gallons per minute of flow to make a waterfall 1' wide x 1" deep (1" deep water is considered an average depth for residential applications). The first step in determining how much water you need is to multiply the width of the waterfall in feet x 36 = gallons per minute. This helps determine how much volume you need.

Determine how much static head (vertical lift) there is from the surface of the pond to the top of the waterfall. On a small, simple waterfall the vertical lift is all you need, however on large applications you also need to factor in friction loss from the pipe as well as each fitting to get the total dynamic head (TDH). How to calculate friction loss is covered on page 105.

Static Head + Friction Loss = TDH

Knowing the water volume needed and the total dynamic head makes selecting a pump much easier. Start by looking at our chart on page 104. This chart lists all of our popular pumps on one page.

In the yellow columns on the right side of the chart — find the column of head closest to your application and follow that column down until you find a pump that delivers the gallons per minute (gpm) you need.

Selecting the correct pump for the job will increase the overall performance of the feature and decrease the frustration of frequent call backs and unhappy customers.

***Unique application? Using an external pump? Have questions?
Please do not hesitate to call.***

Improper pump application is the leading cause of pump failure - we want to help you select the best pump for your application.

When calling, you will be asked for:

- | | |
|--------------------------------------------|-----------------------------------------|
| 1. The flow rate needed (volume) | 3. Static head |
| 2. Length of pipe run and diameter of pipe | 4. Voltage and phase of power available |

The single most important thing you can do to ensure long pump life, particularly on larger motors...

The life of any pump is directly related to the operating conditions it works under. One of the most common causes of premature pump failure is **LOW** head. Pumps are designed to work under a certain amount of load. In low head applications, not enough back pressure is put on the pump and it spins too freely. This causes the motors to run hot and shortens their life considerably.

In every plumbing system you should incorporate a valve somewhere in the discharge line. This valve can then be closed part way to simulate back pressure if not enough natural pressure is created.

How do you know if your pump has enough back pressure? The best way to test this is through the electrical draw of the motor. Every pump has a label on it which shows the amp draw of the motor. If you have too little back pressure then the amp draw will be high. As you close the valve on the discharge line and increase pressure the amp draw will go down.

By using a simple device like the "Kill-A-Watt" meter for 115 volt applications you can easily dial-in the amp draw of the motor. When you are done, the pump's electric draw should be equal to or less than the amp draw listed on the pump label. You are then within the safe operating range of the motor. For 230 volt motors you can have your electrician test the running amp draw for you or purchase a 230 volt amp meter from a local electrical supply store. Proper plumbing and adequate electrical supply are also critical in the life of a pump. Please visit our web site for more information.

Tranquil Décor Mag Drive Pumps

Perfect submersible pump for fountains and bubbler features

- Compact, energy efficient design
- Oil free, environmentally safe
- Built in adjustable flow control
- 115 volts – 60 Hz
- One year warranty
- MP295, MP425, MP575 have 1/2" female threaded outlet
- MP1000 has 3/4" female threaded outlet

Pump Pro-Tectors

Protect against plugging by creating a large surface area around the pump

- Designed to fit all brands of small pumps
- Has a polyester filter media pad inside of a nylon mesh bag
- Drawstring top with push button release keeps the top closed around the pump yet makes for easy pump removal
- **PP8** has an 8" diameter and 1" thick sidewalls allowing pumps up to 6" diameter
- **PP12** has a 12" diameter and has 2" thick sidewalls allowing pumps up to 8" diameter

Part #	Maximum gph Flow	Case Quantity	Stocking Code	Ship Weight	List Price

Eco-Clear Submersible Pond Pumps

3 Year Warranty

Our newest line of submersible mag drive pumps offers maximum power AND energy efficiency.

- Permanent magnet motor for high efficiency and continuous duty
- Epoxy sealed motor - no oil to leak out! Safe for fish.
- Ceramic impeller provides high wear resistance and long life — designed for passing debris up to 3/8" diameter
- Adjustable direction outlet includes 1", 1 1/4" or 1 1/2" step barb fitting
- Available as a kit with EasyPro® Eco-Clear Pressurized Filters. See page 85.
- **Variable flow model EPS4900VF** available with external flow control module
- 30' power cord

Buy more and save! Save 5% when you buy a case of 4.

Our Best Selling Pumps of All Time!

TH SERIES™ Pumps

Stainless Steel Pumps

Energy efficient, long lasting — great pumps for waterfalls and streams

The "TH Series" of pumps has proven to be a great choice for ponds, waterfalls, fountains and similar applications. Thousands of these pumps are in use throughout North America in a wide variety of continuous duty applications. Compact design is ideal for use in skimmers. One of the industry's best selling pumps.

- Rugged motor — designed for long life, continuous duty operation; motor housing is corrosion-resistant stainless steel
- Low maintenance — pump casing is made from abrasion-resistant, fiber reinforced plastic for maximum life
- Vortex design prevents clogging
- Built-in overload and overheat motor protection
- 2" female threaded outlet
- 20' power cords

Optional bottom screen available!

2 Year Warranty

Refer to page 94 for tips to selecting the right pump for your job

Smalls Landscaping (IN)

TB SERIES™ High Head Stainless Steel Pumps

The best choice for water features above 20'

- 3" outlets with 20' power cords and thermal overload protection
- Top quality Japanese double mechanical seals — over 100,000 hour life expectancy
- 230 volt (1 hp available in 230v or 115v)
- Designed for use with higher head pressure
- Applications: A **minimum** of 20' head pressure required for TB12000 and TB14500, use ball valve to create back pressure if system has less than 20' head pressure

**2 Year
Warranty**

High Volume Submersible Pumps

These heavy duty, cast iron pumps are an economical choice for waterfalls. While these pumps are not as long lasting as Munro and EasyPro® Pumps, the high flow and low cost make them a popular choice for large waterfalls. They are the largest 115v submersible pumps we offer.

WQ1502

- All pumps available in 115v or 230v

Inline Flow Meter

This inline flow meter allows for accurate and reliable flow rate measurement without sticking floats or paddle wheels.

- Great for filter systems and UVs, 95-98% accuracy
- Can be installed right next to tees or elbows in any position
- 2" model has integrated check valve
- 2" body is CPVC, 3" and 4" body are PVC
- Fits schedule 40 or 80 pipe

5 Year Warranty!

MUNRO Pumps

Industry leading performance, value & reliability

- Stainless steel pumps designed to run for years, internal water flow dissipates heat quickly allowing for longer life span
- High efficiency motors pump more water using less energy than most competitors
- 1/2 and 1 hp units are low head, high volume pumps — do not restrict piping or valve back these models
- 2 hp and larger are medium head pumps and can be valved as needed for desired flow
- 24' power cords on 2-5 hp, 30' power cords on 1/2 and 1 hp models

Install vertically or horizontally!

Recommended operation in shaded area

*5 hp is 230v, 3 phase power only

**No built-in thermal protection. Fuse panel supplied locally and installed by licensed electrician is recommended.

*** Due to extreme volatility in the market, pumps are priced at the time of sale. Please inquire.

Ideal for Low-Head, High-Flow Water Features

These high-volume, low-head pumps are truly in a class of their own! All Carry Pumps feature axial-flow lift for smooth, low-vibration, low-pressure operation.

Carry Pump Features

- Stainless steel motor housings and impellers
- Include 30' of power cord (longer lengths available)
- High density intake screens to prevent debris from plugging pump
- Single and Three Phase motor options
- Control panels with variety of options (required to operate all Carry Pumps)
- Prices start around \$2,000 for smaller pumps to nearly \$10,000 for larger units.

Powerful, High Volume Submersible Pumps

7.5hp Carry Pump with Screen

Let us help you select the proper pump and plumbing for your project

Carry Pumps axial-flow units have no minimum head pressure unlike most submersible pumps. Their unique design makes them ideal for low-head applications. Wide, expansive waterfall systems require high flow rates to make an impact. These pumps create impressive waterfalls in commercial, golf course and high end residential applications.

Pump Selection Simplified

As described on page 94, selecting a pump involves:

- 1) determine the flow needed: multiply width (in feet) x 36 gpm = flow needed in gpm
- 2) determine the head pressure in feet (total dynamic head, see page 105)

To find a pump, go to the yellow box on the right side of the chart. Find the feet of head column that is closest to your application (always round up to next column). Scroll down that column looking for a pump that provides the gpm you determined you needed in step 1. If multiple pumps fit your application you can compare cost to operate, outlet size, etc. to finalize your selection.

PRO-TIP PVC Pipe: Friction Loss (in feet of head) per 100' of Pipe

Feet of head is typically measured in terms of vertical lift. However, the diameter and length of pipe can have a significant effect on the performance of the pump as well, especially if the pipe diameter is too small.

Total Dynamic Head is the feet of head (lift) added to the friction loss created by the pipe. To determine the Total Dynamic Head you would add the feet of head with the friction loss. The chart below lists the feet of head equivalent created by flow and pipe diameter.

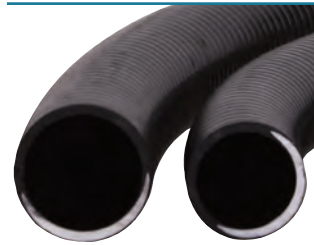

FLOW		PIPE DIAMETER									
gpm	gph	1"	1.25"	1.5"	2"	3"	4"	6"	8"	10"	
20	1,200	21.75	5.59	2.61	0.76	0.11					
30	1,800		11.85	5.53	1.62	0.23					
40	2,400		20.18	9.43	2.75	0.40	0.12				
50	3,000			10.51	4.25	0.66	0.17				
60	3,600			19.98	5.84	0.85	0.25				
70	4,200				7.76	1.13	0.33

1500	90,000								3.07	1.01	

PIPE COMPARISON

Many people mistakenly think that there isn't much difference between (for example): 1½" and 2" pipe or between 3" and 4" pipe.

The chart on the right shows how many square inches of surface area is on the inside of the flexible PVC pipe.

Pipe Size (Diameter)	Square Inches of Surface Area
0.50"	0.20
0.75"	0.44
1"	0.79
1.25"	1.23
1.5"	1.77
2"	3.14
3"	7.07
4"	12.57
6"	28.27
8"	50.26

There is almost 80% more space between 1.5" and 2" pipe.

This shows that using the correct size pipe is important to the output of your pump.

QUESTIONS?
Give one of our technical advisors a call and we'll walk you through it!

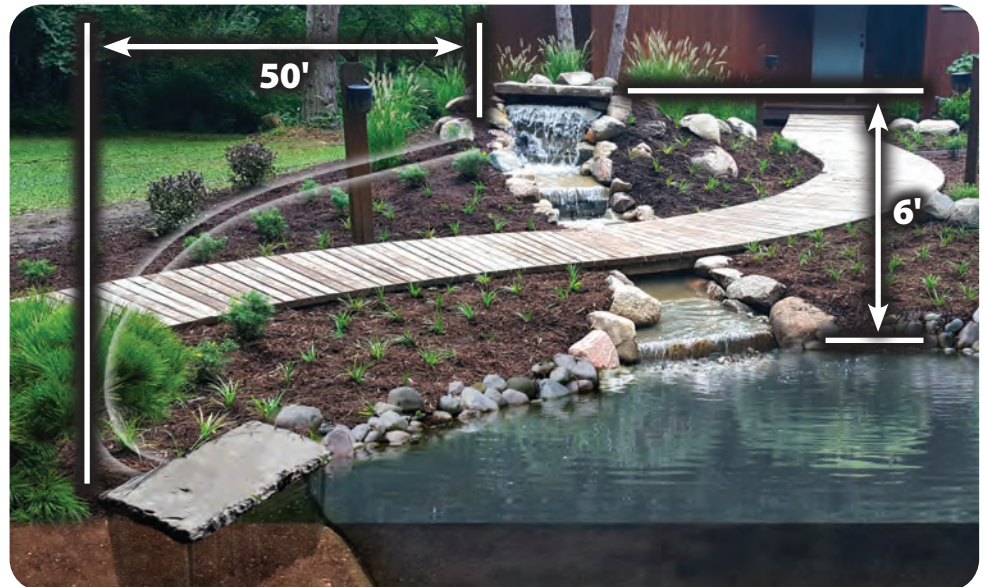

EXAMPLE

FRICITION LOSS CALCULATION

This example shows 2" pipe being used with the waterfall at 6' high and 50' away from the pump. There is 80 gpm (4,800 gph) of water being pumped.

According to the chart above, 80 gpm in 100' of 2" pipe creates 9.94" of head. Since this example shows 50' of pipe being used, we would divide 9.94 by 2, which equals 4.97" of head from friction loss.

$$\begin{aligned}
 &6' \text{ Vertical Lift} \\
 &+ \\
 &4.97' \text{ Friction Loss} \\
 &= \\
 &10.97' \text{ Total Dynamic Head}
 \end{aligned}$$

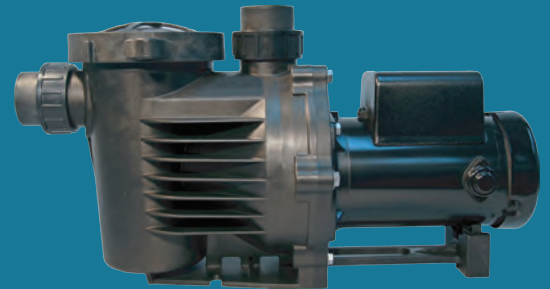

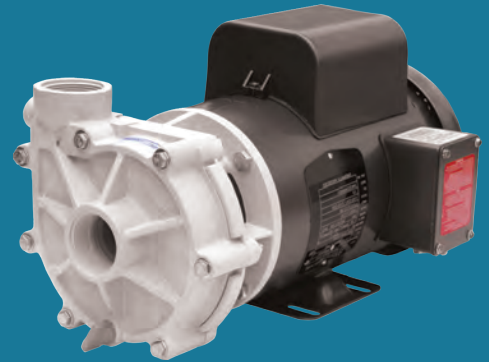

External Pumps

EasyPro® offers a variety of non-priming and self-priming external pumps. External pumps offer several advantages over submersible pumps, including reduced energy costs and longer average life span.

Non-priming pumps are best in flooded suction applications. This means the pump sits below the water level it is pumping. Examples would be alongside of a fish tank or in a pump chamber buried alongside of a pond. These pumps can sit above the water level, however, a check valve must be used on the end of the suction line to keep the pump primed.

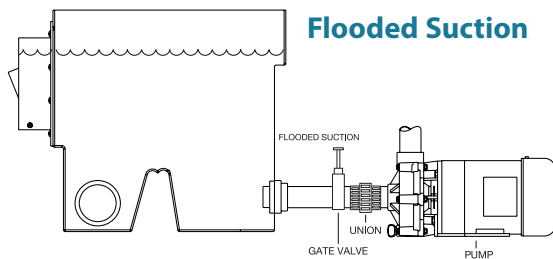

Self-priming pumps have the capability of purging some air from the suction line and priming themselves (after filling the pump with water the first time). These pumps can sit above the water level without a check valve in the suction line, however, using a check valve speeds up the priming process and ensures a quick flow when the pump is plugged in.

See the **pump comparison chart (page 104)** of our most popular external pumps. This chart will help you select the pump best suited for your application. Start by finding the feet of head column on the right side of the chart. Look down the numbers under the feet of head in your application to find a pump that provides the amount of water needed.

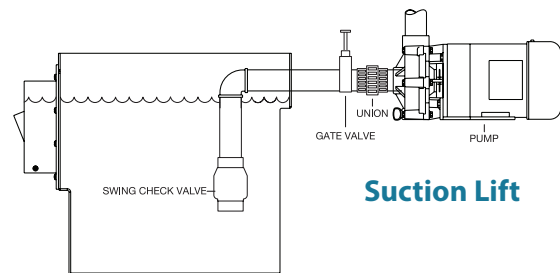

PRO-TIP Operating an External Pump

Proper plumbing selection and set up is important when choosing to use an external pump. Below are some ways to set up an external pump with a skimmer. There are limits to how high a pump can be placed in a suction lift set up. Each pump is different, but these general layouts show how an external pump can be used. There are two basic set ups with an external pump: flooded suction or suction lift.

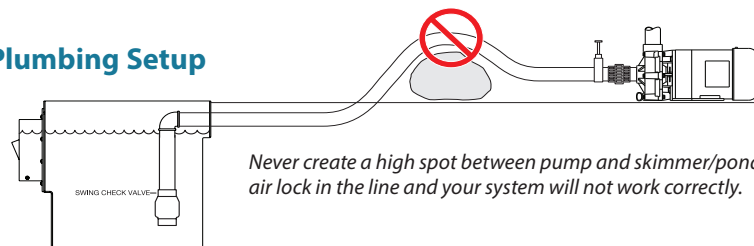

A flooded suction set up is where the pump is situated below the water level and the water flows by gravity to the pump.

A suction lift set up is where the pump is located above the water level. "Suction lift" is a technical term for this set up, it does not mean that the pump acts like a vacuum cleaner.

Improper Plumbing Setup

Never create a high spot between pump and skimmer/pond, it will create an air lock in the line and your system will not work correctly.

See easypro.com for more information on selecting the right pump

SINCE 1970

EasyPro Pumps *Only Nature Does It Better*

Medium Head External Pumps

If you are looking for great quality and an affordable price point, look no further!

- UL listed, 115v energy efficient motors with 6' power cords on all models
- Strainer basket with clear lid for easy inspection
- Safety rated for pool use
- GV100 and GV150 have horizontal/vertical discharge in one assembly
- 1½" fpt inlet/outlet with free unions on GV75S and GV100S
- 1½" slip PVC inlet/outlet with free unions on GV100 and GV150

2 Year Warranty

All pumps performance tested before leaving factory

Variable Speed Pumps

Allows user to speed up or slow down motor for maximum energy savings

2 Year Warranty

- Unique design allows motor to operate at various rpms
- Easy to use digital keypad allows for single programming
- Not self priming, use with check valve or flooded suction
- No power cord - set up to be hard wired
- Safety rated for pool use
- Totally enclosed, fan cooled motors, no weather protection needed
- VSP165N - 1.65 hp, 230 volt single phase power input
- VSP270N - 2.7 hp, 230 volt single phase power input
- **Free Unions Included!**

* Actual amp draw will depend on operating rpm speed

External Pumps

EX6100

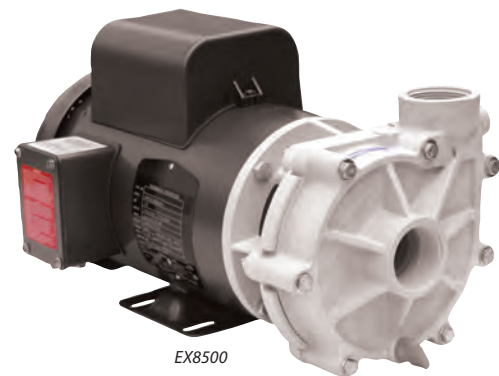

External Low Head Pumps

Ideal for koi ponds, external filters and low head water falls, these reliable pumps are a great value!

- Continuous duty, weatherproof motors — can be used outdoors without additional protection from weather
- 8' power cord included
- Not self-priming — use in flooded suction applications or with check valve on suction line to maintain prime
- All sizes (except EX3600) have dual voltage motors, pumps are shipped 115v but can easily be field changed to 230v

Extra Quiet Operation!

SINCE 1970

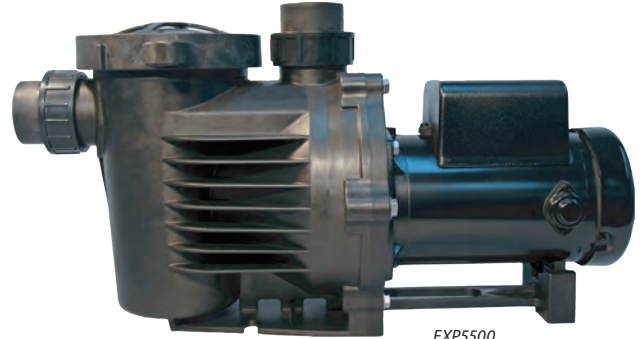

Self-Priming External Pumps

EXP Series - The all-in-one!

An excellent blend of power, energy efficiency and durability. Designed with longevity in mind, these rugged units feature corrosion and abrasion resistant components, stainless steel shaft seal, integrated strainer basket and self-priming convenience.

- Designed for continuous operation
- Long life, corrosion resistant, stainless steel shaft seal
- Dual voltage motors - voltage can easily be field changed. 8' 115v cords included on all models except for EXP9500HP, which has no cord and must be hard-wired.
- Approximate dimensions: 12.75" tall x 10.75" wide x 25.75-28.375" long
- 2" union fittings are included
- Very quiet motors
- 3 year limited warranty

EXP5500

EXP Self-Priming, Low Head External Pumps

- Dual voltage motors with 8' power cord. Pumps are shipped 115v but can easily be field changed to 230v
- Very quiet operation. Motor is totally enclosed and fan cooled (TEFC) for durability.

Part #	Maximum Flow gph	Maximum Watts	Maximum Amps 115v	gpm @ feet of head				Maximum Head	Stocking Code	Ship Weight	List Price

EXP Self-Priming, High Head External Pumps

- Powerful, continuous duty motors
- Very quiet motors — Open drip proof (ODP) design does require protection from weather
- Ideal for formal fountains and other applications needing high pressure
- EXP6500HP: Dual voltage motor with 8' power cord. Pumps are shipped 115v but can easily be field changed to 230v.
- EXP9500HP: Dual voltage motor. Pumps are shipped with no cord - pump must be hard-wired.

Self Priming, External Pumps

These pumps offer higher flow rates and higher head pressures

They are ideal for medium flow, medium head applications where the safety of an external pump and the convenience of a self primer are desired.

- Self priming — will prime up to 5' above water level
- 3" inlet/outlet unions included
- Extra large strainer basket — reduces cleaning frequency
- Very quiet motors — open drip proof design does require protection from weather
- PCA75 is dual voltage and can be field changed to 230v — 1.5, 3 and 5 hp are 208-230 volt only

3 Year Warranty!

3/4 hp pump includes 6' 115 volt power cord. 1.5, 3 and 5 hp pumps do not include cord

External Pumps

SINCE 1970

Goolds High Volume, Low-Head Pumps

Goolds pumps are known world wide for their high performance and reliable, continuous duty operation

- Totally enclosed, fan cooled motors — can be used outdoors without further protection
- All motors can be field wired 115, 208/230 volts, except 5 hp must be 208/230 volts only
- Discharge can be rotated 90° to accommodate plumbing
- Stainless steel shaft and wear plate for long life
- Not self priming — use a check valve on suction line for self priming applications
- One year limited warranty

Our Largest 115v External Pumps!

Pump Accessories

Submersible Pump Screens

Use these handy intake screens with any submersible pump when pumping water from a lake, pond, river or tank. These sturdy built screens will protect pump from sticks, weeds, fish and other large debris.

- Available in two sizes — 12" diameter x 14" tall or 20" diameter x 18" tall
- Heavy duty 1/2" x 1" epoxy coated, galvanized, mesh screen
- Drawstring top allows for easy pump removal/inspection and will draw up tight to any pipe from 1 1/2" to 4" in diameter
- Screens can be used vertically or horizontally

SPS20 shown with EasyPro TH150 Pump

Part #	Description	Stocking Code	Ship Weight	List Price

High Volume Centrifugal Pump Intake Filters

For high volume pumping applications these heavy duty pump intake screens are the answer

For most high volume pumps, these filters are a better choice as they will allow fine particles through — so screens will not plug up as often yet will still keep out large objects such as sticks, fish and weeds.

- Epoxy coated heavy gauge galvanized wire, will not rust or corrode
- Mesh size is 1/2" x 1"
- Includes PVC swing check valve to keep pumps primed

Four PIF8 Intake Filters used to create a 5000 gpm waterfall

Flexible PVC Pipe

SINCE 1970

All EasyPro® flexible PVC pipe is made in the USA from virgin materials ensuring the highest quality

- Available in ½" through 4" diameters
- All sizes will glue into schedule 40 PVC fittings — no special fittings or glue required
- Very flexible — temperature range is -10°F to 130°F
- Eliminates back pressure caused by sharp turns in standard PVC fittings and increases flow
- Increases efficiency of system while reducing fittings and installation time
- Rolls up to 2" can ship Small Parcel, 3" and larger rolls must ship via motor freight
- Dimensional shipping rates may apply

Kink Free & Vinyl Tubing

Kink Free Tubing

High quality kink free tubing is a popular choice for pond and water garden applications

- Smooth inside for maximum flow, ribbed outside for increased strength
- Will not crimp or collapse around curves
- Installs with less fittings than rigid tubing due to flexibility
- Safe for fish and plants
- Temperature range of -15°F to 190°F

Bulk Rolls for maximum savings

Inline Flow Meter

This inline flow meter allows for accurate and reliable flow rate measurement without sticking floats or paddle wheels.

- Great for filter systems and UVs, 95-98% accuracy
- Can be installed right next to tees or elbows in any position
- 2" model has integrated check valve
- 2" body is CPVC, 3" and 4" body are PVC
- Fits schedule 40 or 80 pipe

5 Year Warranty!

PVC Check Valves

Union Style

- Same as SLIP x SLIP with the addition of a union on each end
- The union allows you to glue your line together and still get it apart
- Much more secure connection than rubber couplings in high pressure applications

UCV20

SLIP x SLIP Style

- These PVC swing check valves are recommended whenever maximum flow is needed
- Swing checks have full flow design for maximum gpm and are completely non-metallic ensuring years of use in water
- Ideal for use in fresh or salt water, are rated to 100 PSI, mount vertical or horizontal, and can be used with schedule 40 or 80 PVC pipe
- SLIP x SLIP only

Complete Fish Systems are ideal for classrooms, aquaponics, hydroponics, retail fish sales and more!

Excellent filtration is the key to any fish system, which is why we use EasyPro® Pressurized Bead Filters for the best in mechanical and biological filtration.

RCS2BL

The Fish System 1

This single tank set up requires less than 6' x 8' of space. Commonly used in retail stores and pond shops, but can also be found in many aquaculture classrooms.

System Includes:

- One PT6530 300 gallon fish tank - 65" diameter x 30" deep with pre-drilled drain holes for easy installation
- One EX3600 EasyPro® 3600 gph external pump. This whisper quiet, low-RPM pump is also energy efficient at only 1.4 amps
- One PBF1800 EasyPro® Bead Filter rated for up to 60 pounds of fish. Add the optional backflush blower to make your routine cleaning faster and use less water.
- Includes all necessary fittings, valves, unions, pipe, etc.

System 1

Best Seller!

RCS3N

The Fish System 2

Dual 300 gallon tanks allow you to keep different species or sizes of fish in the same system. A best selling system due to its increased capacity with minimal additional cost to a single tank setup.

System Includes:

- Two PT6530 300 gallon fish tanks - each is 65" diameter x 30" deep with pre-drilled drain holes for easy installation
- One EX4500 EasyPro® 4500 gph external pump. This whisper quiet, low-RPM pump is also energy efficient at only 2.7 amps
- One PBF3600 EasyPro® Bead Filter rated for up to 150 lbs. of fish. Add the optional backflush blower to make your routine cleaning faster and use less water.
- Includes all necessary fittings, valves, unions, pipe, etc.

Round, Flat Bottom Tanks

We've sold these tanks all over the United States and in Canada for a wide variety of applications including aquaculture production, koi display tanks, filtration tanks, holding tanks, etc. Tanks are nestable for reduced shipping cost. Does not contain bottom drain - use bulkhead fittings on page 119.

Part #	Diameter	Depth	Capacity	Stocking Code	List Price
PT6530	65"	30"	300 gallon	562399	\$779.99

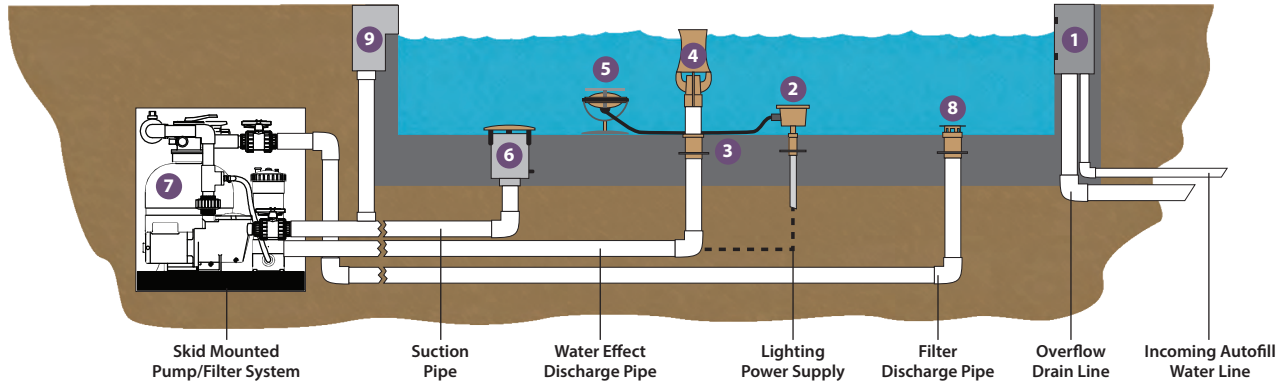

Get inspired to build a **SHOW-STOPPER!**

Since every feature is custom designed, we ask you to contact us with your plan details and we will prepare a quote for you. Due to the complex nature and extra time required, a nominal fee may be required on some jobs to prepare a quote.

Cross Section of a Typical Formal Fountain

Formal fountains can also be built with a sump in the floor holding a submersible pump instead of a skid mounted external system

VanBoxel (MI)

Reflections Water Light Stone (IL)

Typical components used in a formal design. Depending on project, some or all may be used.

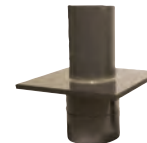

1 Fill/Overflow Wall Box
Add water for evaporation loss or drain excess rainwater with these flush mount wall boxes.

See page 124

2 Bronze Lighting Junction Box
Available for up to eight lines — combines all lighting cables into one supply box.

See page 129

3 Water Stop Flange
Prevents water loss along all PVC pipes penetrating through concrete walls/floor. Many sizes available.

See page 129

4 Spray Nozzles
Many styles and sizes to choose from.

See pages 125-128

5 Lighting
Create night time sizzle with underwater lighting.

See page 129

6 Floor Drains
Intake water to pump comes from these floor drains.

Special Order

7 Pump/Filter
A variety of pumps, filters and chlorinators are available as individual items or turn-key skid mounted systems as shown here.

See page 123

8 Filter return
Excess water from pump/filter is returned up through floor inlets.

Special Order

9 Wall Skimmer
Skims pool surface eliminating hand removal of debris.

See page 124

SINCE 1970

Formal Fountains

Skid Mounted Cartridge Filtration Systems Plug and Go!

These skid mount fountain filtration systems come fully plumbed and ready to work. Simply connect your incoming and outgoing water lines and installation is complete!

Small Base Kits come on a 16" x 22" base and include a pump and cartridge filter with all plumbing including a water bypass line around filter.

Medium Base Kits come on a 32" x 32" base and include a pump, cartridge filter and a chlorinator. Fully plumbed with Sch. 80 fittings and pipe including a bypass around the filter/chlorinator.

WeekEnding, Inc. (MI)

Custom Skid Mount Cartridge Systems

EasyPro® builds these skid systems in house allowing us to build to your exact needs. Typically a filtration system is combined with a large, high volume pump for projects needing high flows. Contact us with your needs and we will provide you a quote based on your requirements.

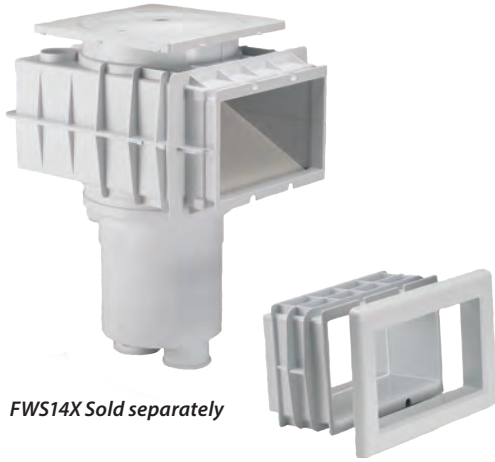

Cartridge Filters

Provides mechanical (not biological) filtration — ideal for formal fountains

- The injection molded tank construction provides dependable corrosion-free performance
- The filter is designed with a lock ring lid closer to make access for cleaning a snap
- Cartridge with 100% polyester media provides long cleaning cycles resulting in longer life
- Built-in air relief valve and pressure gauge
- Equipped with 1/2" quick disconnect unions and large 1 1/2" drain plug for easy debris removal

Part #	Description	Diameter x Height	Inlet/Outlet Size	Max gpm	Stocking Code	Ship Weight	List Price
PCF90	90 sq. ft. filter	10" x 28"	1 1/2"	70	6343992	18 lbs.	\$429.99
PCF120	120 sq. ft. filter	10" x 34"	1 1/2"	95	5415993	21 lbs.	\$519.99
PCF90C	Replacement cartridge element, 90 sq. ft.			-	9151998	5 lbs.	\$189.99
PCF120C	Replacement cartridge element, 120 sq.			-	7191993	4 lbs.	\$239.99

FWS14X Sold separately

Concrete Wall Skimmers

Rugged design with large filter basket

- Pours into concrete wall along perimeter of pool — connects to external pump
- 2" fpt outlet to pump
- Cleanout lid can be secured with stainless screws and has adjustable height
- Throat extensions are available in 3/2" increments
- Can be used in tandem with floor drains

Part #	Description	Stocking Code	Ship Weight	List Price
FWS14	Wall skimmer, 14" wide	4207992	12 lbs.	\$259.99
FWS14X	Throat extension, 3/2"	923996	5 lbs.	\$29.99

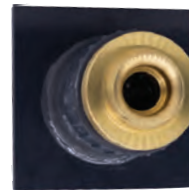

Chlorinator

Easy to install

- This simple in-line chlorine feeder is designed to install in the return water line (after the filter)
- 1 1/2" fpt inlet/outlet (unions not included)
- Built-in flow control to regulate chlorine levels in water
- Nine pound capacity

Part #	Stocking Code	Ship Weight	List Price
CHL9	4134991	5 lbs.	\$149.99

"Eye Ball" Returns

New!

Create adequate flow and circulation in formal pools with these high quality returns. Available in brass or high-strength PVC.

- Water stop flanges embed in concrete wall — eye ball threads into flange after pool is built
- 1 1/2" schedule 80 PVC connects to plumbing with PVC coupler. (sold separately)
- Eye balls are adjustable up to 15° in all directions.

Part #	Description	Stocking Code	Ship Weight	List Price
EBR15B	1 1/2" Brass Eye Ball Return	4299997	3 lbs.	\$399.99
EBR15PL	1 1/2" PVC Eye Ball Return	8149992	2 lbs.	\$199.99

Wall Mount Autofill/Overflow Box

New!

Protect your features from evaporation loss or overflow from excess rain water.

Now includes mechanical autofill valve!

- 8" x 10" box buries flush in concrete sidewall
- 3/8" fill is used to add makeup water to feature. Connect to water supply line.
- Includes 3/8" female npt pipe threads
- 2" overflow drains off excess rain water. Connect to drain.
- Stainless steel cover plate
- Pre-installed bonding lugs

Part #	Stocking Code	Ship Weight	List Price
WMB810N	2337496	9 lbs.	\$449.99

For more fountain options, check out our Lake & Pond Catalog!

Call 800-448-3873 or go to our website easypro.com to get your copy today!

Bronze Spheres

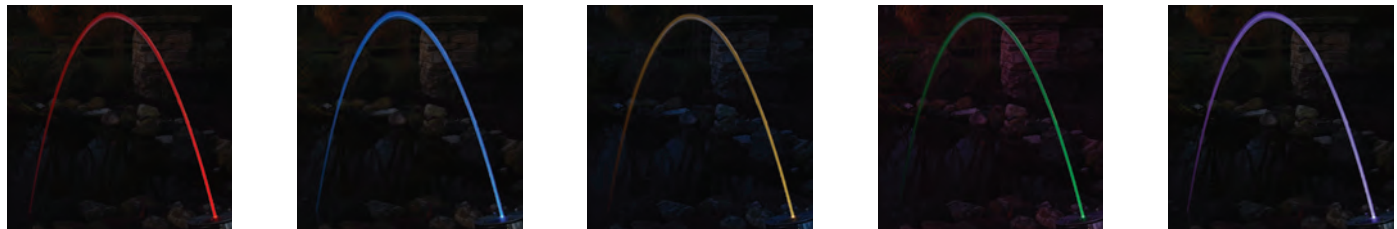

Create a stunning display with these bronze sphere nozzles

- Must be used in formal pools and with pumps having strainer baskets and/or cartridge filters inline to remove any debris from water
- Available in 1", 1½", 2" and 3" female pipe thread inlet sizes
- Stand pipe not included, source locally to meet desired height of sphere
- Special order - please allow 2-3 weeks for delivery

Part #	Inlet Size	Spray Dimensions*	Flow Rate @ 30' head	Number of Arms	Arm Length	Center Ball Diameter	Stocking Code	Ship Weight	List Price

*Varies by height placement

Arching Stream Fountain

Add a touch of elegance to any pond, pool or formal fountain with these arching jets of water

- Flow range of 800 gph to 1500 gph recommended, can be installed with most small pumps
- A 6' to 10' arch with heights of 5' to 6' is ideal, longer arches can be made when installing indoors where there is no wind
- For use in clean water applications, internal sponge filters remove fine particles that can disturb flow — periodic cleaning of sponges is necessary to maintain proper flow
- 1" barbed inlet
- Color changing LED light has 16' power cord/ transformer and remote control
- Discounts available when purchasing multiple units, please call for more information

Snap Code for Video

See the Arching Stream Fountain in action!

Kit includes pump, ball valve, fittings and 12' of tubing
LED light remote control lets you choose and lock on any color or have it rotate through the colors

Part #	Description	Stocking Code	Ship Weight	List Price
ELN75	Arching laminar stream fountain w/multi color LED & remote control	9399998	12 lbs.	\$499.99
ELN75K	Arching laminar stream fountain kit (above) w/nozzle, 1000 gph pump & tubing	3547649	20 lbs.	\$699.09

Smooth Jet Nozzles

Use these nozzles to build custom spray rings

Nozzles can be installed vertically or at an angle. This feature has smooth jet nozzles surrounding frothy nozzles.

FCJN Series

- Swivel base
- Built in flow adjustment screw allows you to easily change spray pattern
- Available in 1/2" and 3/4"
- Female threaded inlet

AJN Series

- Swivel base
- Larger diameter orifice for better sprays in windy conditions
- Available in 1/4" and 1/2"
- Male threaded inlet

SJN Series

- Swivel base
- Longest nozzle gives best arch — ideal for long distance sprays
- Available in 1/2" to 1 1/2"
- Female threaded inlet

Bronze Frothy Nozzles

- Popular nozzle produces a thick, foaming geyser that creates an eye catching column of spray, often used in multiple nozzles, at different heights for a dramatic display
- Due to air being mixed with water at the nozzle, it is important that the water in the pool stays at a constant level
- Built-in swivel allows nozzles to tilt up to 15° any direction

Truestone Distributors (OH)

SINCE 1970

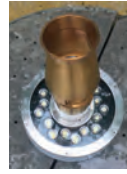

Formal Fountains

Brilliant LED Fountain Ring Lights

These IP68 rated stainless steel lights are designed to slide over top of fountain stand pipes and illuminate formal water features, they can also be used in waterfalls and ponds.

- 15' power cords
- 12v power, use with EasyPro® transformers on page 55
- Adjustable - lights can be mounted at desired height on stand pipe and secured in place with stainless mounting screws (included)
- 2800-3000 K warm white LED

Bright LED lights can be attached directly to fountain stand pipes!

5 Year Warranty!

Part #	Description	Fits PVC Stand Pipe	Light Dimensions	Stocking Code	Ship Weight	List Price
BFL9	9 watt fountain light	1" diameter	6½" dia. x 2⅞" h	2153674	5 lbs.	\$204.89
BFL12	12 watt fountain light	1½" diameter	7⅞" dia. x 3⅞" h	3207379	6 lbs.	\$276.49
BFL18	18 watt fountain light	2" diameter	7⅞" dia. x 3⅞" h	6247278	7 lbs.	\$329.69

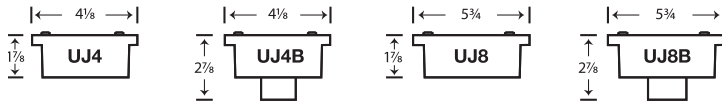

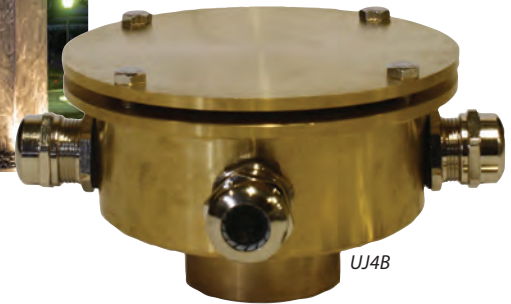

Bronze Underwater Junction Boxes

- Connect multiple fountain lights to a single power supply with these bronze junction boxes
 - Available in two sizes - four or eight outlet
 - Also available with solid bottom or built-in 1" threaded inlet in bottom which can thread onto BWF10 bronze flange (below), once installed fill with junction box potting compound (sold separately)
 - UJC fills one UJ8 or two UJ4 boxes
- Not for use in swimming pools*

Beaubien Landscape, Inc. (MI)

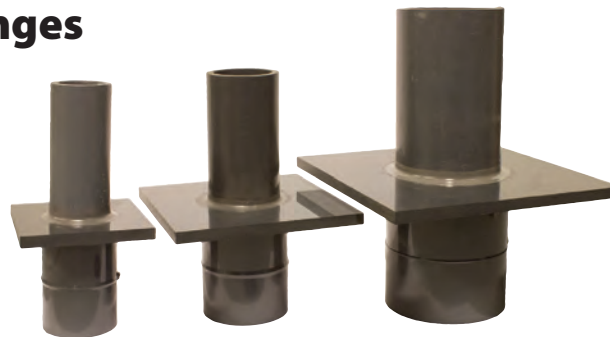

Part #	Description	Stocking Code	Ship Weight	List Price
UJ4	Four outlet junction box, no bottom inlet	5119992	3 lbs.	\$159.99
UJ4B	Four outlet junction box, 1" fpt bottom inlet	6134993	3 lbs.	\$179.99
UJ8	Eight outlet junction box, no bottom inlet	7202498	5 lbs.	\$269.99

EWFT80	8" PVC flange	20"	6352496	14 lbs.	\$469.99

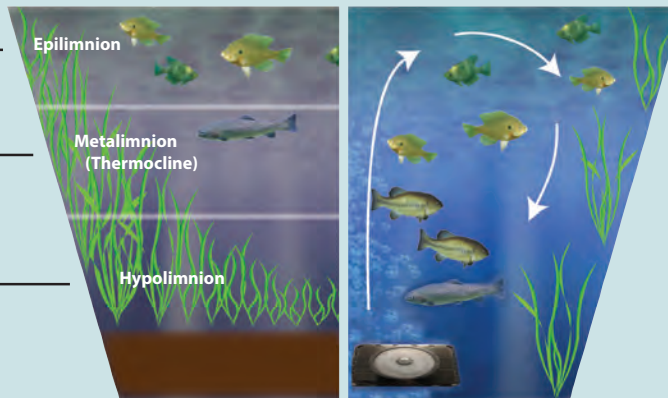

“The “engine” that drives everything within a body of water is the presence of oxygen in proper levels.”

Ponds and lakes are valuable natural resources. They add beauty to the landscape, provide recreation and are a habitat for fish and wildlife. A natural body of water is a complex biological, chemical and physical community. The quality of the water determines the health of the entire community and the aquatic organisms living within the system ... from microscopic bacteria to the largest fish!

The “engine” that drives everything within a body of water is the presence of oxygen in proper levels. A pond’s condition deteriorates when its bottom environment cannot support aquatic life. The bottom is where the most oxygen is consumed and the farthest from the surface where it is replenished. Without adequate oxygen at the bottom, beneficial bacteria do not break down the organic waste. This results in increased layers of sediment (muck) along the pond bottom. Simply put, without oxygen a pond cannot clean itself!

Stratified without Aeration De-stratified with Aeration

- Warm, typically oxygen-rich
- Recurrent surface scum
- Floating weed masses
- Zone of decreasing water temperature
- Zone of decreasing dissolved oxygen
- Zone completely void of oxygen
- Cold water temperature
- Accumulating organic muck
- Weeds prevalent
- Unusable by fish and all aerobic organisms

- Uniform temperatures
- Uniform oxygen levels
- Fish can use the entire pond all year long
- Improved water clarity
- Reversed aging effects
- Improved natural pond bacteria populations
- Improved fish habitat
- Less organic material accumulation
- Protection from winter and summer fish kills
- An enhanced pond ecosystem
- Reduced surface scum build-up
- A better swimming and recreation area

We can get you the results you're looking for.

Aeration Installing aeration to your pond or lake is the single **most** valuable water management and water maintenance strategy a person can implement. The movement of oxygenated water from the bottom up provides a **long** list of benefits to your water. Ponds and lakes age — the older a body of water, the higher the organic muck load and the higher total oxygen demand (TOD). Aeration can stop, and even reverse, the effects of aging. Oxygen is the “fuel for the engine” that drives all biological and chemical processes in your water.

Beneficial Bacteria Adding bacteria on a regular basis will improve water quality and clarity, reduce odors, improve oxygen levels and create a better environment for fish and other aquatic life. Combining aeration with additional bacteria is a proven method of reversing the aging process mentioned above. Supplementing your pond with natural bacteria to help reduce sludge build-up is a widely used practice.

Weed and Algae Controls There are a wide variety of treatment products available to safely control aquatic weeds and algae in lakes and ponds. These tested and approved products are a safe, quick way to gain control of water infested with undesirables or too many plants. The use of these products is a good short term solution to a problem, however, to gain long term control you should look at the overall ecosystem and determine the source of the problem. Often aeration and/or the use of bacteria will greatly improve the system and use of aquatic chemical herbicides can be reduced.

The aeration products shown in this catalog are only a small sampling of what we offer. See our Lake & Pond Management Catalog for our complete aeration line!

EasyPro® is a leader in the field of lake and pond management. Combined, our sales staff has over 150 years of lake and pond management experience — we can assist you in developing a management plan for nearly any application, from small farm ponds to large lakes.

We offer everything you need to monitor, treat and maintain earthen ponds and lakes. From testing equipment to weed/algae treatments to aeration systems, our experienced staff is happy to help with any management need. We have a full line of lake and pond products in a separate catalog, contact us for your free copy!

SINCE 1970

Lake & Pond Dyes

Concentrated Pond Dye — Liquid

These concentrated dyes will save you in shipping costs

- One quart is equal to one gallon of other dyes on the market
- This is a nontoxic and harmless pond dye for use in ponds and lakes
- Waters can be used for swimming and irrigation once product is dispersed
- Compatible with most aquatic herbicides and algaecides
- Black dye creates a more reflective surface appearance while the blue dye creates “Caribbean” blue water
- Serenity dye is a mix of blue and black

Liquid Dosage Rate

One quart treats one acre of water 4' deep (approx. one million gallons)

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
ECPD	Blue pond dye, 1 quart	No	12	820996	3 lbs.	\$29.99
ECPDBK	Black pond dye, 1 quart	No	12	824494	3 lbs.	\$34.99
ECPDSB	Serenity pond dye, 1 quart	No	12	322391	3 lbs.	\$31.99

Half and full pallet discounts available - contact us for high volume needs

Concentrated Pond Dye — Powder

- Dry powder dye is cheaper to ship than liquid
- Four - 4 ounce water soluble packets (WSP) per pouch, simply toss into pond for easy application
- Safe for use with fish and aquatic life
- Three WSPs (water soluble packets) will treat one acre, 3'-4' deep
- Each WSP is double sealed in water soluble film

WSP Dosage Rate

Each four ounce water soluble packet treats 1/3 acre, 3'-4' deep

Great Value

- Buy a case of 5 pouches (20 WSPs)
Treats 6.66 surface acres, 4' deep

Best Value

- Buy a master case 20 pouches (80 WSPs)
Treats 26.6 surface acres, 4' deep

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
PD4P	Blue pond dye (dry), 4pk pouch	No	5	327298	2 lbs.	\$38.99
PD4PBK	Black pond dye (dry), 4pk pouch	No	5	730094	2 lbs.	\$42.99
PD4PSB	Serenity pond dye (dry), 4pk pouch	No	5	128698	2 lbs.	\$40.99

Pond-Vive Beneficial Bacteria

SINCE 1970

Our Best Seller!

Pond-Vive

The natural, biological way to revive your pond

A proprietary blend of enzymes and beneficial bacteria formulated to help improve water quality and reduce sludge in ponds, lakes and other water bodies. Pond-Vive works best when used in conjunction with aeration.

- Reduce sludge buildup and eliminate pond odors
- Improve water clarity and reduce oxygen demand
- Eliminate excess nutrients
- Concentration level of five billion colony forming units per gram
- Enzymes - four strains which break down waste into an easier digestible form for the bacteria — speeds up the process!
- Easy to use eight ounce water soluble packets or loose powder
- Reduces ammonia, nitrite, nitrate and phosphate
- Barley straw additive
- Cold weather bacteria strains, for results in temperatures as low as 38°F

DOSAGE RATES

For best results Pond-Vive should be added every two weeks when water temperatures are above 55°F (can be added at colder temperatures but results will be diminished). The amount needed depends on the condition of the pond.

Newer ponds with little "muck"

Apply 4 lbs. per surface acre/2 weeks

For best results the initial application should be doubled to jump start the process.

Example — One 10 lb. Pail Treats:

Pond Size	Newer Pond	Older Pond
1/4 Acre	5 Months	3 Months
1/2 Acre	2.5 Months	1.5 Months
1 Acre	1.25 Months	.75 Months

A 25 lb. pail extends months treated by 2.5 times

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
--------	-------------	---------------	---------------	-------------	------------

Water Soluble Packets —

PB5X	10 Eight ounce water soluble packets (5 lbs.)	4	462991	6 lbs.	\$89.99
PB10X	20 Eight ounce water soluble packets (10 lbs.)	4	9104990	11 lbs.	\$149.99
PB25X	50 Eight ounce water soluble packets (25 lbs.)	2	6244991	29 lbs.	\$349.99
PBX-50B	100 Eight ounce water soluble packets (50 lbs.)	—	7440997	53 lbs	\$629.99

Loose Powder —

PB25XL	25 lb. Bucket (with 8 oz. scoop)	2	7223999	29 lbs.	\$319.99
PB50XL	50 lb. Bucket (with 8 oz. scoop)	2	7412993	53 lbs.	\$589.99
PB100XL	100 lb. Fiber drum (with 8 oz. scoop)	2	2818992	105 lbs.	\$1169.99

PB100XL

Pond-Vive L — Liquid Lake & Pond Bacteria

- Similar to Pond-Vive powder
- Ideal for treating golf course ponds, farm ponds, municipal areas, etc.
- Works to remove ammonia, nitrates, phosphates and sludge
- Two gallons will treat 1/4 acre pond for 10-16 weeks
- Also available in 55 gallon drums and 250 gallon totes

DOSAGE RATES

Initial Dose: One gallon per surface acre every week for four weeks, then maintenance dose.

Maintenance Dose: One gallon per surface acre every two weeks

Problem Ponds: One gallon per surface acre every week until desired results, then maintenance dose.

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
PB128	Pond-Vive L, one gallon bottle	4	434998	10 lbs.	\$49.99

800-448-3873

SINCE 1970

Sludge Remover / Phosphate Binder

Sludge Remover Pellets

Great for spot treating around docks, beaches or partially treating large ponds

Sludge Remover bacteria is designed specifically to remove organic sludge from the bottom of lakes and ponds. Sludge is the result of fish waste, dead algae or plant material, uneaten fish food, leaves and other debris. The pellets, when introduced to the water, sink, dissolve and begin to remove bottom organic sludge — often several inches per year.

Simply toss pellets or blocks in the water for easy application!

- Diminishes bottom sludge buildup
- Removes pond odors caused by stagnant water and decaying material
- Sinking pellets for precise and effective placement when spot treating
- Enhances water clarity and reduces murky water caused by organic wastes
- Helps lower oxygen demand in the pond
- Reduces problem causing nitrate and phosphates
- Fish, family and animal safe

Available in several sizes from 5 pound pails for retail to 50 pound boxes

3 Gram Pellets —

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
ABB05X	Sludge Remover pellets, 5 lb. pail	4	355997	6 lbs.	\$79.99
ABB10X	Sludge Remover pellets, 10 lb. pail	4	197992	11 lbs.	\$139.99
ABB25X	Sludge Remover pellets, 25 lb. pail	2	2230999	29 lbs.	\$329.99
ABB-50B	Sludge Remover pellets, 50 lb. box	—	8433997	53 lbs.	\$619.99

DOSAGE RATES

Spot Treatment

One ounce of pellets covers approx. 200 - 250 square feet of shoreline or beach area — apply every two weeks

Full Pond Treatment

Two 8 ounce scoops per 1/4 acre every two weeks

Phosphate Binder

A critical step in effective pond management and maintenance

This all natural powder formulation provides a non-chemical alternative to using aluminum sulphate (ALUM), to bind problem causing phosphates in pond water. It will also buffer pH, provide approximately 70 beneficial trace minerals, provide minor flocculation (settling) of mud and clay particles and aid in reducing ammonia.

- Improve clarity
- Stimulate biological activity
- Reduce phosphates
- Works great with bacteria

DOSAGE RATE

3-5 pounds per acre-foot of water to lower phosphate levels.

In Oklahoma and Arkansas, we manage over 1400 ponds. Several of our troubled ponds have required a different approach. Since using EasyPro Phosphate Binder in these problematic ponds, our algae has been reduced, density has been diminished and callbacks have gone to zero. Problems have decreased drastically with the use of Phosphate Binder in our waters.

Jason Webber
TurnPro Aquatics

Part #	Description	Case Quantity	Stocking Code	Ship Weight	List Price
NPB15	Phosphate binder, 15 lb. pail	4	377693	17 lbs.	\$110.99
NPB45	Phosphate binder, 45 lb. pail	12	5149994	50 lbs.	\$199.99

†Always refer to label for exact manufacturer's dosage rates and instructions.

The amount of surface area an aeration system will effectively cover is greatly dependent on two factors - depth and shape.

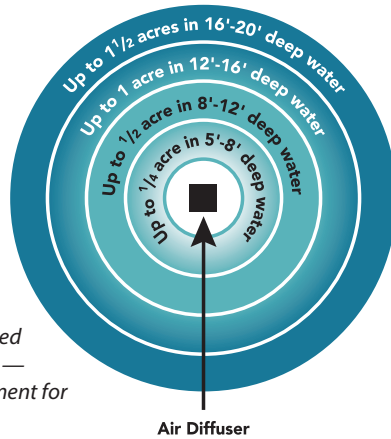

Depth

The diagram to the right shows how much surface area is effectively aerated per air diffuser at various depths:

Example

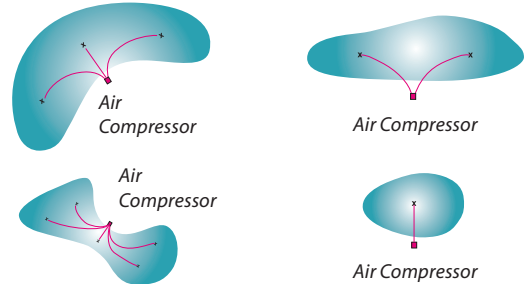

Our PA34 pond aerator would aerate only 1/8 of an acre if operated in 4' deep water, while aerating up to 1 1/2 acres if operating in 16' - 20' of water.

Ponds that are irregular or odd shaped will also reduce size of aeration area — call our technical assistance department for additional help.

Shape

Pond shape affects the amount of diffusers needed. Irregular shaped ponds require multiple diffusers to adequately aerate entire water column.

The deeper an air diffuser is located, the more "boiling action" it will create and a larger area will be aerated.

A unique shaped pond or lake will require more diffusers to cover the same surface area.

Rocking Piston Systems

Base Part #	Horse Power	Diffusers Included	5' - 8' Deep	8' - 12' Deep	12' - 16' Deep
PA34	1/4 hp	1 or 2	up to 1/8 acre	up to 1/2 acre	up to 1 acre
PA65	1/2 hp	2	up to 1/2 acre	up to 1 acre	up to 2 acres
PA66	1/2 hp	3	up to 3/4 acre	up to 1 1/2 acres	up to 3 acres
PA86	3/4 hp	4	up to 1 acre	up to 2 acres	up to 4 acres

PA8SWN

Aeration Kits for Shallow Ponds

For ponds 7' deep or less these linear powered aeration systems are a great choice

- Extremely energy efficient
- Very quiet operation
- Long lasting, oil free design
- Weather resistant enclosures - can be used outdoors, for maximum longevity use additional protection from elements
- Now with self weighted diffusers for easier installation
- Three year warranty on compressors, five years on tubing/diffusers

Choose from either single or double diffuser system. Single diffuser is ideal for round or regular shaped ponds. Use the dual diffuser system for long and narrow or irregular shaped ponds. Both kits include Quick Sink tubing for easy installation.

PA6SWN

BECKER WINDMILLS™
A Division of EasyPro Pond Products®

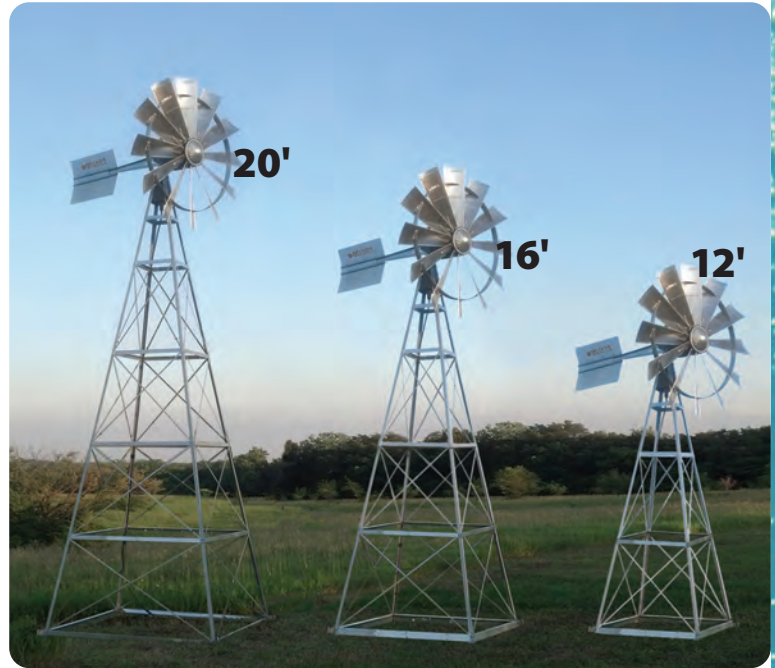

Wind Driven Aerators

Let Mother Nature aerate your pond

Windmill aerators can save \$30-\$50 per month in electric costs, paying for themselves in a few short years. Ideal for aerating remote ponds with no electricity nearby.

- Stable, four leg design
- Long-lasting, reinforced neoprene diaphragm
- 6' diameter head with 12 blades operates in wind as low as five mph
- Produces 2.4-5 cfm (depending on air speed) for ponds up to 40' deep
- Over speed protection — tail section will turn head in high winds preventing over spinning
- Includes 48" long anchor stakes
- Hinge kits included with 16' and 20' units
- Can effectively aerate ponds up to two acres depending on shape and depth
- Windmills can sit up to 1000' away from pond's edge — use poly tubing sold in our Lake & Pond Management catalog

Five Year Limited Warranty

Part #	Description	Overall Height	Base Stance	Stocking Code	Ship Weight	List Price

Two year warranty on Stratus SRC series compressor, five year warranty on tubing, diffusers and cabinets. Available as basic and Sentinel deluxe systems.

EasyPro® manufactures diffused aeration systems from simple, basic systems to complete, deluxe systems. See our full line in our Lake & Pond Catalog. Contact us for more information!

AquaFountain™ 1/2 hp & 1 hp Aqua Fountains

Beautiful • Reliable • Affordable

Rocket Nozzle

Light kit sold separately on page 139

Wide Umbrella Nozzle

Narrow Umbrella Nozzle
(Sold Separately)

For over 25 years Aqua Fountains have proven themselves to be reliable, affordable and attractive!

- Long lasting, energy efficient motor designed for continuous duty operation, with built in thermal and over current protection
- Floats are made from high density foam and protected by a decorative float cover
- Intake screens are aluminum and prevent leaves, algae, sticks, etc. from plugging pump
- 30" minimum operating depth
- 115v units come with timer and GFI; 230v units include timer only, purchase GFI locally
- Pre-assembled and ready to install

Fountains include rocket and umbrella nozzles.

Purchase narrow umbrella separately below.

2 Year Warranty

GFI with timer included on all 115v models

230v units now include timer only panel, without GFI

Cutrine-Plus® Liquid

- A chelated copper algaecide that is safer to use than copper sulfate
- Use for surface or suspended algae
- Apply by sprayer to surface, for best results use with activator (see below)

Dosage Rate[†]

0.6 to 3 gallons per acre-foot

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
CPL	Cutrine Liquid, 1 gallon	Yes	4	944682	12 lbs.	\$55.09

Cutrine Plus® Granular

- The granular form of Cutrine
- For bottom filamentous algae: 20 to 60 pounds per surface acre
- For chara: 30 to 90 pounds per surface acre

Dosage Rate[†]

20 to 90 pounds per surface acre

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
CPG1	Cutrine Granular, 12 lb. jug	Yes	4	649745	14 lbs.	\$62.39
CPG3	Cutrine Granular, 30 lb. bag	Yes	3	395251	32 lbs.	\$121.49

Cutrine® Ultra Liquid

- Ideal for thick walled filamentous algae, colonial planktonic algae and chara
- No water use restrictions
- Dilute and apply by sprayer for best results
- Surfactant/activator mixed in already — no need for additional mixing

Dosage Rate[†]

0.6 to 3 gallons per acre-foot

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
CPLU25*	Cutrine Ultra, 2.5 gallons	Yes	2	5107823	26 lbs.	\$129.69

*Must ship as hazardous material with additional charges via UPS or motor freight.

Hydrothol®

- This granular is a fast acting, contact herbicide effective on a variety of aquatic weeds including milfoil, coontail, hydrilla, sago pondweed, leafy pondweed, curly leaf pondweed and others. Use as a spot treatment early in the season when plants are young and easier to treat.

Dosage Rate[†]

108-270 pounds per acre-foot

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
HYD20	Hydrothol granular, 20 lb. bag	Yes	2	3104192	22 lbs.	\$135.69
HYD40	Hydrothol granular, 40 lb. box*	Yes	—	2198467	43 lbs.	\$257.69

*40 lb. box contains two 20 lb. bags

Propeller®

Fast acting, contact aquatic herbicide

- Controls selected submersed, emergent and floating aquatic weeds. Most effective when applied to young, actively growing weeds in water with a pH of less than 8.5.
- A new treatment option at a time when herbicide resistance, variable response and environmental concern issues loom large
- Ideal for duckweed, watermeal, Eurasian milfoil and water lettuce
- Non-corrosive, fine granule – mix with water to apply. Active ingredient is 51% Flumioxazin.

Dosage Rate[†]

6 to 12 oz. per acre for duckweed/watermeal
1.1 to 2.1 lbs. per acre-foot for submersed plants

Part #	Description	EPA Registered	Case Quantity	Stocking Code	Ship Weight	List Price
PRP1	Propeller aquatic herbicide, 1 lb.	Yes	4	281136	2 lbs.	\$98.69
PRP5	Propeller aquatic herbicide, 5 lbs.	Yes	4	4317691	6 lbs.	\$383.49

No shipment to AK, CA, CT, ID, HI, ME, MA, NH, NY, RI, VT, WA & Canada

[†]Always refer to label for exact manufacturer's dosage rates and instructions.

Where to Buy

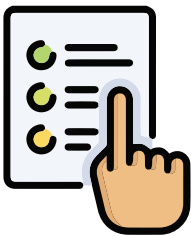

EasyPro Pond Products are available across the U.S. and Canada through our growing network of distributors and dealers. Purchasing EasyPro items through these local suppliers has become the easiest and most cost effective choice for landscape professionals and homeowners. Use the "Where to Buy" section on our website or contact us at 800-448-3873 and we can help you find an EasyPro supplier near you.

Customer Service

Technical Assistance 2023 marked our 53rd year in the aquatics business. We feel it is better to spend time helping you properly select products now rather than spend time with you later helping to solve the problems (and expense) of incorrect products! Please feel free to contact us for free design assistance on pond, waterfall, aeration, filtration, etc. Whenever possible, please send us a diagram of your layout to provide us a visual reference. Fax your diagram to 231-834-5537 or email to quotes@easypro.com.

Large Orders If you are in need of a large quantity of an item (or items), please provide us a list of items and quantities needed so we can quote you prices.

Ordering

For your convenience there is a PDF order form in your **resource portal**. This order form may be filled out electronically and submitted by email or fax.

Place orders in any of the following ways:

Telephone Orders by phone can be placed at 231-834-7720 or toll free at 800-448-3873; Monday to Friday; 8am to 5pm Eastern time.

Fax Orders by fax can be sent to 231-834-5537

Email orders to orders@easypro.com. This email is for orders only. For special project quote requests (ponds, Just-A-Falls, fountains, aeration, etc.) email to quotes@easypro.com. For any other questions, quotes or services, please call us at 800-448-3873.

Shipping Information

Items Less Than 150 Pounds These items typically ship UPS or Fed-Ex. As shipping fees and calculations change frequently from carriers, we strive to provide economical, on time and secure delivery of product. From time to time additional carrier fees are charged for bulky items (filter material, pond kits, etc.), unpackaged goods (i.e. flex pipe, kink-free tubing, etc.), hazardous goods and other special considerations.

Large and/or heavy items are shipped motor freight Last year, we achieved another record by shipping more than **3 million pounds** of freight over truck lines. Because of our large volume, we have negotiated higher discounts with our truck lines from their standard rates. This makes us very competitive when shipping large orders. Motor freight companies charge a residential fee when delivering to a residence.

Damaged Shipments Please inspect your shipment before signing for it! Once you sign for your shipment, the carrier will not be liable for shortages or damage. You can refuse a damaged shipment or accept it with clear notification of damage on the bill of lading. Please call us immediately if you refuse a damaged order so we can accept it back from the carrier and reship your order.

Returns

All returns must have an RA# (Return Authorization Number). This lets us know what is coming back and what to do with it (i.e. credit your account, replace product, etc.). A 10% restock fee will apply to returns unless it is our shipment error. Packages sent to us without an RA# written on them will be refused. All products, including warranty items, must be returned to us shipping prepaid. We will pay the shipping charges on warranty items back to you, but not from you to us. Product over 90 days old is not returnable for credit. Special orders, cut liner and used items are not returnable.

Obtain a Return Authorization ("RA") number by calling EasyPro at 800-448-3873 or via email at warranty@easypro.com.

Payment Options

Credit Cards We accept VISA, MasterCard, Discover and American Express.

Money Orders/Checks Money orders or business checks are accepted as payment.

Net 30 Account Companies wishing to set up an account with us need to fill out our credit application. Schools, institutions and governmental agencies are pre-approved with use of a purchase order number. Interest will accrue on all invoices over 30 days. No orders will be shipped to customers with invoices over 60 days old until account is brought current.

Hours

Business Hours Monday through Friday, 8:00 a.m. to 5:00 p.m. EST
Sales, marketing, shipping and office closed Saturdays and Sundays.

We will be closed for the following 2024 holidays

Memorial Day — Saturday, May 25 and Monday, May 27
Independence Day (US) — Thursday, July 4 and Friday, July 5
Labor Day — Saturday, August 31 and Monday, September 2
Thanksgiving (US) - Thursday, November 28 and Friday, November 29
Christmas - Tuesday, December 24 through Wednesday, January 1

Warranty

EasyPro honors all manufacturers' warranties. Each manufacturer has their own warranty procedure. Some manufacturers allow us to determine warranty for them, while others handle their own warranties. Submersible pumps that have been run out of water, have been altered or have cuts to the power cord will not be covered by warranty. Also, any product not used for its intended purpose, altered, damaged, improperly maintained or neglected will not be covered. Submersible pumps cannot be taken apart, this voids warranty. Shipping costs to us (or to the manufacturer) are not covered by warranty, please insure package when shipping back to us. If product is covered by warranty we will pay shipping costs to ship new/repaired item back to you. Product returned to us for warranty that is deemed in working condition will be shipped back to you at your expense. Be sure your electrical supply is proper before returning pumps to us — each year we get numerous returns that are in good working order only to find the problem was in the electrical supply! A bench fee of \$25.00 will be charged for each pump returned to us that is not broken. Each year we test hundreds of pumps, many of which are fine. This fee covers time and materials used in testing pumps that are in good working order.

A policy of continuous improvement is our goal, therefore products may change from these shown. All prices are subject to change without notice. We make every effort to maintain printed prices however, due to circumstances out of our control, they may change.

Issued January 2024
Catalog #54W

Two Specialized Catalogs!

We're proud to offer the largest selection of products in the industry. Whether a small water feature or a large lake, we have products for nearly every application.

We know your time is valuable. So you can focus on the products you need, we publish two catalogs.

- **The Pond & Water Feature catalog** contains products and information on ornamental ponds and water features.
- **The Lake & Pond Management catalog** contains all of our water treatments, fountains, aeration systems and aquaculture supplies.

Please contact us via phone or website to view or request copies of our catalogs!
