

HERCULES

SEVERE DUTY WATER FEATURE BASINS

These tough basins can be used for weights up to 7000 pounds!*

- For large basals and vase-type fountains
- Saves time and money during installation
 - replaces the need for an offset reservoir system
- Dual pump access lids for easy inspection and cleaning
- Proudly made in the USA

*7,000 lbs when evenly distributed across basin, not in one spot

SDB46

SDB72

Engineered for Durability and Strength

- Molded supports inside transfer the weight to the ground below
- No more bowing and sagging
- No need for concrete support blocks
- Replaces the need for an offset reservoir system
 - no liner, res-cubes or pump vault needed!
