

QUIET LIKE YOU'VE NEVER HEARD BEFORE

Noise reduction technology
exclusive to EasyPro® Aeration

Stratus™ Rocking Piston Compressors with Sound Shield™

EasyPro's best selling Stratus™ SRC Series "Gen 2" Rocking Piston Compressors with the addition of revolutionary Sound Shield technology are the quietest compressors of their class in the industry!

These compressors are specifically designed for the demanding job of 24 hour operation. The oil-less design makes them ideal for lake and pond aeration systems. 1/4, 1/2, 3/4 and 2 hp models available. Stratus™ SRC Series Compressors are assembled in the USA.

**Hear the
Difference!**

Features

- Sound Shield Noise Reduction Technology
- Universal dual voltage, 1725 RPM (50/60Hz) motor
- Oil-less operation
- Permanently lubricated bearings
- Includes **Stratus™ Smart-Start** technology to start under load
- Superior quality, flexible cup material for increased reliability
- Die-cast body components for overall strength
- All units include air inlet filter, rubber feet and 5' power cord
